

## Chapter-1

### History of Banaskantha District

Banaskantha district is a district in the north of Gujarat state. Its territory (land) R3'-33' to 24'- 45' North latitude and 71'-03' to 73'-02' East longitude extends between Marwar and Shihori regions of Rajasthan state in the north, Mehsana district in the south, It is bordered by Sabarkantha district to the east and Patan district to the west. District Area 19,7 x 7 sq. km. is The maximum length of the district is 200 km. And the width is 100 km. The total population of the district is 43,37,04 (According to the census of 2011) is Which is approximately 5.16 percent of the total population of the state. The population density is 233 persons per square kilometer. About 89 percent of the population of the district lives in rural areas. The literacy rate of the district is 6.3%.

#### **Historicity:-**

Banaskantha district consists of the surrounding area on the banks of Banas river. The district is spread over RR-R3 to R4-RP North Latitude and 71-03 to 73-0R East Longitude. Thus it is spread over the north-western parts of Gujarat. Marwar and Shihori regions of Rajasthan state on the north side of the district, Sabarkantha in the east District, Mehsana district in the south and Patan district in the west. Adjacent to the desert is the Pakistan border.

Given the borders of Banaskantha district, this district is of great importance from a strategic point of view. The question of whether this is a border district of Gujarat state remains an important issue from the military point of view. Area of Banaskantha District 19,7 x 7 sq. km. is The maximum length of the district is 200 km. And the width is 100 km. This district is made up of 14 talukas.

Originally this district had 11 talukas in the re-organisation of the district. Radhanpur among them, Two talukas namely Santalpur are

## *District Disaster Management Plan-2024*

---

included in the newly formed Patan district. Palanpur among the remaining 9 talukas, Dhanera, Deodar talukas were divided into three new talukas, Amirgarh, Dantiwada, And Bhabhar is formed. Then in the year 2013, Disa, Tharad, Deodar and Vav talukas have been divided to form two new talukas namely Suigam and Lakhni. Thus, a total of 14 talukas are functioning in the district. Banaskantha According to the 2011 census of the district, the total population is 43,37,504 and a total of 1, There are 10 villages.

Banas and Sipu are the two largest rivers of the district. Dams have been constructed on both these rivers. Apart from that Arjani river which is sacred to Hindu people. It takes the name Saraswati after meeting the river Saraswati at Moreya village in Vadgam taluka, which originates from the hills of Danta and Ambaji.

Dantiwada Dam on Banas River, Sipu Dam has been constructed on the Sipu River and Mukteswar Dam has been constructed on the Saraswati River. Banas and Seepu rivers unite at Bhadath village of Disa taluk and the Seepu river merges into the Banas river.

There are two types of seasons in the district hot and dry. It is very hot in summer and very cold in winter. Part of the Aravalli hills in the eastern part of the district remains forested in the district and includes some parts of Palanpur and Danta talukas.

Palanpur is the headquarters of the district. Collector and District Magistrate at the district level and Deputy Collector and Sub Divisional Magistrate at the provincial level and Mamlatdar and Executive Magistrate at the Taluka level. In addition to the revenue operations, the revenue system in the district handles the work of maintaining full vigilance and preventive measures to maintain law and order. Apart from this, the functioning of Lok Sabha-Vidhansabha general elections, of District-Taluka Panchayat Elections, Handles the electoral functions of Municipalities and Nagar Panchayats and joint functioning of Co-operative Societies. Issuance of identity cards to voters for preparation of electoral voter lists, Small savings, Citizen Supply Public Distribution System, Scarcity-relief like natural calamities, Pur-relief operations, Mid-day meal plan, census, Works

## *District Disaster Management Plan-2024*

---

related to land reform, Issuance of identity cards to citizens of border areas, The destitute and the elderly take care of important work such as providing financial assistance to the disabled.

There is a planning board at the district level. In which the officer performs the duty of District Planning Officer. Development works are carried out in the planning board Dawara district. The revenue system of Banaskantha district is divided into seven provinces. District Head Office : Collector Office, Banaskantha, Palanpur. This district includes a total of 14 revenue talukas. The total population of the district is 43,37, There are 504 and a total of 150 villages are included.

Geographically the north-eastern part of Banaskantha is hilly. While the central part is flat and sandy. The western desert region is a saline region. The main crop in this district is millet, There are sorghum and castor. Wheat in rabi crop, Jiru, Raido, Isabgul etc. Maize is the main crop in the hilly region.

The district is home to the famous temple of Ambaji Mata at Ambaji in Danta taluka and the famous artistic Jain Derasaros built by Vimal Shah of importance in Kumbhariya. In which countless pilgrims from home and abroad come for darshan. Temples of Balaram Mahadev and Bajothiya Mahadev are located in Palanpur taluka. Dharanidhar Bhagwan temple is located in Dhima village in Vav taluka.

Palanpur is the headquarters of Banaskantha district. Palanpur is a major center of diamond industry. Also progressing towards becoming a commercial hub. The diamond industry is a source of employment for the villagers around Palanpur. This diamond industry, which provides employment opportunities, gives Palanpur international fame.

### **Folk life:-**

Banaskantha district has the maximum number of rural areas excluding towns. Lives life drought, Earthquake, Natural calamities like floods with Gar Simple and easy to accept reality life A district of living persons. Bakshi Panch has the highest population in the district. In which

## *District Disaster Management Plan-2024*

---

Thakor, Gopalak, Rabari, Patel, hit, Chaudhary, Brahmin, Muslim, Muman, Darbar all people traditional business and folk life's stressors are united.

Area wise this The district ranks 3rd in the state. There are 14 talukas in the district. The revenue system of Banaskantha district is divided into seven provinces including (1) Provincial office Palanpur which consists of two talukas (Palanpur village/city, Vadgam,) (r) Province Office Disa consisting of two Talukas (Disa Village/City, Kankrej) (3) Province Office Tharad which consists of two talukas (Tharad, sow), (4) Provincial office Danta in which two talukas (Danta, Amirgarh), (P) Province Office Deodar in which two talukas (Deodar, Lakhni), (6) Provincial office Suigam which has two talukas (Suigam, Bhabhar), (7) Province Office Dhanera (Dhanera, Dantiwara)

Banaskantha district consists of total 14 (16 revenue offices) taluks. According to the 2011 census of the district, the total population is 43,37,504 is Among them 6,67,236 are urban population and 36,90, There are 268 rural population. Taking into account the three-tier panchayats and local bodies in this district, there are 14 taluka panchayats and 4 village panchayats and 261 village panchayats. There are total six town municipalities in the district.

### **Climate:-**

This The climate of the district is hot and dry. The district gets very hot in summer. Sometimes the temperature reaches 45 to 46.80. Winters are very cold in this district. And the region adjacent to the desert experiences colder winters. Banaskantha receives moderate rainfall. In western talukas near the desert region, the climate is very hot during the day and cold at night. The average rainfall of the district for the last ten years (year-2011 to year-2000) is 68 mm. And previous years (till year-2017) 731.14 mm. is The soil of the district is mainly sandy, white, hilly, Can be fertilized in silty soils.

### **Rivers and Dams:-**

Banas and Sipu are the major rivers of the district. Saraswati is another seasonal river, Umardashi, Ajruni river is included. Banaskantha

## *District Disaster Management Plan-2024*

---

district is mainly divided by three main rivers Banas, Saraswati and Sipu. Banas river mainly enters the state from Banaskantha and Rajasthan near Palanpur. Dantiwada Dam on Banas River, Sipu Dam has been constructed on the Sipu River and Mukteswar Dam has been constructed on the Saraswati River. Banas river and Seepu river unite at Bhadath village of Disa taluk and Sipu river merges into Banas river. Ajruni river which is sacred to Hindu people. It takes the name Saraswati after meeting the river Saraswati, which originates from Danta and Ambaji hills, at Moreya village in Vadgam taluka. Saraswati River is also known as Kuwarika River.

## **Disaster Risk Reduction Post-2015**

Post 2015, there has been a significant shift from the approach of Managing Disasters to Managing Risk. The three landmark global agreements viz. – the Sendai Framework for Disaster Risk Reduction 2015-30 (SFDRR), Sustainable Development Goals (SDG) and the Paris Agreement (COP21) set the stage for future global action on Disaster Risk Reduction (DRR), sustainable development and climate change.

### **Sendai Framework of Actions for Disaster Risk Reduction 2015-2030**

The Sendai Framework for Disaster Risk Reduction 2015-2030 (SFDRR) was adopted at the Third United Nations World Conference on Disaster Risk Reduction held in Sendai, Japan in March 2015. The SFDRR is a document that outlines four priorities for action to achieve 7 targets, which in turn would lead to one outcome which is a substantial reduction of disaster risk and losses in lives, livelihoods, health, the economy of persons, businesses, communities and countries. India is a signatory to the Sendai Framework for a 15-year, voluntary, non-binding agreement that recognizes that the State has the primary role in reducing disaster risk, but that responsibility should be shared with other stakeholders including local government, the private sector and other stakeholders.

#### **The Four priorities of action are:-**

1. Understanding Disaster Risk
2. Strengthening Disaster Risk Governance to Manage Disaster Risk
3. Investing in Disaster Risk Reduction for Resilience
4. Enhancing Disaster Preparedness for Effective Response and to 'Build Back Better' in Recovery, Rehabilitation and Reconstruction

#### **The seven global targets are: -**

- A. Substantially reduce global disaster mortality by 2030, aiming to lower the average per 100,000 global mortality rates in the decade 2020-2030 compared to the period 2005-2015
- B. Substantially reduce the number of affected people globally by 2030, aiming to lower the average global figure per 100,000 in the decade 2020-2030 compared to the period 2005-2015
- C. Reduce direct disaster economic loss in relation to global gross domestic product (GDP) by 2030
- D. Substantially reduce disaster damage to critical infrastructure and disruption of basic services, among them health and educational facilities, including through developing their resilience by 2030
- E. Substantially increase the number of countries with national and local disaster risk reduction strategies by 2020

F. Substantially enhance international cooperation to developing countries through adequate and sustainable support to complement their national actions for implementation of this Framework by 2030

G. Substantially increase the availability of and access to multi-hazard early warning systems and disaster risk information and assessments to the people by 2030

### **Sustainable Developmental Goals**

The Sustainable Development Goals (SDGs), also known as the Global Goals, were adopted by all United Nations Member States in September 2015 as a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity by 2030. The 17 SDGs are integrated—that is, they recognize that action in one area will affect outcomes in others, and that development must balance social, economic and environmental sustainability. They recognize that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests. To make the 2030 Agenda a reality, broad ownership of the SDGs must translate into a strong commitment by all stakeholders to implement the global goals.

### **Paris Agreement on Climate Change Action and Disaster Risk Reduction (CoP 21)**

The CoP21, the Paris Climate Conference held in December 2015, led to a new international climate agreement, applicable to all countries, aiming at “holding the increase in the global average temperature to well below 2°C above industrial levels and pursuing effort to limit the temperature increase to 1.5°C above pre-industrial levels, recognizing that this would significantly reduce the risks and impacts of climate change”. The Paris Agreement recognized the need for loss and damage associated with the effects of climate change. The agreement identified areas of cooperation central to DRR and called for investments to address the underlying risk drivers associated with rising greenhouse gas (GHG) emission levels and to inspire innovation and low-carbon growth.

The State Disaster Management Plan (SDMP) has tried to envisage coherence across the states.

Efforts for DRR, sustainable development, and the actions in response to climate change.

Prime Minister’s 10-Point Agenda towards Disaster Risk Reduction

The Prime Minister, Shri Narendra Modi, listed a Ten -Point Agenda in his inaugural speech at the Asian Ministerial Conference on Disaster Risk Reduction 2016, held in New Delhi in November 2016 (AMCDRR), which has also been incorporated in the SDMP. The ten key elements consist of the following:

## *District Disaster Management Plan-2024*

---

1. All development sectors to imbibe principles of Disaster Risk Management
2. Work towards risk coverage for all - starting from poor household to small and medium enterprises to multi-national corporations to nation states.
3. Encourage greater involvement and leadership of women in disaster risk management.
4. Invest in risk mapping globally related to hazards such as earthquakes based on widely accepted standards and parameters.
5. Leverage technology to enhance the efficiency of disaster risk management efforts.
6. Develop a network of universities to work on disaster issues.
7. Utilize the opportunities provided by social media and mobile technologies.
8. Build on local capacity and initiative. Response agencies need to interact with the communities and make them familiar with the essential drill of disaster response.
9. Ensuring that disaster learning is well documented.
10. Bring about greater cohesion in international response to disasters.

## **Chapter-2**

### **Concept and Policy**

Disaster can strike at any time. It can be small scale or large scale. At this time preparedness and planning is required to minimize the loss of life and property. It is not that natural disasters are something new or unknown to us. Even in these earlier times we have faced disasters with more or less success. But if we look at history, the modern human race has saved a lot from many such calamities in the past, from the annihilation of entire cultures. Natural disasters can often never be completely avoided. But the impact and loss can be reduced if needed.

Modern disaster management has its roots in these experiences and lessons learned. A disaster management policy and its appropriate impacts can be dealt with by appropriate preparations. The strategic perspective of disaster management to deal with the critical impact of disasters on the state's economic and social development by the state government is linked to the goal of mitigating the effects and building resilience.

#### **1.1 Planning of the Plan:**

The District Disaster Management Plan for Banaskantha District is divided into 11 main sections and Annexure-11. The main sections include the following.

1. Introduction, Concept and policy
- R. Risk and sensitivity analysis (Chapter 9)
3. Advance warning, Relief and rehabilitation operations

Terminology used in planning, Gujarat State Disaster Management Authority is defined in the Act. And the term used is consistent with experiments.

## 1. Purpose:

This article provides basic information needed for disaster management in Banaskantha district.

1. Defined the risks and sensitivities of the citizens of the district regarding various disasters.

It defines the steps to be taken by such parties to prevent/avoid or mitigate the impact of potential disasters in the district. The supporting plans detail the roles and responsibilities of the main and supporting parties in response to specific disasters.

☐ At the taluka level.,

☐ For important industrial locations in the district.,

Standard operating procedures for how specific disaster response operations will be completed have been developed through Chapter 9. Standard operating procedures are the responsibility of the sponsor or supporter and the parties.

### **1.3 Authority and Responsibilities:**

District requirements and secondary schemes, Under the authority of the Gujarat Disaster Management Authority Act of 2003, the Collector is authorized by the Act to secure the cooperation and assistance of other parties in efforts to avoid or mitigate the effects of disasters. Collectors in particular and government bodies in general, Gujarat State Disaster Management, The Relief Commissioner is responsible for the management of hazards and disasters that adversely affect the district with the assistance of other public and private parties as required. Role of Collector and other parties, Responsibilities and duties are detailed in the Act and are considered as part of this scheme.

### 1.4 Concept of Disaster Management:

Implementation and planning of measures to mitigate or reduce the risks of disasters.

☐ To reduce disaster destructiveness or consequences

- ☐ Preparedness for Contingencies and Disasters
- ☐ Assessment of disaster impacts
- ☐ Crisis Assistance, Rescue and disaster rehabilitation and reconstruction

To make provision

- ☐ It is a continuous and internal process of determining the validity of these objectives.

The idea of all types of risk management and authority provides the foundation for disaster management planning and efforts. All types of risk management involve planning and taking action to avoid or mitigate all potential risks affecting the district.

Empowerment means educating citizens to deal with all hazards and disasters that threaten their lives and livelihoods., Empowerment with training and support. Such an authority does not transfer the full responsibility for disaster preparedness to any one person but takes steps in advance of the disaster to ensure that everyone has the necessary tools and assistance to reduce or limit the impact of the disaster. The establishment of the status quo is accompanied by measures and measures to facilitate the rehabilitation process and to make the rehabilitation process less cumbersome.

### **1. Approach to disaster management:**

The Government of Gujarat has a holistic approach towards disaster management. Disaster mitigation is divided into two broad areas.

- ☐ Warning focuses on the planning and action required to reduce the effects of an immediate-onset disaster or to speed up the response to a slow-onset disaster., Assistance and rehabilitation.

- ☐ Causes or effects of hazards or impending disasters, Mitigation focuses on planning or measures to prevent or eliminate, Preparedness and

## *District Disaster Management Plan-2024*

---

Prevention The entire approach to disaster management is based on six (6) mitigations.

- ☐ Accurate assessment of risk and vulnerability (Ref.9)
- ☐ Planning and adequate allocation of resources
- ☐ Capacity building and training
- ☐ Provision of adequate facilities
- ☐ Assignment of disaster management roles and responsibilities that (generally) correspond to common roles and responsibilities.
- ☐ Use of various legal and operational mechanisms to achieve disaster management objectives.

### 1.6. Policy and Responsibilities:

#### 1.6.1. Warning, Assistance and Rehabilitation:

Warning, The goal of relief and rehabilitation measures is to reduce the loss of life and suffering caused by a disaster. District level planning and standard operating procedure(Cf.9 Warning to avoid or reduce harm and hardship, Assistance and rehabilitation As much assistance as possible has been provided. Forewarning,The focal point for assistance and rehabilitation is the District Collector who directs and coordinates such efforts within the district. Collector Alert, Surrounding districts to coordinate support and recovery,Gujarat State Disaster Management Authority (GSDMA) and Revenue Department along with AV

Responsible for coordinating activities.

collector, Assistance in times of disaster, Also responsible for developing long-term plans for recovery and rehabilitation. Such plans include measures to mitigate the effects of future disasters and coordinate with the Gujarat State Disaster Management Authority in terms of policy and implementation.

### **1.6 Rs. mitigation, PRECAUTIONS AND PREVENTION:**

## *District Disaster Management Plan-2024*

---

mitigation, Preparedness and prevention measures are to be taken in advance of a disaster to reduce the probability of a disaster (risk minimization) or the amount of anticipated loss from a potential disaster (susceptibility minimization). Reducing vulnerability is given more priority than minimizing risk. A district can have up to four systems (one or four) to reduce risk and vulnerability.

☐ Mitigation in the district, Long-term planning for preparedness and prevention investments

☐ Regulations especially construction and safety regulations and land use plans

execution

☐ Activities to review and evaluate development plans and identify ways to reduce risks and vulnerabilities, And

☐ Warning, Assessing vulnerability and identifying risks and vulnerabilities at the societal level, including the provision of relief and rehabilitation assistance.

☐ collector, Mitigation using above mentioned mechanism with assistance of District Development Officer, Responsible for development plans and activities related to preparedness and prevention.

☐ Based on an interim assessment of risk and sensitivity, mitigation, The district will focus on the following deficiencies for preparedness and prevention.

☐ To restore the vital supply system. (Water, Electricity and Communication System)

☐ health care, facilities, Reducing the effects of disasters on schools and roads.

☐ Reduce sensitivity in flood prone areas.

☐ Reduce sensitivity to cyclones.

☐ Improvement of disaster preparedness near industrial sites.

### 1.7. Matters and amendments to plan preparation

District Collector, In collaboration with other institutions in the department and district, Responsible for preparing and updating/modifying the District Disaster Management Plan.

☐ When a risk changes significantly.

☐ From lessons learned after a major disaster, Or

When there is a significant change in the organization defined in the Plan or a significant change in the responsibilities of the primary members of the Task Force.

☐ When there is a significant change in the nature of a risk

☐ Based on lessons learned after a major disaster

☐ There is any material change in the organizations defined in the scheme or

When the responsibilities of the primary members of the task force change

☐ This plan will be reviewed every year. And advanced it

Gujarat State Disaster Management Plan will be created and revised authority(G.S.D.M.A) And the relief commissioner will be addressed.

## Chapter-3

### Health Specialist

#### Health Specialist:

There are civil hospitals at Palanpur and Disa in this district.

Apart from this, there is a community health center and a primary health center and an Ayurvedic hospital. Which are as follows.

#### Community Health Centre

### **History of past disasters in the district:**

Due to the flood in the year 1973, the Banas Dam in the district was completely filled due to the gap in the Dantiwada Dam and the dam water was flowing back to the surrounding villages of Dantiwada, the affected people were shifted to Palanpur by government vehicles. In this regard, estimates of the loss of the affected villages were obtained through all the government systems of the district and other operations were carried out. Assistance and cash doles were given to homeless people. Food grains for poor people from Palanpur city, This procedure was carried out by the municipal police by removing the furd packets and clothes.

### **Earthquake-R001 :**

An earthquake occurred in this district on 26 January in the year 2001. In which the earthquake affected eight taluks in the district. Like

## *District Disaster Management Plan-2024*

---

(1) Palanpur (R) Disa (3) Kankerage (4) Deodar (P) Bhabhar (6) Tharad (7) Vav (8) Dantiwada. In which 367 villages were affected by this. 3 people died during the earthquake. To whom the death benefit was given by the government and another 2111 families were processed for payment of cash dol and 1901 families were processed for the payment of household assistance. A total of 993 houses in the talukas of this district, The hut was damaged. To whom raw houses from the government, Damaged houses and destroyed huts, Assistance was paid by building houses. Due to waterlogging due to heavy rains in different talukas of the district and in Palanpur city during the monsoon season, the administrative system took immediate action and evacuated 4613 people., Also, in the morning when the water fills in the low-lying areas, the teams conducted a survey and collected Rs.19 to a total of 783 people in the district., ८९,000/- cash doll and Rs.61 to 689 families, 3 ८,000/- was paid in full.

P) Arrangement of District Emergency Operation Center:

An administrative sanction of Rs.34.94/- lakhs has been sanctioned for construction of a new building of Disaster Management Center in the

district as per plan estimate. According to which the construction has been done. which has been taken over on 6/1/2008. In which the District Emergency Operation Center is currently functioning for round the clock. And this E.O.C. 24 hours duty is given to Class-III employees of the second account in the building and this EOC is done by the office of the District Superintendent of Police. 6 Home Guards are appointed every month at Bhavan. Who performs 24 hour duty of going to Home Guard.

### 6) PRE-MONSOON PREPARATION AND PRECAUTIONARY MEASURES TO BE TAKEN:

From time to time, joint meetings of Liaison Officers/Mamalatdars and Heads of the concerned departments are given necessary instructions regarding pre-monsoon preparations and vigilance measures.

## **Chapter-4**

### **Action Plan**

Banaskantha district consists of the surrounding area on the banks of Banas river., The region is spread over 33-33 to 44-4W north latitude and 71-03 to 73-0E east longitude., Thus it is spread over the north western parts of Gujarat, Marwar and Shirohi regions of the state on the north side of the district and Sambarkantha district on the east.,Mehsana district is in the southern part and Patan district is in the western part of the district., Adjacent to the desert is the Pakistan border.

Considering the borders of Banaskantha district, the district has a multifold significance from a regional perspective., The question of this being a border district of Gujarat State remains important and urgent from the military point of view., The area of Banaskantha district is 19.757 square km. is, The maximum length of the district is 200 km. And the width is 100 km. is, This district is made up of 14 talukas.

In the reorganization of district division, originally there were 12 talukas in this district. Among them, Lakhni and Suigam talukas are included in this district. According to the 2011 census of Banaskantha district, the total population is 43,39, There are 504 and total 100 villages, Banas and Seepu are the major rivers of the district and dams have been constructed on both these rivers, Apart from that, Seepu and Balaram rivers are its tributaries, Ajruni river which is sacred to the Hindu people. It takes the name Saraswati after it meets Moriya village in Vadgam taluka, emerging from the hills of Danta and Ambaji., Dantiwada Dam on Banas River, Shipu Dam is built on the Seepu River and Mukteswar Dam on the Saraswati River, Banas and Seepu rivers merge at Bhadath village of Disa taluk and the Seepu river flows into Banasandi.

Banaskantha district has two types of seasons, Hot and dry, It is very hot in summer and very cold in winter, In the eastern part of the

## *District Disaster Management Plan-2024*

---

district, part of the Aravalli hills remain forested, and includes part of Palanpur and Danta talukas.

Palanpur is the headquarters of the district, Collector and District Magistrate at the district level and Deputy Collector and Sub Divisional Magistrate at the provincial level and Mamlatdar and Executive Magistrate at the Taluka level are performing the duties. Revenue system in the district, In addition to revenue operations, it handles complete vigilance and anticipatory system maintenance to maintain law and order. Apart from this Lok Sabha, Conduct of Assembly General Elections, Handles the functions of district taluka panchayat elections - gram panchayat elections - municipal and nagar panchayat elections and joint functioning of co-operative societies., Preparation of electoral voter lists, Citizen Supply Public Distribution System for issuance of voter identity cards – Scarcity and relief like natural calamities, Flood Relief Operation Mid-Food Scheme Census, Handles work related to land reform. Geographically, the north eastern part of Banaskantha is a hilly region, While the central part is flat and sandy, The western part is a desert region, The main crop in this Banaskantha district is millet, There are sorghum and castor, Wheat in Rabipak, cumin, Raido and Isbagul are there, Maize is the main crop of the hilly region.

Ambaji of Danta taluka in Banaskantha district has the famous temple of Ambajimata as well as famous art work Yukat Jain Derasaro built by Vimal Shah which is important in Kamubhariya. Where numerous pilgrims from home and abroad come for darshan. Palanpur is the main center of diamond industry and is moving towards becoming a commercial center. The diamond industry is a source of employment for the people of the villages around Palanpur. This diamond industry, which provides employment opportunities, gives international fame to Palanpur.

### Planning Considerations:

Banaskantha District's existing disaster management plans are mainly disaster related.

There is a special contingency plan. The following facts are revealed in that plan.

1. The text of the scheme is simple so that the user can understand it easily.
2. Control and monitoring of relief measures with optimal structure is arranged.
3. Response coordination is generally effective.
4. Summons prevention and preparedness aspect is mentioned in it.

The current multi-stakeholder risk management plan for Banaskantha district is essentially a multi-stakeholder risk management plan. A district disaster preparedness and preparedness plan is in place. District requirements and secondary schemes, The Gujarat State Disaster Management Authority is appointed under the authority of the Gujarat Disaster Management Authority Act of 2003.

## Chapter-5

### Risk and Desensitization

Banaskantha district faces many threats in which the threat of disaster is imminent. The threat (risk) and potential impact (susceptibility) that actually arise from such hazards. The impact of a small incident for a village is greater than the incidents that affect the entire state.

Banaskantha in the table shown below DISTRRICT DANGERS, A brief summary of the hazard and disaster impact analysis results is presented. The statistics of this analysis show that Banaskantha Disaster planning at the district level should focus primarily on operational response to floods and droughts. A targeted response to such an event is flooding, Associated with response to hail storm and dam break events. Fire is a definite response to such disaster events, Industrial accidents, Can also be used in critical infrastructure failure and building collapse events.

Special plans exist for drought and flood. A special scheme is also in existence focusing on the investigation of chemical and industrial accidents and the necessary technical measures for prevention or related to such hazards.

Table-1 Risk and Sensitivity Decomposition (Banaskantha)

danger	probability rate	rate of effect	Level of sensitivity	Vulnerable Areas/Talukas	Remarks
drought	3	3	p (mild)	entire district	-

## District Disaster Management Plan-2024

fire	1	1	1 (lower)	Mostly sparsely populated urban areas (including rural areas)	-
Industrial accidents	1	1	1 (lower)	Ambaji	-
spill the oil	1	1	1 (lower)		-
Earthqua ke	1	1	p (low)		-
the heat	1	1	r (lower)		-
railway, way, an accident	1	1	6 (lower)	Ahmedabad to Delhi Line Radhanpur Line	-
flood	3	2	p (low)	heavy rain,or breaking off,Probability due to filling of lakes, Sipu, Saraswati area	-
Terrorism	1	1	1 (lower)		-
stormy wind	1	1	1 (lower)		-

## District Disaster Management Plan-2024

Collapse of critical infrastructure.	<b>1</b>	3	3 (lower)		-
Mine fire/Mine landslide	<b>1</b>	<b>1</b>	r (lower)	Ambaji Mine	-
The building collapses	<b>1</b>	<b>1</b>	r (lower)		-
hail storm	<b>1</b>	<b>1</b>	1 (lower)		-
The ground slipped	<b>1</b>	<b>1</b>	1 (lower)		-
infectious disease	<b>1</b>	<b>1</b>	1 (lower)		-
animal disease	<b>1</b>	<b>1</b>	1 (lower)		-
food poisoning	<b>1</b>	<b>1</b>	1 (lower)		-
break off	<b>1</b>	<b>1</b>	1 (lower)		-
internal turmoil	<b>1</b>	<b>1</b>	1 (lower)		-

Table Note :- Table 1 above is essential for understanding risk and sensitivity decomposition Table 1.1,1.R, And 1.3 is shown next. Keeping in view the probability of hazards and the history of disasters, the probability

## *District Disaster Management Plan-2024*

---

of various disasters in the collectorate district is assigned as per the column below.

probability	probability rate (digits)	detail
A permanent possibility	5	An infrequent occurrence of approximately once a year
potential	4	An event that occurs approximately once every two years
Mild probability	3	An event that occurs approximately once in five years
Sometimes	2	An event that occurs approximately once in 20 years
rarely	1	An event occurring approximately once in 20 to 50 years

### **Table-1.Determining the rate of effect:**

The potential magnitude or impact of each hazard is assessed and the rate of impact is shown in the table below, taking into account past occurrences

effect	rate of effect	detail
destructive	5	collective insecurity, Possibility of heavy casualties, A large proportion of the population requires a large amount of support. An urgent need for technical expertise.
Mathi	4	Fear of insecurity among all people, Confidence impact on vulnerable groups and vulnerable people, of people at random times And the need for saving arises, requiring additional administrative planning and technical expertise.
lighten up	3	Security threats to certain groups, Certain types of intervention are required, Threats to groups that cannot defend themselves.
common	2	Local people and local groups can respond, Temporary insecurity, Local organizations can respond to local communities with technical assistance.
Negligible	1	A general change in the normal situation will not result in loss of life, General injury and property damage

Table-1.3 Determining the level of sensitivity:

In the above tables the number obtained by multiplying the yield of potential and effect indicates the primary sensitivity. A score below 7 indicates low sensitivity, A score of 7 to 15 indicates moderate sensitivity and a score above 15 indicates extreme sensitivity.

## District Disaster Management Plan-2024

Probability and yield	Rate of effect and yield				
	negligible (1)	general	Mild (3)	Mathi (4)	destroyer
Perpetual Potential (P)	low (p)	medium (10)	Medium (1p)	Tall (R0)	tall
Possible (4)	low (4)	Medium (8)	Medium (1r)	tall (16)	Tall (R0)
Gentleness (3)	low (3)	low (6)	Medium (9)	Medium (1r)	Madhyam 1p)
sometimes	low (r)	low (4)	low (6)	Medium (8)	Medium 10)
Rarely (1)	low (1)	low (r)	low (3)	low (4)	low (w)

These three categories relate to disaster sensitivity and disaster response and planning. Provides guidance. Looking at the above tables Eq. It can be that the higher the probability and effect the greater the sensitivity and the lower the probability and effect the greater the sensitivities.

## **Chapter-6**

### **Early warning, Relief and rehabilitation**

#### 1.1. Incident Control System:

When disaster strikes, The response will be planned as per the incident control method adopted as per the situation in the state of Gujarat. A flow chart for the incident control system is given in the Appendix. Following is the information of important positions under the major disaster incident control system under the district level. The persons with primary and alternate responsibility in each field are designated for specific disasters which are as follows:

The relationship between the following roles and responsibilities for the Incident Control Mechanism and Definite Response is such that all these roles and responsibilities will be followed and coordinated by the Incident Control Mechanism/Gujarat State. For example floods, Search and rescue operations"Operation performance" will come under Transport will come under Assistant and Public Information matter will come under Public Information Unit.

#### 1.R. Incident control level(Incident Command Control Room)

##### □ District Control Level:

ò District control level, ò Located at the District Collector's office. It is also the center for information gathering and processing and disaster preparedness. Most of the strategic decisions to be made regarding disaster management based on the information collected and processed are taken at this control level. Incident Commander &ydydy'Ymbhdyat h:?? ò The district takes charge of the control level and controls the emergency operations as per the incident control system management chart. Task Force 8 Tab (R: Ch'All persons taking leadership of Bh9, Collaborate with the Incident Control Commander to coordinate the decision-making process ò The position will be held at the district control level.

## *District Disaster Management Plan-2024*

---

### Task Force Control Level(TFCR) :

From the performance of individual task forces, At the control level of taluka level a competent person competent in technical co-ordination with district level control level and competent in communication system will be assigned to the coordinating office at own control level., and will operate as well as send necessary equipment to the disaster site.

### Taluka level control level(TLCR) :

Control at the taluka level will be at the taluka office. Liaison Officer of concerned taluka will be in charge of control level. Liaison Officers concerned, Equipment Material Movement and Workforce Control Level/ The instructions received from the district control level will coordinate between the members of the force working at the disaster site and the task force control level for further information of all.

### Facilities at District Control Level:

The district control level is equipped with the following facilities:

- ☐ Telephone
- ☐ facsimile
- ☐ Handheld radios and base stations
- ☐ Satellite telephone
- ☐ e-mail, A personal computer with internet and website access
- ☐ Two marker boards with enough markers
- ☐ Conference table with chairs (16).
- ☐ A copy of the disaster management plan
- ☐ Sheet showing safe connection stations
- ☐ Other literature related to it, material

### Facilities at Task Force Control Level:

## *District Disaster Management Plan-2024*

---

- ☐ Telephone
- ☐ facsimile
- ☐ Satellite phone
- ☐ Hand held radiosat/base station
- ☐ Marker Board (1)
- ☐ Copy of Disaster Management Plan and Task Force Plan
- ☐ Other literature, material
- ☐ Reducing vulnerability in flood prone areas
- ☐ Reduce sensitivity to storm/cyclone.
- ☐ Improvement of disaster prevention authority of industrial sites
- ☐ Facilities at Taluka Level Control Level

The following facilities will be maintained at the control level at taluka level.

- ☐ Telephone
- ☐ facsimile
- ☐ Satellite phone
- ☐ Hand Held Radio Set / Base Station
- ☐ Marker Board: No-1
- ☐ Copy of Disaster Management Plan and Manpower Plan
- ☐ Other related literature material

Care and maintenance of the above mentioned items/facilities within the respective control level

The responsibility is as follows:

District Control Level: District Collector or any person nominated

## *District Disaster Management Plan-2024*

---

Task Force Control Level: The person who heads the task force concerned  
Taluka Level Level of Control : Concerned Taluka Liaison  
Officer/Mamalatdar Office

The above mentioned department/staff shall periodically inspect the facilities at their respective control level and keep a record of the same.

☐ Matters to enable the level of control:

After receiving a disaster alert, Key members of the disaster management team, Will report the same to the concerned control level as mentioned below.

Principal members	Where to report?
District Collector	District control level
Resident Additional Collector	District control level
District Superintendent of Police	District control level
Resident Additional Collector	District control level
Deputy Collector (Civil Defence)	District control level
Executive Engineer (Roads and Buildings Department)	District control level
ò District Primary Education Officer	District control level
Executive Engineer (G.P.P. & G.V.Board)	District control level

## *District Disaster Management Plan-2024*

òDistrict Supply Officer	District control level
Superintending Engineer, Gujarat Electricity Board	District control level
òDistrict Health Officer	District control level
Deputy Director (Animal Husbandry)	District control level
òDistrict Information Officer	District control level
Communications Coordinator (Police)	Task Force Control Level (Police)
Communication System Co-ordinator (Search and Rescue)	Task Force Control Level (Civil Protection)
Communication System Co-ordinator (Public Works)	Task Force Control Level (Roads and Buildings)
Communication System Co-ordinator (Shelter)	Task Force Control Level (Education Office)
Communications Co-ordinator (Water Supply)	Task Force Control Level (G.P.P. and G.V. Board)
Communication System Co-ordinator (Food and Social Services)	Task Force Control Level (District Supply Office)

## *District Disaster Management Plan-2024*

---

Communication System Co-ordinator (Public Health and Sanitation)	Task Force Control Level (Health Centre)
Communications Co-ordinator (Electricity)	Task Force Control Level (GV Board)
Communication System Co-ordinator (Support System)	Task Force Control Level (Office of the District Development Officer)
Communication System Co-ordinator (Animal Health and Welfare)	Task Force Control Level (Animal Husbandry Office)
Communication System Co-ordinator (Relief Supply)	Task Force Control Level (Office of the District Development Officer)
Communications Co-ordinator (Communication)	Task Force Control Level (Office of the Resident Additional Collector)
Communication System Co-ordinator (Medium)	Task Force Control Level (Information Office)

### १.3. Incident control communication system

Communication system becomes very important for effective control of any disaster. Below is the communication system adopted by the disaster management team during a disaster. In the event of disruption/breakdown of any communication facility/communication system infrastructure as a result of or as a result of a disaster, The person heading the Disaster Communication Task Force, shall ensure immediate restoration of such facility or infrastructure to ensure uninterrupted communication system for effective operation of disaster management.

## *District Disaster Management Plan-2024*

---

Integrated Radio Communication System (Synthesized Radio Communication):

All control levels have been equipped with radio base stations and all task forces and their contingents have been equipped with handheld radio sets. Different groups using radio base stations/hand held sets are allocated different frequencies to their respective groups for convenience. The frequency channel allotted to each task force is given in the table below. All radio sets are programmed with frequencies for different groups in order to facilitate parallel communication between different groups:

No	Work force/field of operation	Channel
1.	District control level	1.
2.	Law and order and its workforce control level	2.
3.	Search and rescue and its manpower control level	3.
4.	Public works and its workforce control level	4.
5.	Shelter and workforce control levels	5.
6.	Water supply and its workforce control level	6.
7.	Food and Social Services and its Workforce Control Level	7.
8.	Electricity and its workforce control level	8.
9.	Public health and sanitation and its workforce control level	9.
11.	Support system and its workforce control level	11.

## *District Disaster Management Plan-2024*

---

12.	Animal health and welfare and its workforce control level	12.
13.	Relief supply and its manpower control level	13.
14.	Communication system and its workforce control level	14.
15.	Survey and Task Force	15.
16.	Taluka Level Control Level 8TiH 9	16.

### ☐ Telephone :

Telephones are provided at all control levels.

### ☐ Alternative communication system:

A breakdown of the communication system facility/communication system infrastructure may also lead to a situation where all communication facilities and communication systems are down. In the event of a communication breakdown, Until such communication facility/infrastructure is re-established in a functional manner the following alternative arrangement shall be used keeping in view the gravity of the situation:

### ☐ Satellite Communication System:

Once all the communication systems are down, the satellite communication system will be activated as soon as possible. Such facility is established at all control levels. The Telecom Task Force Officer will ensure that this facility is maintained on all occasions.

### ☐ Messengers:

A vehicle will be made available on request to the officer heading the Transport Task Force to use a messenger as a last resort to deliver handwritten messages to concerned persons involved in the disaster.

## *District Disaster Management Plan-2024*

---

Proper use of communication system facility:

If the communication system is not used properly, During a disaster, everything is considered urgent by everyone, resulting in a chaotic situation.

Messaging should be concise and simple.

☐ Telephone/hotline should be used if possible to avoid congestion of radio contact.

☐ All task force members will communicate only through their assigned frequencies to avoid jamming the dedicated channel.

☐ Personnel using radio sets their equipment/equipment, Different channel, Codeword, Length of conversation etc. should be familiar.

## Chapter-8

### Brief details of Task Force

☐ Coordination and Planning:

Forewarning, Coordinating response and recovery operations.

☐ Administration and Protocol:

writing operations and others to ensure effective and timely relief assistance

Providing assistance in disaster management operations by completing administrative tasks.'

☐ Warning:

Collecting and disseminating early warning of potential disasters.

☐ Law and Order:

Ensured enforcement of all laws and maintenance of order in the affected area to do

☐ Search and Rescue (including Evacuation) :

local migration, Manpower necessary to assist in search and rescue efforts and

Providing other equipment.

☐ Public Works:

To support local efforts to restore normal functioning infrastructure provides the necessary personnel and equipment for

☐ Water:

## *District Disaster Management Plan-2024*

---

Drinking water for human and animal consumption and for industrial and agricultural consumption

Provides flood water.

☐ Food and relief supplies:

Provision of basic needs for food and other relief to the affected population

works.

☐ Power Supply:

To restore normal power supply and power system in the affected communities

Provides tools.

☐ Public Health and Hygiene : (Primary Treatment and Medical Care)

Provides staffing and resources related to public health issues, And Restores normal medical care regime.

☐ Animal Health and Welfare:

Provides for health and other care of disaster affected animals.

☐ Asylum:

materials to ensure temporary shelter for the disaster-affected population and

supplies.

☐ Support System:

Facilitate migration in coordination with other departments and competent authorities

Provides for storage and handling of supplies.

## District Disaster Management Plan-2024

---

### ☐ Survey (damage assessment):

Estimate equipment requirements by gathering information on disaster impacts

and develops relief planning and District and State authorities and other appropriate

Compiles reports as required by the parties.

### ☐ Telecommunication System:

All communications necessary to support early warning or post-disaster operations

arrangement (ie radio, T.V., Telephone, Coordinates the operation of wireless).

### ☐ Media (Public Information):

Printing and verification of pre-warning and disaster post-disaster reports

means Provides liaison and assistance in its operations.

The matter of 5gala and who should take 5gala	Requirements or conditions to be fulfilled in order to be eligible	time limit
Disaster		
Initiate search, rescue and evacuation activities.(CMC)	Conducting search and rescue forces.	Immediate
Collect information on extent of damage and affected area.(CMC)	The assessment team has communication systems and vehicles.	Starting in 4 hours.

## *District Disaster Management Plan-2024*

Developing a plan and notifying the Task Force of its location and duties	Information on damage and affected area	Starting in 4 hours.
Employ external resources(CMC)	Loss and need information	Starting in 5 hours.
Full disclosure of public information(CMC)		Starting in 6 hours.
1 hour		
Initiate reporting on steps taken and progress of Task Force. (Task Force)	Managing the communication system.	Starting at 1 p.m.
Reassessment of damage information, tools, requirements and problem areas/activities(CMC)		Starting at 1 p.m.
Starting a staffing hierarchy.(CMC)		Starting at 1 p.m.
Establishing regular contact with state control.	Communication system in progress	Starting at 1 p.m.
All efforts to contribute to relief(CMC)		all the time

## District Disaster Management Plan-2024

Developing critical (key) infrastructure (through public works and other task forces(CMC)		Do it 48 hours before.
48 hours		
Continue to review and re-evaluate performance.	Performance information	
Conduct general damage assessment.(CMC and Damage Assessment Task Force)	As determined.	
Establish a temporary rehabilitation scheme(CMC)	As determined.	
Conditional (assistance systems/equipment) to release from operation(CMC)	As determined.	
Focusing on normalizing the situation.		7 hours before 5
7th hour		
Initiating rehabilitation activities.	Plan	

## District Disaster Management Plan-2024

Conducting detailed assessment of damage and needs and Damage Assessment Taskforce)		
Initiate regular reporting of performance.	Information obtained from operations	as soon as possible
To improve the services of all public and private entities.		as soon as possible
Bodhpath meeting and others)		Two weeks 5
Final Report/Case Study		Activities are completed

### Warning:

Collecting and disseminating information and warning of possible disaster  
Task Force Headed Officer: Resident Additional Collector Banaskantha

5Gala and who should take such 5Gala matter.	Requirements or conditions to be fulfilled in order to be eligible	time limit
Before Disaster		

## District Disaster Management Plan-2024

Checking whether the communication system and warning system are working		Every fifteen days
Keep warning messages prepared in advance		
Warning		
Receiving and Dispatch of Alerts (Task Force)	Coordinating with the Task Force on Remote Communication Systems	As alerted
Verifying and Understanding Alerts Received (Task Force)		Within 12 hours of sending the alert
Verify the warning yourself if possible. (Task Force)		As per the time
<p>Law and Order: Ensures enforcement of all laws and maintenance of law and order in the incident area.</p> <p>Officer-in-Charge of Task Force: District Superintendent of Police</p>		
5gala and who will take 5gala.	Requirements or conditions to be fulfilled in order to be eligible	time limit

*District Disaster Management Plan-2024*

Evaluating generally available resources against expected needs at the time of provision. (Task Force)		To be completed in 8 days.
Estimates of manpower and equipment required for provision (Task Force)	Based on the scale of the number of safety personnel per capita based on the severity of the hazard	To be completed in a week.
Coordination with Planning and Revenue Department (Task Force)		
Conducting drills including creating public awareness (Task Force)	Includes the participation of the Media Task Force.	Every 45 days

Warning
---------

## District Disaster Management Plan-2024

5gala and who will take 5gala.	Requirements or conditions to be fulfilled in order to be eligible	time limit
Checking the Communication System (Wireless Inspector)		Within 1/2 hour of warning
To sensitize the police and task force members (Superintendent of Police)		Within 1-2 hours of warning
Implementation of Standard Operating Procedures regarding division of duties for manpower and other equipment (Police Authority)		Within 1-2 hours of warning
Develop a preliminary estimate of requirements to assist other task forces (Police Commissioners)		Warning in 1-2 hours
Disaster		
To obtain orders from the Control Point for deployment of personnel (Police Subdivision).	Communication system functioning	Immediate

## *District Disaster Management Plan-2024*

Determining the status of personnel and facilities (Police Section)	Communication system functioning	In the 1st hour of disaster
Employing additional employees. (Police Section)	Vehicles should be available.	In 2-3 hours of disaster
Monitoring of Equipment/Materials (Police Division)		Within 1 hour of arrival
Establishment of VVIP Unit (Police Division)		Immediate
Request for additional equipment if required (Police Annex)	Implementation of communication system.	Within four hours of disaster
1 hour		
Initiate regular reporting. (Task Force)	Communication system functioning	As soon as the loan starts
Starting the employee count hierarchy. (Task Force)		As soon as the grant commences
Addressing the problem of crowd control. (Task Force)		As required

## District Disaster Management Plan-2024

Implementation of Standard Operating Procedures to Prevent Looting or Theft (Task Force)		As required
Rumor Control (Task Force)	Banaskantha, Maghyam, non-governmental organization, local leaders	As required
Provide complete information like road condition etc. to people. (Task Force)	Controlling, medium, working force	As required
48 hours		
5gala and who will take 5gala.	Requirements or conditions to be fulfilled in order to be eligible	time limits
Implementation of force management plan (increase/reduction/release of force.)		From the beginning of the period

## District Disaster Management Plan-2024

General Situation Plan (Police Commissioners, Task Forces, Control Units)		From the 7th hour of the 5th
Conducting teaching sessions. (Task force from other 51 bodies)		In the last week of the 5th
Final report		In the last two (r) weeks of the year

Search and Rescue (including Evacuation): To assist in local evacuation, search and rescue efforts

Humans and important equipment are completely destroyed.

Officer Commanding the Task Force: Deputy Commander, Civil Defence.

5 steps (and who should take those steps)	Requirements or conditions to be fulfilled before a loan can be taken	time limit
Before Disaster		
Risk Assessment and Susceptibility (Task Force) Mapping.		Warning first

## District Disaster Management Plan-2024

List of personnel and critical equipment (task forces).		Be warned first
Training (Workforce)	Instrumental assistance from Gujarat Financial Management Authority and United Nations Development Programme.	Warning first
Public Awareness Training Program (Workforce)	Medium workforce	
Establishment of Adequate Communication System (Work Force)	Additional equipment	
Drill (Workforce)		Warning first
VEHICLE ARRANGEMENT (WORK) FOR POSSIBLE SEARCH AND RESCUE OPERATIONS	With a support system workforce	Warning first
Developing Standard Operating Procedures for Rescue (Workforce)		Warning first
Warning		

## *District Disaster Management Plan-2024*

To deploy task forces and search and rescue teams (task forces)		With warning
Checking whether equipment is ready (work force)		Employed the team
Are the vehicles ready? Ensuring that (workforce)	Support system work force	With warning
5th Form of Anticipatory Transfer (Work Force)	Support system and shelter workforce	As ordered
Releasing the team if deemed safe (work force)	Support System Task Force	Depending on the situation
To start patrolling for public awareness. (work force)	Media, Law and Order and Support System Task Force	As required
At this time		
Ensuring the safety of employees		Immediate

## *District Disaster Management Plan-2024*

<p>Reestablishing own communication system (work force)</p> <p>Dispatch of rescue/evacuation teams as per assessment (work force)</p>	<p>As per the information from Control Q1</p>	<p>Immediate</p>
<p>Order additional equipment if required (manpower)</p>	<p>Communication system should be functional.</p>	<p>Within 3 to 4 hours of arrival</p>
<p>Reporting on performance (work force)</p>		<p>Start at 3 to 4 hours.</p>
<p>Move dead bodies as per standard operating procedure (workforce).</p>	<p>Including different revenue officers and police.</p>	<p>Start at 3 to 4 hours.</p>
<p>Hierarchy of Employees (Work Force)</p>		<p>Starting at 1 p.m.</p>
<p>Initiate special rescue operations. (can be started early) (work force)</p>	<p>External tools can be used.</p> <p>Coordination with support system workforce</p>	<p>Starting at 1 p.m.</p>

## *District Disaster Management Plan-2024*

Initiate debris removal in collaboration with Public Works Task Force.	Monitoring of critical infrastructure/control units	Starting at 1 p.m.
Provision of additional equipment (such as fuel, manpower) for continuous operation (manpower)		Starting at 1 p.m.
48 hours		
Demolition/stabilization of damaged buildings in cooperation with Public Works Task Force.	Support system workforce workers, equipment	Starting at 48 hours.
Disassembly, alteration, repair and replacement of equipment and other equipment (labour)		Depending on the type of loan
Be prepared for additional operations related to the safety of restoration operations. (work force)		As required
At 7 o'clock		
Training Session (Workforce and others)		Two weeks 5

## District Disaster Management Plan-2024

Final Report (Task Force)		5. Most of the activities are completed
---------------------------	--	---

Public Works : Officer in charge of staff and work force to assist in local efforts to restore normal functioning infrastructure : Executive Engineer, Building and Construction

5Gala (And who should take that 5Gala.)	Requirements or conditions to be fulfilled before a loan can be taken	time limit
Before Disaster		
List of Personnel, Equipment and Infrastructure (Manpower)	Linkage with United Nations Development Program on Information-Based Development	Warning 5 weeks ago

## District Disaster Management Plan-2024

Determining the structure of importance. (work force)	It is important to determine which infrastructure is important.	Warning first
Designation of alternative routes for vehicular movement and preparation of maps (Working Force)		Warning first
(Task Force) Plan to carry out inspection on priority basis of infrastructure security.		
Planning and management of equipment and manpower (workforce)		
Provision of sanitation and other facilities for shelter (Task Force)		
Warning		
Establishment of Control Units (Workforce)		Not later than 6 (six) hours from the warning

*District Disaster Management Plan-2024*

To release the workforce and workforce	Requires a communication system.	Not later than 6 (six) hours from the warning
To contact the District Control Cell. (work force)		Not later than 6 (six) hours from the warning
Ensuring the condition and availability of equipment and redeploying it as deemed fit and safe (Workforce)	Coordinating support system workforce and control units	24 hours from warning
Summary of Schemes (Workforce)		Not later than 6 (six) hours from the warning
Disaster		

*District Disaster Management Plan-2024*

<p>Initiating damage assessment and mitigation. (work force)</p>	<p>Coordinating damage assessment work with Special Forces.</p>	<p>Within 12 hours of delivery</p>
<p>Develop action plan and liaise with controller.</p>		<p>Within 12 hours of delivery</p>
<p>Recruiting and dispatching the team on priority basis. This team will: (1) work together. (2) replace damaged goods. (3) Construct temporary facilities (rest facilities/shelter).</p>	<p>Coordinating with Military, Water, Power Supply Task Forces and Control Centers</p>	<p>Within 12 hours of delivery</p>
<p>Support other work force.</p>		<p>Continue this operation continuously.</p>

## District Disaster Management Plan-2024

Steps (and who should take those steps.)	Requirements or conditions to be fulfilled before a loan can be taken	time limit
1 hour		
Initiate workforce hierarchy and manpower planning. (work force)		Start at 1:00 am.
Maintain additional equipment based on estimated/predicted period of operation. (work force)	Support system workforce, coordination with contractors, additional funds required.	Start at 1:00 am.
Ensuring Safety (Workforce)	Law and Order Task Force	Start at 1:00 am.
Completion of public information related to roads, access and infrastructure (Media Task Force)	Coordination with Control Q1	Start at 1:00 am.
48 hours		

## *District Disaster Management Plan-2024*

Carry out detailed costing. (work force)	In cooperation with the Damage Assessment Task Force	Start at 48 hours.
Reporting on performance.		Starting on the third day.
Improvement, repair and replacement of equipment and other equipment (labour)		Considering the nature of the asset.
Planning and Operations (Manpower) for Equipment Release		Starting on the third day.
At 7 o'clock		
Develop a long-term rehabilitation action plan and initiate its activities. (work force)	Starting from 7th hour.	
Training Session (Workforce and others)		Two weeks 5

## District Disaster Management Plan-2024

Final report		Most of the activities are completed.
--------------	--	---------------------------------------

Water: Provision of sufficient drinking water for human and animal consumption (on a priority basis) and water for industrial and agricultural consumption Task Force Heading Officer: Executive Engineer (Gujarat Water Supply Board)

5Gala (and who should take that 5Gala)	Requirements or conditions to be fulfilled before a loan can be taken	time limit
Establishment of Water Availability, Quality, Reliability and Cleanliness (Workforce)	Standard of 20 liters of water per person per day	Warning 5 Previous three months
Alternative Schemes for Water Distribution and Storage (Task Force)	Need tanker, tank, generator	Three months prior to warning

## *District Disaster Management Plan-2024*

Ensuring new and additional equipment. (work force)	Need funds	
Stocking of supplies and equipment suitable for use of chemicals (manpower)	Additional funds may be required.	Three months prior to warning
Warning		
Hierarchy and designation of employees (work force)		Not later than 24 hours of warning
Create public awareness about water consumption. (work force)	Maghyam Task Force	Not later than 24 hours of warning

*District Disaster Management Plan-2024*

Instructing Government and Private Parties to Protect Water Supply (Task Force)		Not later than 24 hours of warning
To discharge the members of the Task Force		From 24 hours of warning
Provision of additional support system personnel and vehicles (Support System Task Force)	Difficult to place additional staff locally, outsourced/contracted.	From 28 hours of warning
Coordinating with Power Supply and other task forces	Consists of District Control Units.	Not later than 24 hours of warning

## District Disaster Management Plan-2024

Status and Protection of Water Resources (Task Force)		Not later than 24 hours of warning
Disaster		
Water Supply Planning and Prioritization of Water Users (Workforce)	Need information on needs, losses and demand.	To be completed within 24 hours.
Water Supply System Status and Damage Assessment (Taskforce)	Coordination with damage assessment task force	To be completed within 24 hours.
Employing water tankers (work force)	Coordinating military task forces and control units	Start within 24 hours of arrival.

*District Disaster Management Plan-2024*

Repair/Rehabilitation of Water Supply System (Plan Based) (Workforce)	Coordinating the Power Supply and Support System Workforce	Start within 24 hours of delivery.
5 Ensuring supply stations/distribution safety (law and order task force).		To start distribution as soon as it starts.
Coordinating the provision of information on water distribution and storage and safe use of water	Coordination of Media Task Force and Control Cell	Start within 24 hours of disaster.
1 hour		
Establish temporary water supply system. (work force)		By the 7th hour of the disaster

## District Disaster Management Plan-2024

Focus on permanent water supply system. (work force)		It is 5 o'clock on the 7th
Long-term rehabilitation plan and meeting needs (workforce)		It is 5 o'clock on the 7 <sup>th</sup>
Initiating Reporting and Documentation (Workforce)		From 48 hours
Resource allocation (workforce)	Coordination with Control Q1	From 48 hours
Training Session (Workforce and others)		Most of the activities are completed.
Final Report (Task Force)		

Food and relief supplies: Food and other necessities for the affected people

makes provision. Officer-in-charge of the task force: District Supply Officer

## *District Disaster Management Plan-2024*

5Gala (and who should take that 5Gala)	Requirements or conditions to be fulfilled before a loan can be taken	time limit
Before Disaster		
Establishment of Procedures and Standards (Task Force)	Need for standards	to continue
Maintaining two months' supply of essential supplies (manpower)		must have been done.
To maintain two months' supply of essential supplies. (work force)		must have been done.
Develop vehicle management planning. (work force)	Cooperation of Support System Workforce	To be completed in 8 days.
Developing a list of non-governmental organizations/organizations (task force)		should have been done.
Manpower Planning (Workforce) for Insurance		should have been done.

## *District Disaster Management Plan-2024*

Identify areas that can be set aside and scale up as needed (workforce)		should be on.
Designation of places for cooking (manpower)		should have been done.
Warning		
Forwarding Received Alert (Workforce)		Within 12 hours of receiving the warning
Recruiting Non-Government Organizations (Workforce) to prepare the food.	Liaison with Non-Governmental Organizations.	Within 12 hours of receiving the warning
Ensuring quantity ratio and making distribution plan. (work force)	Cooperation of Military Task Force	Within 48 hours of notification
Hiring Transport Contractors for Vehicles (Work Force)	Coordination of Military Task Force	Within 5 hours

## District Disaster Management Plan-2024

Employing employees (workforce)		Within 6 hours of notification
At this time		
Receiving and responding to instructions from Control (Workforce)		As per the received deadline
Monitoring the status of supply and quantity (work force)	A communication system is required.	
Developing a Distribution Plan (Workforce)	Requirements and location information required.	As per the request of Control Q1
Ordering and provision of supply of food packets as required (work force)	Coordination with Military Task Force	As per distribution plan
Establishment of Relief Acceptance Committee (Taskforce)	Coordination of Control and Support Systems Task Force	As required
1 hour		

## *District Disaster Management Plan-2024*

Commencement of Distribution Operations (Workforce)	Coordinating the military and shelter workforce	At the very beginning
Reporting, Communication and Monitoring (Workforce)		To be completed within 48 hours.
Initiate the hierarchical structure of the workforce. (work force)		At the very beginning
Dispatch and arrangement of excess supply		At the very beginning
Ensuring security everywhere (Law and Order Task Force)		At the very beginning
Commencement of announcement of distribution plan and standards. (Media Workforce)		Start the process in 48 hours
48 hours		
Paying attention to general performance. (work force)		Within a week

## District Disaster Management Plan-2024

5 Obtaining a lock of supply receipt and disbursement records. (work force)		Within thirty days
Continue to provide relief to special areas/population. (work force)		From 5 to 15 days
7th hour		
Restructuring of Public Distribution System (Taskforce)		From the 1st week of the 5 <sup>th</sup>
Lecture meeting		Within 14 days of receipt

Power Supply: Provide adequate resources to restore normal power supply and infrastructure in the affected areas.

Officer-in-Charge of the Task Force: Assistant Engineer, Gujarat Electricity Board:

5Gala (and who should take that 5Gala)	Requirements or conditions to be fulfilled before a loan can be taken	time limit
Precautionary and warning phases 5		

## District Disaster Management Plan-2024

Develop inventory of current status of power infrastructure and access points (Gujarat Vidyut Board)		
Conducting monthly meetings (Gujarat Vidyut Board)		is ongoing.
Develop contact list (Gujarat Vidyut Board)		
Conduct informal risk and threat assessment/assessment. (G.V. Board)		
Develop contingency planning.		
At this time		
Evaluating impacts as per standard operating procedures. (Gujarat Electricity Board)	Coordinating with control and damage assessment task forces	
Prioritizing response steps (G.V. Board)	Need to establish priority.	
Gathering more information (G.V. Board)		

*District Disaster Management Plan-2024*

Provision of additional equipment/resources (GV Board)	Coordinating control and other task forces	
To be sure about unforeseen contingencies.		
1 hour		
Make revisions to the plan based on performance data and evaluation. (G.V. Board)		to continue
5. Monitoring of the status of proceedings/proceedings (G.V. Board)		Continue the process.

Continue to assist other task forces. (work force)		
Continuing Repairs (Workforce)		
Commencement of equipment clearing operations.		
Lecture meeting	Inclusion of task forces for shelter, food and relief provision in the meeting.	
Final report	Inclusion of other work force.	Within one month of completion of work

## **Chapter-9**

### **Procurement Action Plan**

A district disaster response structure is activated when an alert or disaster occurs. Task forces as per pre-defined Standard Operating Procedures appropriate to any specific request of the District Collector or type of risk or disaster.(Task Force) is activated. Once the scheme is activated, alert and response efforts will be managed from District Control Centers and Information Centers. The operational plan and standard operating procedure of the District Control Center and Information Center are given in the Annexure.

The Collector or Incident Commander will issue orders to activate the task force. By this order

Types of requirements

- ❖ Assistance as to the type of assistance to be provided
- ❖ Time frame in which assistance is required
- ❖ District or other contacts for provision of assistance
- ❖ Other work forces with which to coordinate

The financial resources available for the functioning of the task force will be stated.

Incident controllers are given special powers during emergencies. The main body leading each task force is responsible for informing the appropriate authority while exercising special powers necessary to meet the requirements of warning, relief or reinstatement given to the task force.

At the end of contingency:

The All Killer will announce the onset of distress through a siren or message. Be an incident Sakantha will exchange ideas with the officials who will take the leadership of the incident control team and declare that the situation is fully under control and the situation has been restored.

Training and Pre-Experience:

Effective implementation of the plan requires regular training and mock drills involving all key personnel. From this, a better understanding of roles and responsibilities develops.

## *District Disaster Management Plan-2024*

---

The main objectives of the training scheme are as follows:

Key personnel associated with the scheme, their equipment, the overall scheme and their

- ❖ Familiarize yourself with the role.
- ❖ Ensuring the functioning of emergency response systems/resources.

To review the entire plan including the communication system and the military system. So improvement, change

And training activities can be improved.

### TeamDrill:

Such pre-examination is carried out at regular intervals at least once a year by a dedicated task force team, with a view to improving resource planning, coordination and utilization of equipment. The frequency of conducting such drills is the responsibility of the respective task force leader.

Mockdrilling on a large scale:

The Contingency Management Team is strengthened by conducting mock drills once a year to perform critical tasks under various hazard scenarios. This exercise includes, but is not limited to, management initiatives, response activities, training, control, equipment, deployment, communication systems, mitigation, and post-incident activity of all relevant personnel. This is a field mock drill that involves all the workforce on a large scale.

The details of rescue and relief arrangements for people affected by heavy and heavy rains in the district are as follows:

A coordination committee is appointed and a meeting is held for relief in the district. The co-ordination committee will include the district officials of Health Irrigation, Construction, Telephone Police Department. Also, committee meetings are held as needed. The Relief Coordinating Committee consists of officials from taluka and district, reputed and respected voluntary organizations, district branches of Redcrora. Necessary guidelines are given in this regard.

Due to rain, heavy rains and storms, it is decided to call a meeting every week at the office of the District Collector and the office of the Taluka Mamlatdar to discuss issues related to rains, heavy rains and storms and carry out advance planning for relief and coordination of accounts in It is organized in such a way that the affected people get relief from the government.

Boat and Swimmer :-

## *District Disaster Management Plan-2024*

---

For the need of boats and swimmers for rescue operations when the rivers flood due to heavy rains, boats are organized by the Assistant Director of Fisheries, Palanpur, in this district, the details of which are included in the attached letter No.5(a). Apart from this, non-mechanical boats for fishing industry are also available in the lakes of Danta Taluk from the people involved in other private fishing industry. Apart from this, the details along with Talukawar name and address of swimmers who require swimmers in heavy rains and rains are given in the attached pamphlet no.1. Plans have been made to provide adequate treatment to the people through doctors and instructions have been given to concerned officials to spray insecticides

### Epidemics in Cattle:

In order to prevent the spread of infectious disease in cattle, through the District Animal Husbandry Officer and through the Deputy Director of Animal Husbandry, District Panchayat Palanpur, a well-planned advance has been made to provide drugs and support.

### Disposal of dead cattle:

Post-mortem etc. of the dead cattle are planned to be done by the District Management Officer with the help of the Taluka Development Officer.

### Buildings, huts, assistance:

Taluka Kaa has planned to prepare a team for survey in advance with the joint effort of Taluka Adhikari Shri and Mamlatdar Shri and keep a technical man in each team for building and hut assistance to Taluka Kaa for rain and heavy rain. So that the affected people can be surveyed urgently and the payment of aid can be carried out, moreover, the way that relief is paid to the affected people immediately is planned in coordination with the District Development Officer. Relief is planned to be paid through the District Development Officer for rural areas and Mamlatdar for municipal areas in urban areas.

### Cashdolls and Housebreaking :-

In order to pay cash dolls and household assistance to the affected people in the district, Taluka K1 has prepared a team with the joint effort of Taluka Development Officer and Mamlatdar to ensure that the affected people get immediate help.

### Drinking water:-

## *District Disaster Management Plan-2024*

---

It is planned to use the water tankers of Executive Engineer Public Health Department Hastak to provide drinking water to the people. Apart from this, Executive Engineer Mrs. and Mr. The available water tankers of the Department (State) and Executive Engineer Shri Panchayat Division Banaskantha Palanpur Hastak are also planned to be used. The list of available tankers is included in Bulletin No.13 above.

### Food Supply:

Reasonable price shops in inaccessible areas and shops in tribal areas cannot be reached due to heavy rains, floods and storms and in areas where it is difficult to distribute goods in areas where roads are difficult to break Three months in advance to shopkeepers in case of leak condition Mr. M. Shri has been instructed to give the quantities to the shopkeepers.

According to the instructions of the collector office Banaskantha Palanpur above each petrol pump, 10% of diesel, petrol is planned to be reserved and the reserved quantity is planned to be used during heavy rains, rains and storms with the approval of the Mamlatdarshree. The Mamlatdar of the Civil Supplies Corporation is told to keep sufficient quantity of wheat, rice, sugar, edible oil in each godown and to plan in such a way that it lasts for three months.

Kerosene dealers have been instructed to reserve 10% of the quantity and use the quantity as per the instructions of the Mamlatdar and accordingly plan for shortage of quantity in market yard, Ganj Bazar, petroleum dealers, godowns, dealers distributing essential goods in case of heavy rain stand up Planning is done in such a way that it does not happen. And instructions have been given to Mr.Mr.

### Outbreaks in people:

District Health Officers and Civil Surgeons have organized Primary Health Centers, Community Health Centers in the talukas to keep sufficient quantities of necessary measures and medicines in order to prevent the spread of disease among the people in the district due to heavy rains and rains.

### Assisted Dying:

In the case of death assistance, government relief to those who died due to floods, heavy rains, storms and lightning, according to the existing rules of the government, the assistance of the chief minister and the assistance of the prime minister, the district development officer for the rural areas and the collector for the urban areas, the municipality to organize the payment of the death assistance policy Organized as per rules.

## *District Disaster Management Plan-2024*

---

Action to be taken by those affected:

As per the existing rules of the Government, government relief, assistance of the Chief Minister and the assistance of the Prime Minister to the people who died in the event of rain, heavy rain, storm and lightning, the District Development Officer for rural areas and the collector for urban areas, the Collector for urban areas, to carry out the planning of death assistance as per the rules of the Government. has been done.

For the relief of houses and huts in the situation of rain, heavy rains and storms, Taluka K1 with the joint effort of Taluka Development Officer and Mamlatdar kept a team ready to send the team to the affected people so as to get immediate assistance and make arrangements for seeds necessary for loss payment and grain loss and easy loan from the bank. Bank assistance is planned as necessary for this. In case of death benefit, payment of death benefit is planned as soon as possible. Liaison Officers have been assigned taluk-wise duty.

Disposal of waste:

For immediate opening of roads on District Highways, State Highways, Rural Roads and Approach Roads due to heavy rains and storms.P.W.D It is planned to coordinate the employees of the account and the employees of the forest department to create gangs at the taluka level.

Mamlatdarshree was fond of gangs prepared by talukasP.W.D. Also, by informing the Range Forest Officer, it is decided to plan the work of cleaning the roads by removing the fallen trees on the road immediately. Instructions are given in this regard to the officials of the taluk regarding keeping the gangs ready in the taluk.

Training matter:

If permanent arrangements are made for civil protection units at district level and taluka level, effective rescue operations can be carried out during possible floods, heavy rains and natural calamities. Because the Civil Defense Unit has sufficient rescue equipment and trained staff ready. Previously, the Civil Defense Unit was functioning in District 1 in B.K. District, when the people were alerted by sounding sirens on emergency occasions, if this unit is again operational, it can make a big contribution in broadcasting the emergency message and in the rescue operations.

The Taluka Liaison Officers will report to the officials in the Taluka Control Room.

## **Chapter-10**

### **Media management**

The role of print and electronic media is important in disseminating disaster warning and information. Media can play an important role in mitigating the problems of the decency-based community at such times. Very good information about disaster preparedness, response methods, survival methods etc. can be widely disseminated to the people. Generally, in any crisis or disaster, it is essential that the community gets clear and correct information. So the role of media is very important. At the time of disaster, the appropriate authority should update the print and electronic media from time to time so as to prevent the propagation of unnecessary rumors and irresponsible information. During such arrangement DEOC There are 5 levels. Seek his help. Deputy Director Information will be appointed as Nodal Officer for this operation.

## **Chapter-11**

### **Budget Management**

Financial forecasting is an annual process. There are two types of budgets for disaster management, One is the departmental budget of the different department and the other is the budget for the expenditure required separately for disaster management. Financial planning from different sources for the following various expenses for disaster management.

☒ Center and State Disaster Response Fund

☒ State Budget

☒ District Planning Fund

Thus, according to the financial rules mentioned in the above mentioned financial sources, important financial arrangements are possible during disaster management, prevention, preparation, relief, rescue, and JG operations.

## Chapter-12

### Plan Preparation and Revision

In collaboration with the District Collector, Department and other agencies in the district, the District Finance

❖ Responsible for preparing management plan and making amendments/modifications in it.

❖ When a risk is responsible for making a significant change.

❖ After a great loss, after a hobby, or

To review such plan annually and revise it from time to time when there are significant changes in the organization described in the plan or in the responsibilities of the primary members of the task force.

Reference Section:-

❖ The Disaster Management Plan is used as a guideline in the event of any disaster in the district. Thus, the strategies to deal with different disasters are different and are associated with certain departments. And some calamities affect the entire district system.

❖ Taluka Resource Management Plan (TDMP) for Taluka Response

❖ Resource Management Plan for Urban Areas (CDM5)

❖ SDM5 Part-I and Part-R

❖ Different Types of Departmental Response Plans Contingency Plans

❖ Flood Memorandum

- Land due to natural disaster, Crop, Loss of resources or horticulture or irrigation practices, So quickly To get its Qayas and bring it back to the previous situation.
- To create a communication system so that the farmers get the correct information quickly.
- Planning in advance to get the damage survey report on the next day itself.

### Restoration work

- Planning to get the crop amount quickly.

## *District Disaster Management Plan-2024*

---

- To arrange the seeds needed by the farmer and useful resources for the farm.
- Sufficient seed availability during flood or drought, To organize it.
- Coordinate with farmers to obtain information on affected areas and potential hazards.
- Get a loan quickly and easily, Planning that way.
- Water and soil can be tested through scientific methods, Arrange such planning.
- Do not spread disease in crops, In that sense setting up arrangements for monitoring.
- Training farmers on alternative farming methods.

### Health Department

#### Pre-Preparation (Preventive Activities)

- District, To create health awareness and pre-preparedness up to the taluka and village level.
- Mapping outbreak areas after natural disasters.
- Selecting a site for setting up a temporary laboratory so that epidemic testing can be carried out at the local level.
- Private Doctor, Hospital, Blood bank Ambulance service Medical Store Manager, Coordination with Medical Associations To do and update its list.
- A list of volunteers who can donate blood as well as a blood group-wise list is maintained., To organize it.
- Post-disaster outbreaks should be routinely and fully informed, It was organized by P.H.C. And to do at sub center level.
- The communication system is speeded up as well Get emergency treatment properly, That means a mobile treatment unit Also to keep enough of its training staff.
- Planning for adequate provision of health facilities at potential shelters.
- Public awareness programmes, Trainings as well as various IEC Prepared material, Distribute it.

## ***District Disaster Management Plan-2024***

---

- District, Taluka, Rural as well Representatives of Social and Voluntary Organizations at Municipal Level, Social leader, Volunteer, Trained midwives trained in first aid, Awareness raising and what to do during and after a disaster? And what not to do Understanding it.
  - All PHCs in the district Center Keeping the generator sets in working order and checking periodically in sub centers and health centers.
  - In disaster affected areas Vehicle available with the department for speedy delivery of health facilities Available with ongoing and private transporters Keeping inventory of resources/vehicles updated.
  - To make arrangements for availability of safe drinking water during storm and flood affected situations.
  - To take all necessary urgent measures to prevent the spread of epidemics.
  - Useful medical teams and with them Adequate medication, injections Pesticides, Powder etc. quantity available Arrange arrangements in affected areas.
  - Hospitals, Advance planning to ensure that adequate facilities and teams are ready in primary health centers etc.
- Response performance
- Adequate supply of life-saving medicines at PHC. Make available at the level.
  - Prepare teams to take stock of the situation and arrange to reach the affected areas for quick response.
  - Temporary made in relief centers Adequate training staff and necessary life saving drugs in the hospital Ensuring that quantities remain available.
  - Disposal of dead bodies, Adequate planning for post-mortem and identification of dead body.
  - Copy of PM Report, Arrange to meet on time.
  - Periodic testing of drinking water.
- Restoration work
- Stay in constant coordination with affected people Health-oriented performance evaluation and appropriate treatment and epidemiology Conducting preventive activities and counseling them in tro to do

## *District Disaster Management Plan-2024*

---

- Facilitate rehabilitation and psychological rehabilitation of those injured or disabled due to disaster, Planning it.
- Intensive vaccination to prevent epidemics from spreading.
- Implementation of long term health oriented plans.

### Epidemic prevention operations

- Regular testing of drinking water.
- Planning to make people aware about their hygiene and measures to prevent water borne diseases.
- Health oriented government programmes, Planning outreach to the community.
- Shulabh toilet scheme and individual toilet/bathroom should be made by the people, To propagate that plan.

- Develop solid waste management system for proper planning of waste disposal.
- To take measures to prevent the epidemic by coordinating the doctors of government primary health centers and private doctors.
- Cluster wise during disasters Identifying locations that resulted in rapid availability of health facilities Laboratory facilities can also be set up there for testing.
- Government office, District Control Room as well District/Taluka Level Control Room, Red Cross, Medical Association and Social East with institutions Establish coordination for preparation.
- More so for epidemics after disasters Prepare a database of the list of affected areas and set up relief camps Mapping the areas for

### Department of Animal Husbandry

#### Preparatory work

- Cyclones to save livestock of the district, Planning for evacuation procedures to avoid loss of life during floods.
- To plan for the disposal of dead animal carcasses, keeping sufficient vigilance to prevent outbreak of disease due to animal casualties.
- On the occasion of animal deaths, prepare survey teams and prepare their report and plan in advance to do the work of payment of assistance.

## ***District Disaster Management Plan-2024***

---

- Animal Protection Centre, Cage floor, Mapping of cowsheds managed by private trusts.
- Mapping natural sources of drinking water for livestock.
- Drinking water and fodder should be maintained for animals, Planning it.
- fodder traders, Keeping the information of forest department depots and other places as well as available quantity details ready.
- To select and make a list of vehicle holders required for the transfer of injured people or animals.
- In order to prevent the spread of disease in animals, intensive vaccination should be organized in the affected areas and necessary quantities of medicines should be kept available.
- To create awareness on the meaning of livestock insurance taken by the livestock owner.
- To arrange generator sets to maintain power supply in veterinary hospitals.
- To estimate the number of animals village wise and to keep the database of the number of animals ready.
- Planning for disposal of dead cattle and training local volunteers in this regard.
- To arrange for speedy payment of animal identification as well as aircraft.
- Health due to dead animals after disaster Orientation problem does not arise, That means local people, Gram Panchayat, Taluka To entrust the responsibility of disposal of dead animals to Panchayats or Municipalities.

### **Response performance**

- Treatment of affected animals and protection of other animals to prevent disease spread among animals.
- Delivering medicines and fodder to the affected areas and dispatching mobile teams.
- In order not to spread the disease, the dead animals were identified and given necessary certificates, Make immediate arrangements for its disposal.
- Creating a control room so that local people can get correct information quickly.

## *District Disaster Management Plan-2024*

---

- In disaster affected areas dead animals, Injured animals, Cattle treated and vaccinated Updating the data of the animals.
- For purchase of new cattle to cattle keepers Complete certificates easily and quickly to get fast loan To establish a system to prevent the spread of disease in cattle

### Department of Civil Supplies

#### advance preparation

- Grains in the district Kerosene edible oils Supply of essential commodities incl, At all places in case of disaster Planning to be available.
- From nearby places to urban areas Coming vegetables, To restore milk supply and ensure efficient distribution. To take steps to keep prices reasonable.
- Food in the district Kerosene Petrol Maintain adequate supply of diesel.
- Transferred to Distt Provision of food packets to the affected people at the shelters Coordinating with voluntary organizations.
- Keeping in mind the history of disasters, storage areas can be created to store relief materials, Choosing such places.
- Sufficient availability of necessities of life.
- Make proper arrangements for stocking and distributing relief materials.
- Coordinating with transporters to deliver relief materials to relief camps.
- of cheap food grains at the village level Shopkeeper A.P.M.C. Various associations, Social and Educational Institutions Persons connected with catering business, Administrators of Mandap Services, Kerosene Keeping the list of petrol and gas agency holders updated.
- Training volunteers of social organizations in making and packing food packets.

#### Response performance

## *District Disaster Management Plan-2024*

---

- To carry out the work of distribution of relief material promptly as per the requirement of the disaster affected area
- To arrange for the safe arrival of relief material to the relief camp.
- The priority list of relief material distribution should be made available to the District Control Room from time to time.
- To organize proper storage of food grains in the godowns of Civil Supply Corporation.

### road and building

#### advance preparation

- Preparation of list of heavy vehicles.
- Keeping the layout map of all the government buildings handy and completing the repair works after inspecting all these buildings.
- Private to open road Coordinating with vehicle owners and contractors as necessary Prepare inventory of resources.
- All the staff of the branch should be entrusted with this work and training should be done.
- Appointment of Nodal Officer to coordinate with other control rooms of the district.
- Traffic under control in the district Necessary planning should be done to avoid blocking of roads due to falling of buildings or trees Blockage of roads or collapse of roads or collapse of drains In cases intensive with labor and equipment and vehicles. Plan ahead and take necessary steps to get the job done. Also on and off To inform the public about the route or alternative route And district through control room regarding road information of other districts Advance preparation and continuous information by being in touch with the control room to plan Response performance.

- A road after a disaster, If drains or bridges are blocked, immediate steps should be taken to re-open them.
- Providing facilities for transporting heavy vehicles or resources from one place to another.

## *District Disaster Management Plan-2024*

---

- Get the location for the alternate route and advertise the alternate route.
- Expeditious removal of road debris or fallen trees.
- All Divisional and Taluka offices of the district should maintain sufficient resources in working order.

### UGVCL section

#### advance preparation

- Check all available resources and keep them running.
- Updating the list of resources needed in times of disaster.
- Whether electrical connection is made as per safety regulations Whether the devices are suitable? To verify it.
- To strictly follow the rules made for the safety of electrical equipment and the same.
- Planning to start power supply quickly and create necessary facilities.
- High tension line, cable Minimize damage to substations from natural or man-made calamities Planning that way.
- What to do during and after an electrical accident in people And what not to do To make efforts to create such awareness.

#### Response performance

- Immediate shutdown of power supply on receiving warning or notification of disaster.
- Visit the affected area and get an estimate of the damage.
- To arrange for temporary power supply.
- Electricity obtained from private power generating stations Vital installations (eg, Collector Office, Police, Water supply, Health, Dam site, A radio station, Power Supply in Doordarshan etc.) to do
- Rapid restoration of power supply disrupted due to disaster.

### fisheries

#### advance preparation

## *District Disaster Management Plan-2024*

---

- storm, The port officer should ensure that the fishermen do not go for fishing in the sea after receiving flood warning.
  - If the fishermen have gone for fishing in the sea, arrangements should be made to announce them on the radio through Akashvani to return.
  - Boats and teams of swimmers should be kept ready and arrangements should be made to keep the boats and necessary equipment in a safe place.
  - Conduct a survey of the loss to fishermen.
  - Planning to inform the people of the coastal villages and fishermen and salt miners etc. about the forecast warning.
  - Mechanical from all places in the district Names of boats and thirty-two boats available, Keep a list of addresses ready. Also list names of swimmers of the district, Ready with address and contact number to keep
    - in the district or in another district Dispatch of mechanical / non-mechanical boats with fast boat swimmers on receipt of instructions A policeman on a truck with emergency lights on the boat departs as well The planning of the departure should be done in touch with the Port Officer and concerned Mr Be prepared and plan ahead.
  - Registration of fishermen and boats.
  - Keep the fishermen in the weather Warnings of possible disasters and weather-related announcements by the government To inform fishermen in a way that they can understand the incoming warning.
  - Life jacket at sea, The life boat, Ham To understand methods of using resources such as radio or wireless. as well Ensuring that such resources are utilized by fishermen.
  - To verify and certify the capacity and condition of boats used for fishing operations at sea.
  - To educate the fishermen to modernize the traditional methods of fishing and the traditional boats used.
  - Training fishermen in search and rescue techniques.
- Response
- Timely warning can reach fishermen living in inland areas To organize it.

## *District Disaster Management Plan-2024*

---

- Fishermen should get proper help in times of calamity, That means East To keep rescue operations resources on standby at designated locations.
- Deploying a damage survey team to get an immediate estimate of the damage.

### Forest Department

advance preparation

- flood, Regarding storm and other hazards A tree falls on the road due to some calamity, blocking the vehicular movement On occasion liaised with other departments for prompt removal of such obstructions Pre-preparation and planning.
- Animals, Careful consideration should be given to planning and advance preparation for the safety and protection of animals.
- Planning for resumption of road closures due to roadside tree fall.
- Private show meal holders, Updating contact list to ensure proper coordination with transporters and labor contractors.
- To keep the resources available with the department in an ongoing condition.
- Forestry operations as well as normal during or after disaster
- To conduct awareness programs about what the public should do.
- Promoting social forestry.

response

- To open closed roads immediately in coordination with road and building department on receiving warning or instructions.
- Providing quick response by utilizing resources available with private transporters or show meal holders associated with forest accounts.
- Arranging delivery of required quantities to the affected areas through grass depots as required.

### Department of Motor Vehicles

advance preparation

## *District Disaster Management Plan-2024*

---

- storm To requisition vehicles required for evacuation in flood-affected situations.
  - To obtain the details of all the permanent shelters in the district and prepare the details of their routes.
  - Updating the list of vehicles that can be used during disaster.
  - Vehicle owners should follow safety rules and strictly enforce them, Ensuring that.
  - Regarding safety and traffic regulations Efforts to create awareness among people and related Prepare the material and distribute it.
  - Government can impound the necessary vehicles at the time of calamity, Planning it.

  - To coordinate with other control rooms in the district.
  - Planning for speedy allocation of suitable vehicles for search and rescue as well as first aid and movement of relief materials.
- Response performance

- To allocate vehicles as per the requirement as per the instructions from the District Control Room.
- Necessary materials viz Kerosene Diesel Petrol Gas Medicines and relief camp materials at suitable places Arrange for delivery.

### SP8L IJEFU

- All STs of the district Inform the depot managers about the storm, To arrange for exchange of messages in case of flood.
- ST for relocation. Take action to provide buses as required.
- Closed ST. Details about the route announced To arrange a control room to be accessible to the public and also with the district ST of other districts attached. Route start/stop details also at control room to keep Stay in touch with the district control room ST. Route closing / opening details Pre-preparation and planning to hand over to the District Control Room.

### Port Department

## *District Disaster Management Plan-2024*

---

- storm, Fisheries Department to arrange that fishermen do not go for fishing in the sea after flood warning.
- If the fishermen have gone for fishing in the sea, arrangements should be made to announce them on the radio through Akashvani to return.
- Boats and teams of swimmers should be kept ready and arrangements should be made to keep the boats and necessary equipment in a safe place.
- Conduct a survey of the loss to fishermen.
- Planning to inform the people of the coastal villages and fishermen and agariyas working in salt agar etc. of the forecast warning.
- Mechanical from all places in the district Names of boats and bean mechanical boats available, Address list prepared to keep Also list names of swimmers of the district, with address and contact numbers keep ready
- in the district or in another district Boats swam within two hours of receiving instructions to send mechanical / non-mechanical boats. Emergencies on a police truck with a boat truck to depart with Planning to depart with light Fisheries Department and concerned mam. Shriona Prepare and plan ahead by staying in touch.
- The kind that relate to storms at port District control room and other control rooms regarding the signals to be placed giving information Also a detailed understanding of the type of signal and its warning Planning to share information with.

### Information Section

#### advance preparation

- of print and electronic media By using public awareness about various natural as well as man-made disasters Make efforts to create awareness
- Planning for rapid establishment of warning and messaging operations in disaster-affected areas.
- Print and electronic media can get correct information, That means setting up a media briefing center.
- To keep the vehicles and resources available with the department in working order.

## *District Disaster Management Plan-2024*

---

- VIP in time of disaster Visit or A private cameraman to document the operation of the response, Video shooting Also mapping other resources.
  - Photography for documentation of disaster events, Doing videography etc.
  - Informing the public in such a way that correct details reach the affected people.
  - To prepare necessary reports and send them to the control room.
  - Keeping a special team ready to carry out the necessary urgent operations as per the instructions of the control room.
  - Director Mr. Doordarshan Director Mr Akashvani Cable operator FM Radio, Warning of disasters through newspapers Planning to broadcast. Response
- 
- Establishing control rooms at suitable places to convey correct information about the incident to the system as well as to the public.
  - of an event at a regularly fixed time Also, print and electronic media got the information about the relief operation stay, To organize it
  - To carry out the work of conveying correct information of the people of the affected area to the media.
  - Be careful not to spread rumors in private news channel or media.
  - Documenting all events.

### Department of Education

- storm All educational institutions should be alerted and take all measures to avoid loss of life and property in schools during flood situation.
- Make school buildings available for shelters.
- of schools used for shelters Provision of necessary facilities for use and shelters are arranged in schools If it is repairable, get it repaired immediately.

### District Industries Centre

- To take measures to prevent loss of life or property in all types of small and large industries in the district.

## ***District Disaster Management Plan-2024***

---

- To take action by getting help of equipment and experts from big industrial houses for survey and assistance regarding loss.

### District Labor Officer

- The officials of the concerned labor department of the district should prepare a list of salt mills especially in the coastal areas of the district.
- A copy of the list of Agarias to be supplied to the Collector's office as well as to the Additional Collector and to the Mamlatdarshree and Taluka Development Officers of the concerned talukas.
- Alerts immediately upon receipt of Warnig Alert Also how do the laborers of other operations in the coastal area Regarding which officers will be transferred to which place in the vehicles Also provide details to take all precautionary measures.
- Assigning special duties to the responsible officer in the affected areas as necessary and giving such instructions to him in coordination with the concerned account.

### Fire and Emergency Services and Regional Emergency Response Centers

#### Preliminary preparations

- Strictly follow fire and safety laws Keeping vigilance and checking its status from time to time.
- Constant monitoring of all fire brigade vehicles and resources to keep them in working order.
- May be affected by potential disasters, Such industrial areas are accident prone areas, Old buildings Also mapping of densely populated areas.
- New constructions include links as well as engineers, Use fireproof technology in construction Ensuring that.
- To check the fire fighting resources placed in multi-storied buildings.
- Respond appropriately to disasters can be, That means all sensitive buildings viz A multi-storied hospital, Govt offices Bus station Layout map of railway station made To the fire staff Provide adequate training on the same.

## *District Disaster Management Plan-2024*

---

- Fire people in the sense that an accident like fire does not spread quickly To provide training in the use of resources for accident and its rescue.

year - २0२3 Meanwhile Banaskantha Due to heavy rains caused by Cyclone Biporjoy in the district in Jun-2023 done desolation And of Rajasthan Shirohi And Jalore in the district done heavily Overwhelming of rain due to from here Banaskantha in the district Dhanera, Disa, Kankerage, Bhabhar, Lakhni, Tharad etc Taluks Ati affected done And This In the taluks heavy desolation done is. in which Crop loss, land Erosion, raw Ripe to the houses Also loss done is. And ५१५५५-१0७२ done is. ८५४७ Rs.2269720/- to people of CashDoll assistance paid came is And २८५ to families housebreaking Assistance Rs.1327500/- paid came is.

## **Chapter-15**

**NDMA Guidelines on Minimum Standard of Relief**

and urinals etc. which can be dismantled and taken back by the supplier after the closure of the camp. This arrangement shall avoid delay in setting up of camp and exorbitant billing of essential supplies.

(c) In the relief centers, 3.5 Sq.m. of covered area per person with basic lighting facilities shall be catered to accommodate the victims. In mountainous areas, minimum covered area shall be relaxed due to lack of available flat land / built up area. Special care shall be taken for safety and privacy of inmates, especially for women, widows and children. Special arrangements should be made for differently-abled persons, old and medically serious patients.

(d) Relief centers shall be temporary in nature and be closed as soon as normalcy returns in the area.

(e) Sufficient number of sites based on population density shall be identified as relief centers and earmarked well in advance at the time of planning and development of a metro/city/town.

3. **Minimum Standards in respect of Food in relief camps:-**

(a) Milk and other dairy products shall be provided for the children and lactating mothers. Every effort shall be taken in the given circumstances to ensure sufficient quantity of food is made available to the affected people (especially for aged people and children) staying in the relief shelters / camps.

(b) Sufficient steps shall be taken to ensure hygiene at community and camp kitchens. Date of manufacturing and date of expiry on the packaged food items shall be kept in view before distribution.

(c) It shall be ensured that men and women are supplied food with minimum calorie of 2,400 Kcal per day. In respect of children / infants, the food to be supplied would be 1,700 Kcal per day.

4. **Minimum Standards in respect of Water in relief camps:-**

(a) Sufficient quantity of water shall be provided in the relief camps for personal cleanliness and hand wash.

(b) It may be ensured that the minimum supply of 3 liters per person, per day of drinking water is made available in the relief camps. Further, the State / UT / District authorities shall adjust the minimum quantity of water etc as per the geographic, demographic and social practices of the region. If other means for providing safe drinking water is not possible at-least double chlorination of water needs to be ensured.

(c) In order to ensure adequate water supply, the location of the source of water supply shall preferably be within the premises of relief shelter /camp. However, the maximum distance from the relief camp to the nearest water point shall not be more than 500 mtrs. if tapped water supply is available.

5. **Minimum Standards in respect of Sanitation in relief camps:-**

(a) **Number of toilets:** 1 toilet for 30 persons may be arranged / built. Separate toilet and bath area be catered for women and children. At least 15 liters of water per person needs to be arranged for toilets / bathing purposes. Hand wash facility in toilets should be ensured. Steps may be taken for control of spread of diseases. Dignity kits for women shall be provided with sanitary napkins and disposable paper bags with proper labeling.

(b) Toilets shall not be more than 50 m away from the relief camps. Pit Latrines and Soak ways shall be at least 30 m from any ground water source and the bottom of any latrine has to be at least 1.5 m above the water level.

(c) Drainage or spillage from defecation system shall not run towards any surface water source or shallow ground water source.

6. **Minimum Standards in respect of medical cover in relief camps:-**

(a) Mobile medical teams shall visit relief camps to attend the affected people. Steps shall be taken to avoid spread of communicable diseases.

(b) If the relief camps are extended over a long time, then necessary arrangement may be made for psychosocial treatment.

(c) Helpline should be set up and contact number and details of which shall be displayed at the relief/shelters and adequately publicized to inform the people.

(d) For pregnant women, necessary basic arrangements shall be made by the local administration for safe delivery.

(e) Advance tie up / arrangement shall be made with the Govt / private hospitals so that necessary doctors / para-medical staff are available at short notice for relief camps to attend to the affected people. In respect of people who are affected and being referred to hospitals for treatment / operation etc, suitable transportation shall be arranged to reach to referred hospital.

(f) In order to manage mass casualty in a disaster, advance contingency plans for management of multiple casualties shall be developed.

7. **Minimum Standards of Relief for Widows and Orphans:-**

(a) In each camp, a separate register shall be maintained for entering the details of women who are widowed and for children who are orphaned due to the disaster. Their complete details shall be entered in the register, duly counter signed by the concerned officials and this register shall be kept as a permanent record with the District administration.

(b) Special care shall be given to widows and orphans who are separated from their families. For widows, certificate by the District Admn shall be issued stating that she lost her husband in the disaster and the same shall be issued **within 15 days of disaster**.

(c) As the widow / family shall be economically weak, the State administration shall provide a reasonable amount for the funeral rites of her husband and this payment shall be deducted from the subsequent financial compensation / relief that shall be paid by the Govt.

(d) Necessary financial compensation and other government assistance need to be arranged within 45 days of the disaster to the widow and to the orphaned children. In respect of orphaned children, similar certificate shall be issued and the children need to be taken care of properly and the funds that may be given to the children by the Govt. shall be duly deposited in a PSU Bank in a Joint A/C where the Collector / DC shall be the first account holder of the Bank account. Interest from the fund can be given to the child / guardian every month for his / her proper upkeep. Education for the child shall be ensured by the District / local administration.

(e) As far as ex gratia assistance on account of loss of life as also assistance on account of damage to houses and for restoration of means of livelihood, the norms provided by Govt of India (Ministry of Home Affairs) for assistance from SDRF should be the minimum standards of relief.
