PREFACE

Calamity may strike anytime. Equipment and planning is required for being minimum loss of given and properties at this time. In former time also calamities are faced with less or more success but if we take sight on history of man kind saving much more from too many calamities are before us natural calamities can be never avoided fully but by proper planning reduction in effect and loss arising from it can be done necessarily.

Root of modern calamity planning is received from experiences and studies of this kind policy of calamity can be known and its expanse and effects can be faced by proper preparations state government has developed strategic perspective of calamity panning for facing decisive effect falling on economical and social development of state of calamities by state government of which main intention is to stop loss life and properties and being done due to calamity is to be constructed in to previous position by lessening effects being derived due to it.

Gujarat state disaster management authority has kept extended opinion keeping in to account to total structure of disaster management. This institution not looking only matters for in relief work, to be risen from restitution or disaster how to do advance preparations and its strategy and planning is also prepaid of which part of district disaster management plan disaster response plan is also being prepaid.

This deed of district disaster management plan (DDMP) by collecting/integrating report from departments at the time of preparing disaster management plan of Rajkot district has been prepared which will be suggestive in lessening in loss derived from disaster.

Introduction

At the time of disaster, a person is between life and death , then every minute is precious. If there is no one to take the victim, it is a communication gap. An effective response to any disaster to reduce losses and facilitate recovery is expected to involve a variety of actors working in a number of sectors. Police , fire and emergency services , health services are the first responders. Disaster related activities such as search and rescue , traffic control , medical care and emergency transportation require adequate communication arrangements and control. Due to communication gap in essential operations, fruitful results cannot be obtained. The role of Emergency Operational Center is vital to maintain consistency in operations.

Before a disaster , the focus is on early warning communication management and assessment of the situation in the field. Communication systems remain vital during a disaster.

They are the central point of all post-disaster communications for impact and recovery operations. These contingency operations are key to bringing people and resources together to deal with emergencies and disasters. There is a framework for handling specific operations related to specific disasters. Policy formulation for post disaster relief deals with matters like operations management , coordination of operations. The operation of the District Emergency Operational Center is essential in 24-hour search and rescue relief operations, restoration and rehabilitation operations.

Disaster can strike at any time. At this time preparedness and planning is required to minimize loss of life and property. Even in these earlier times we have faced calamities with more or less success. But if we look at the history, from the destruction of entire civilizations in the past, the modern mankind has saved everything from such calamities. Natural disasters can never be avoided completely. But the impact and damage caused by it can be minimized.

The roots of modern disaster management are derived from these kinds of experiences and lessons. Keeping this in mind, there is a need to create a disaster management policy and a suitable framework for identifying upcoming disasters and estimating their extent and effects with appropriate preparations. A strategic vision of disaster management has been developed to deal with the critical impact on the economic and social development of the state. The main objective of which is to prevent the loss of life and property due to the disaster and the goal of creating a recovery situation by reducing the effects caused by it is connected with this.

National Disaster Management Authority (NDMA)

Disaster are woven with men in context of present time indian government taking this subject matter very seriously in august 1999 formed one high powered committee and after Gujarat earth quake of 2001, disaster management plan was accepted as mitigation mechanism.

On 23rd december 2005, disaster management act.2005 was enacted by indian government and form of national disaster management authority (NDMA) under chieftain of prime minister was done as per it and decision was taken of making for proper disaster management form of state disaster management authority under chieftain of chief minister for states various tacks are to be done for facing to disasters by NDMA in which risk reduction, rehabilitation like as matters are comprised above all necessary guidelines in regards to natural and men created calamities in national disaster management act 2005 have been given in.

Disaster Risk Reduction Post-2015

Post 2015, there has been a significant shift from the approach of Managing Disasters to Managing Risk.The three landmark global agreementsviz. the Sendai

Framework for Disaster Risk Reduction 2015-30(SFDRR), Sustainable Development Goals (SDG) and the Paris Agreement(CoP21) set the stage for future global action on Disaster Risk Reduction (DRR), sustainable development and climate change.

Sendai Framework of Actions for Disaster Risk Reduction 2015-2030

The Sendai Framework for Disaster Risk Reduction 2015-2030 (SFDRR) was adopted at the Third United Nations World Conference on Disaster Risk Reduction held in Sendai, Japan in March 2015. The SFDRR is a document that outlines four priorities for action to achieve 7 targets, which in turn would lead to one outcome which is a substantial reduction of disaster risk and losses in lives, livelihoods, health, the economy of persons, businesses, communities and countries. India is a signatory to the Sendai Framework for a 15-year, voluntary, non-binding agreement that recognizes that the State has the primary role in reducing disaster risk, but that responsibility should be shared with other stakeholder including local government, the private sector and other stakeholders.

The Four priorities of action are:-

- A. Understanding Disaster Risk
- B. Strengthening Disaster Risk Governance to Manage Disaster Risk
- C. Investing in Disaster Risk Reduction for Resilience
- D. Enhancing Disaster Preparedness for Effective Response and to 'Build Back Better' in
- E. Recovery, Rehabilitation and Reconstruction

The seven global targets are: -

- F. Substantially reduce global disaster mortality by 2030, aiming to lower the average per 100,000 global mortality rates in the decade 2020-2030 compared to the period 2005-2015
- G. Substantially reduce the number of affected people globally by 2030, aiming to lower the average global figure per 100,000 in the decade 2020-2030 compared to the period 2005-2015
- H. Reduce direct disaster economic loss in relation to global gross domestic product (GDP) by 2030
- I. Substantially reduce disaster damage to critical infrastructure and disruption of basic services, among them health and educational facilities, including through developing the

irresilience by 2030

- J. Substantially increase the number of countries with national and local disaster risk reduction strategies by 2020
- K. Substantially enhance international cooperation to developing countries through adequate and sustainable support to complement their national actions for implementation of this Framework by 2030
- L. Substantially increase the availability of and access to multi-hazard early warning system and disaster risk information and assessments to the people by 2030

Sustainable Developmental Goals

The Sustainable Development Goals (SDGs), also known as the Global Goals, were adopted by all United Nations Member States in September 2015 as a universal call to action to end poverty,

protect the planet and ensure that all people enjoy peace and prosperity by 2030. The 17 SDGs are integrated that is, they recognize that action in one area will affect outcomes in others, and that development must balance social, economic and environmental sustainability. They recognize that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests. To make the 2030 Agenda a reality, broad ownership of the SDGs must translate into a strong commitment by all stakeholders to implement the global goals.

Paris Agreement on Climate Change Action and Disaster Risk Reduction (CoP 21)

The Cop21 the Paris Climate Conference held in December 2015 led to a new international climate agreement, applicable to all countries, aiming at “holding the increase in the global average temperature to well below 2°C above industrial levels and pursuing effort to limit the temperature increase to 1.5°C above pre-industrial levels, recognizing that this would significantly reduce the risks and impacts of climate change”. The Paris Agreement recognized the need for loss and damage associated with the effects of climate change. The agreement identified areas of co-operation central to DRR and called for investments to address the underlying risk drivers associated with rising greenhouse gas (GHG) emission levels and to inspire innovation and low-carbon growth.

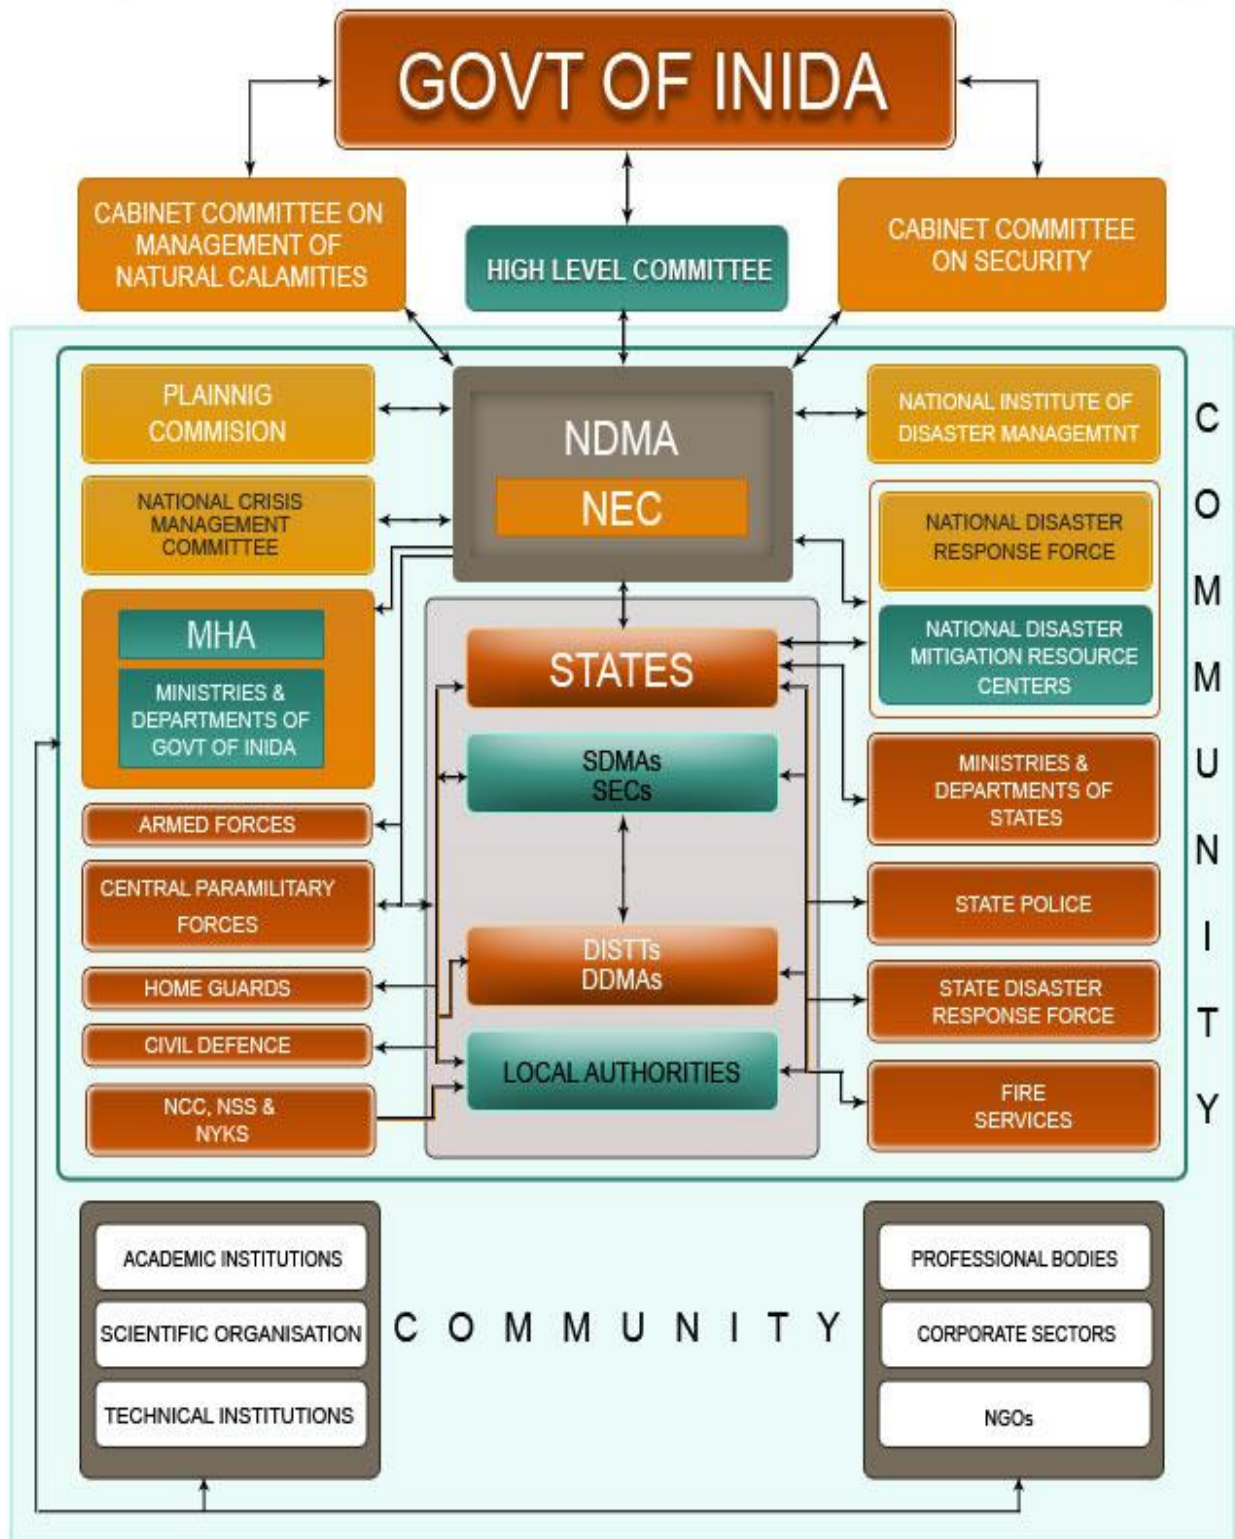

The State Disaster Management Plan (SDMP) has tried to envisage coherence across the states.

Efforts for DRR, sustainable development, and the actions in response to climate change. Prime Minister's 10-Point Agenda towards Disaster Risk Reduction.

The Prime Minister, Shri Narendra Modi, listed a Ten -Point Agenda in his inaugural speech at the Asian Ministerial Conference on Disaster Risk Reduction 2016, held in New Delhi in November 2016 (AMCDRR), which has also been incorporated in the SDMP. The ten key elements consist of the following:

1. All development sectors to imbibe principles of Disaster Risk Management
2. Work towards risk coverage for all - starting from poor household to small and medium enterprises to multi-national corporations to nation states.
3. Encourage greater involvement and leadership of women in disaster risk management.
4. Invest in risk mapping globally related to hazards such as earthquakes based on widely accepted standards and parameters.
5. Leverage technology to enhance the efficiency of disaster risk management efforts.
6. Development work of universities to work on disaster issues.
7. Utilize the opportunities provided by social media and mobile technologies.
8. Build on local capacity and initiative. Response agencies need to interact with the communities and make them familiar with the essential drill of disaster response.
9. Ensuring that disaster learning is well documented.
10. Bring about greater cohesion in international response to disasters.

NATIONAL DISASTER MANAGEMENT STRUCTURE

Gujarat State Disaster Management Authority – GSDMA

Our state often becomes victim of disaster sometimes such disaster are terrible that local lives of people of state and total planning due to this disaster is disturbed this is experience of all of us policy above disaster management and restitution and rehabilitation have been determined by Gujarat state by passing Gujarat state disaster management act-2003 and 5th of month April of year 2003 was published in Gujarat gazette on 8th February 2001 form of Gujarat state management authority has been done vast project of multi faceted reconstruction, restitution re-habilitation for getting erected affected areas of earth quake after Kutch earth quake by taken in to account with help by world bank, Asian development bank and international organizations, Indian government, state Government, voluntary institutions etc. and difficult tasks being praisable of all the world has been shown being completed in only period of two-three years.

Disaster risk management programme was handed by support of united nation development programme by GSDMA maximum group of people by programming like a disaster management plan, awareness, competence exceeding (Trainings) up to rural level under of it one being equipped against disasters.

SN updation RD

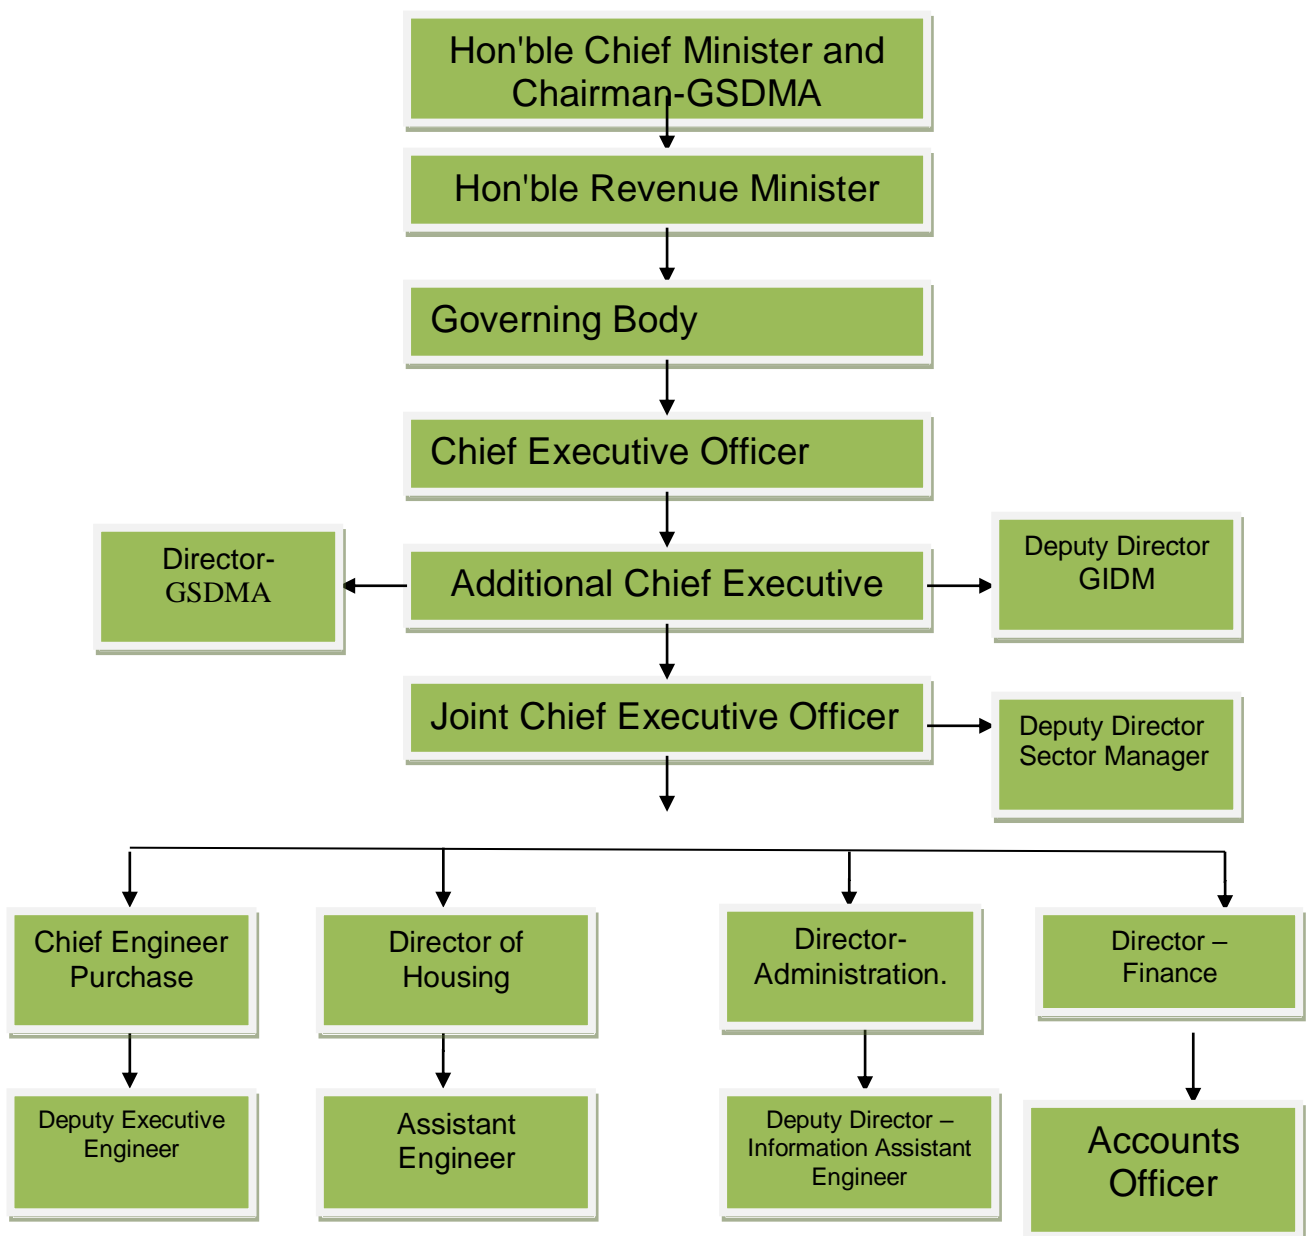

Preparation of state disaster resource network (S.D.R.N.) with Co-ordinate my with bisag by GSDMA has been done all the details oriented to disaster management to VDMP, TRMP and CDMP on SPRN have been completed by mamalatdar, Talati, development officer and chief officer username and password are as below for usage of it.

GSDMA Structure

-: Chapter – 1:-

1 What is a disaster ?

A disaster is an event that disrupts the life of the people in that area and causes loss of life and property.

❖ The UN (United Nations) defines a disaster as follows.

A sudden, large-scale, unfortunate disaster that disrupts the basic structure and normal life of human society. According to the duration of the disaster, it can be divided into two categories as follows.

- A slow-moving disaster
- A sudden disaster.

❖ Gujarat State Disaster Management Act , 2003.

- Disaster means an actual or potential natural or other natural or other occurrence in any part of the State which causes or threatens to cause all or any of the following:
 - Damage or loss to property both immovable and movable or
 - Extensive loss of human life or injury or illness to persons: or

Damage or degradation of the environment and any of the effects specified in sub-sections (1) to (3) are beyond the ability of the affected community to cope with using its own resources and thereby disrupt the normal functioning of the community.

1.2 Reference to the Act.

Preparation of disaster management plan is mandatory under Gujarat Disaster Management Act - 2003 and National Disaster Management Act - 2005. In addition, the National Disaster Management Authority has given instructions and guidelines to each state for preparing a disaster management plan.

As per Gujarat Disaster Management Act - 2003 Chapter - 6 Section 15 Sub-section (1 , 2 and 3) has been given guidance and guidelines for disaster management plan and strategy in the work of the Authority.

According to the National Disaster Management Act - 2005, the state authorities have to make policies and plans for disaster management as per sub-section (1 , 2 and 3) of Article 18 of this Act. The District Disaster Management Plan shall take into account the technolegal perspective of all the villages , talukas , municipalities , municipalities and district and state authorities in the district and other acts and policies of the Government. The policies , rules which are changed from time to time should be reviewed and necessary amendments should be made.

1.3 Objectives of Disaster Management Plan.

- Disaster management activities , law and order controls.
- Risk monitoring and control.
- Dissemination of alert received.
- Coordination of disaster response.
- Guidance in relief and rescue operations.
- Reporting on information , decision making and its classification.
- Resource inventory in times of disaster as well as ease of access to required resources.
- To properly manage all the steps and operations taken to respond to the disaster and to obtain all the information about it efficiently.
- Coordinating disaster response measures and between concerned departments and seeking assistance and co-operation from outside agencies.
- Planned operations in times of disaster.
- To rescue the people caught in the calamity and give them full protection.
- Understanding the disaster and controlling it.
- To prevent damage to goods and to take measures to avoid damage to the surrounding environment.
- Rescue work , giving treatment to the injured.
- Evacuate the affected to a safe place.
- To identify the affected person , inform their families and help them as per their need.
- A record of the causes of the disaster , preservation of news and assistance to the investigator.

A comprehensive and effective disaster management plan containing basic information has been prepared so that all possible preventive measures can be taken quickly during natural calamities and the system and people can feel close at the time of crisis and the confidence of the people is increased and the atmosphere of fear is removed. In this plan, disaster profile of Rajkot district , resource inventory and departmental S.O.P. has been included.

1.4 Concept of disaster management.

- Implementation and planning of disaster risk mitigation or mitigation measures.
- To minimize the destructiveness or consequences of a disaster.
- Preparedness for Contingencies and Disasters.
- Assessment of disaster impacts.

Crisis relief , rescue and disaster rehabilitation and reconstruction.

Disaster management is a continuous process , with all types of risk management and authority thinking about disaster management , planning and efforts.

All forms of risk management involve planning, considering and taking steps to avoid or mitigate all potential risks affecting the district . Empowerment means empowering citizens with education , training and support. Such an authority does not transfer the entire responsibility of

disaster preparedness to any individual but is a last ditch effort to ensure that each individual has the necessary tools and assistance to mitigate or limit the impact of the disaster.

Situational stabilization is complemented by measures and capacity-building to reduce the extent or potential effects of a disaster, as well as approaches that make the recovery process faster and less expensive.

1.5 Disaster Management Approach.

- The Government of Gujarat has a holistic approach towards disaster management. Disaster mitigation is divided into two broad areas.
- Relief and rehabilitation focusing on the planning and action needed to mitigate the effects of an immediate disaster or to accelerate the response during the slow onset of a disaster.
- Preparedness and prevention focus on plans or measures to prevent or eliminate the effects of hazards or impending disasters .
- The overall approach to disaster management is based on 6 (six) steps.
- Accurate assessment of risk and sensitivity.
- Planning and adequate allocation of resources.
- Capacity building and training.
- Provision of adequate toilets.
- Assignment of disaster management roles and responsibilities.

1.6 Mitigation , Preparedness and Prevention.

- Mitigation , preparedness and prevention measures are to be taken in advance of a disaster to reduce the likelihood of a disaster (risk minimization) or to reduce the extent of expected losses from a potential disaster (susceptibility reduction). Desensitization is given more priority than hazard minimization. A district can have up to four systems (1 or 4) to reduce risk and vulnerability.
- Long term planning for mitigation , preparedness and prevention in the district.
- Regulations particularly enforcement of construction and safety regulations and land use plans.
- Activities to review and evaluate development plans and identify ways to mitigate threats and vulnerabilities.
- Capacity building and identification of threats and vulnerabilities at community level, including provision of warning , relief and contingency assistance.
- Responsible for development plans and activities related to mitigation , preparedness and prevention using the system mentioned above with the assistance of Collector and District Development Officer .
- Based on the interim assessment of risk and vulnerability , the district will focus on the following areas for mitigation , preparedness and prevention.

- Re-establishing the supply system of life essentials. (Water , Electricity and Communication)
- health care , facilities , schools and roads.
- Alleviation of sensitivity in predisposed areas.
- Reduce sensitivity to cyclones.
- Improvement of disaster preparedness near industrial sites.

1.7 Plan preparation and revision.

- The District Collector is responsible for preparing and revising the District Disaster Management Plan in coordination with all the offices in the district and with other organizations in the district.
- When there is a significant change in the nature of a risk.
- Based on experience after a major disaster.
- Such plan should be reviewed and updated annually when there is a significant change in the organizations described in the plan or a change in the responsibilities of the primary members of the task force.
- As per Gujarat State Disaster Management Act-2003 framed by Gujarat State Disaster Management Authority for all the District offices under the guidance of District Collector Shri.

1.9 General Information of Rajkot District.

Rajkot district, which is the focal point of Saurashtra's development, has strategic importance from all points of view , historically, socially and economically. Rajkot district is located at 70-20 to 71-40 east longitude and 20-58 to 23-18 north latitude. 11203 km There are 584 villages and 11 taluka panchayats in Rajkot district which has 11 talukas , 6 cities and two uninhabited villages. Rajkot district is bounded by Bhavnagar , a small part of Amreli district in the east , Jamnagar in the west and Morbi and Gulf of Kutch and Desert of Kutch in the north and a small part of Junagadh and Amreli district in the south. The eastern part of the district is hilly. Whereas in the western part, the average rainfall of Bhadar river and its tributaries is 540 to 600 mm. The two main rivers of the district are Bhadar and Aji.

According to the census of 2021, the population of the district is 3799770 It includes 51.9% urban area and 48.71% rural area population. The literacy rate is 83.33% for males and 6.8% for females. Among the important agricultural products of the district, the main crops are groundnut , cotton , sorghum , millet , sugarcane , wheat , etc., while cumin , maize , gram , sesame , amaranth , rye , mustard etc. are also produced in large quantities. Major agro-based industries in the district are oil engines and cotton ginning pressing.

If we look at the various economic activities of Rajkot district, there are 1,510 irrigation ponds in the district. Due to which 68 ponds under indirect irrigation scheme in 30,000 hectares of land are used for three season crops in 48 hectares of land. Canals , borewells , wells , ponds and other minor irrigation llas have water bodies as big as Bhadar , Aji , Nyari which provide irrigation to 137 villages and water supply to 134 villages.

The district has continuous availability of electricity which is essential for the development of industry and agriculture. All urban and rural areas are fully electrified. ST covering the cities , villages and inter-state cities of the district. Bus service is available. Air services are also available from Rajkot to Mumbai and Delhi. Long and short distance trains run from Rajkot connecting the states of the country. Rajkot is an important industrial town in Rajkot district. Jetpur , Shapar-Veraval , Metoda , Lodhika etc. are also bustling with industrial activities. Due to infrastructural facilities and government's encouraging policies, industries like oil engine , ginning , pressing have developed rapidly in the district.

More than 30,000 small scale industry units are providing employment to more than one and a half lakh people in the district . Rajkot city has about 4000 industries including foundry , forging , machine tools , bearings , auto components etc. Among the important industries of the district are engineering , ceramics , watches , plastics , solid printing and edible oil. The dye-printing industry of Jetpur is famous in the country.

Thus , Rajkot district is bustling with activities including industrial , economic , tourism and is becoming the focal point of development of entire Saurashtra.

1.10 Geographic Information.

Located in the center of Divyakalpa Saurashtra, this district is bordered by Morbi and Gulf of Kutch in the north, Surendranagar district and Bhavnagar district in the east, Junagadh and Amreli districts in the south and Jamnagar district in the west. In terms of geography, the hilly region in the east direction, while most of the area has flat land except the scattered hills in the south.

The area covering Jasdan and Rajkot of the district is known as Panchal area, which extends up to Babra taluka of Amreli district. Historically, it is also identified as the land of exile of the Pandavas. Dhansia bidos are located in this area with narrow banks and high embankment-like open spaces and rammed wastelands. The land here produces paddy on a large scale. Landholders and farm laborers get employment from this paddy, which mainly grows naturally. Also, due to grazing in this area, a very large business of animal husbandry is going on, which supplies milk to Rajkot Milk Dairy and surrounding areas.

Starting from the northern part of the Jasdan, it covers the headwaters and forms a narrow canal extending all the way to Lodhika and also supplies the drainage line of the district. Near this edge all the rivers to the north flow into the Gulf of Kutch and the rivers that originate in the south meet the Arabian Sea. In the western part of Rajkot district there is fertile land, in which large-scale agricultural production is being done. This part of Bhadar River's riparian areas and tributaries of the river includes parts of Gondal , Jetpur , Jamkandorana , Dhoraji and Upaleta talukas. In this way Rajkot district is associated with various geographical matters.

Rajkot city located at the center of Saurashtra is situated at an altitude of 138 meters above sea level. The temperature of the city remains as high as 43 degrees centigrade and as low as 0.7 degrees centigrade.

❖ Tourism

Mahatma Gandhi Museum , Kabagandhi Delo , Ramakrishna Ashram , Swaminarayan Temple , Bhubaneswari Temple , Swaminarayan Temple-Gondal , Virpur-Jalaram Temple , Dhela Somnath , Shail Caves and Osam Dungar.

1.11 Residence.

Rangila and Raliyamana Rajkot city has many cultural activities going on and in order to boost this folk art cultural activity and the city people get its benefits, the beautiful Hemu Garhvi Natyagriha Auditorium has been prepared in the city. Many different cultural activities are taking place in it.

Actor known from Rajkot has achieved a name in Mumbai's Bollywood. Talking about such artists , Manhar Udas , Nirmal Udas and Pankaj Udas, these three brothers studied in Rajkot, moved to Mumbai and entered the world of music and ghazals. One such music in case is two musicians from Rajkot who are well associated with Mumbai and Bollywood are composer Mr. Vijay Davda and Mr. Pankaj Bhattal folk in case artists like Mithabhai Parasana, Jitudan Gadhvi, Bihari Gadhvi, Hemant Chauhan have kept Saurashtra's folk literature alive.

brave , hardworking and hard working. In Saurashtra, the amount of rain is less , cold and hot, especially coastal area, but if we look at the vast culture, there are important pillars of culture standing in villages reminding the stories of Virta in the villages. Not only the history of the folk cultures of Paliya but also the concept of virta and khumari. Saurashtra-Kachcha handicrafts , folk art are amazing. There is regional artistry in Bhatigaal embroidery and painting. There is a caste system. Aboti Bharat , Rabari Bharat , Kathi Bharat etc. are well known. Pearlwork art has developed well in the villages of Chotila , Jasdan , Jetpur and Sorath in Saurashtra. Eye catching samples of Bhatigal moti work are found and the fragments of com are found.

Saurashtra-Kachchh is the cradle of saints , mahants and heroes and its adventurous and hardy people are determined to keep its culture alive in the spirit of co-operation and harmony even in the face of adverse natural conditions, to develop its craftsmanship and to further perpetuate the unique talent of Saurashtra-Kachchh. .

The contribution of Rajkot in theater is good. Art directors and artists of Rajkot Mr. Ramesh Mehta , Mr. Mansukh Joshi Late Hemubhai Gadhavi, Mr. Hiralal Trivedi , Mr. Bharat Yagnik , poet Mr. Manilal Pagal , Mr. Gulabbhai Shah , Mr. Amrit Dhayal , Mr. Rushwa Mazlumi etc. have given a good boost to the art. So self Great personalities like Mr. Nirbhaybhai Bhatt , Mr. Arvind Dholakia , Mr. Jayamalbhai Parmar have been providing importance in the field of art education and literature. Jayortidhar Sama of Gujarati literature Mr. Gaurishankar Joshi (Dhoo Maketu) was also a native of Virpur in Rajkot district. Rangilu Rajkot also occupies a leading position culturally. The Lok Mela held every year on the festival of Janmashtami is known throughout Gujarat. The festival is a favorite of the citizens of Rajkot. If you eat the ice cream of this city once, it will remain in your mouth. Tourists visiting this city also enjoy the unique taste of Rajkot ice cream. Markets and traders of Rajkot also have that specialty. Markets generally open at eight o'clock in the morning and close at around one o'clock in the afternoon, then open at four o'clock in the evening and close at eight-thirty at night.

Whether we are talking about Penda of Rajkot or Chevda, Wafer or Kharisingh, or talking about Cheeky or papad, the turnover of the people who are involved in the common business of papad can be imagined that it will be amazingly big. The green chutney of Rajkot has become a center of attraction for Gujaratis living abroad.

Spread over an area of 125.1 square kilometers, this city is progressing with leaps and bounds in terms of development. The first industrial colony of the state was established in Rajkot of Udyognagar and the oil engines of Rajkot have become famous in foreign countries by crossing the borders of the country. Rajkot has gained a place in the national map of Ladhu Udyoksha. Only four prototype development and training centers are working in the country. One of them is established in Rajkot. About 60% of the engine production in the country is done in Rajkot.

For tourists visiting Rajkot, there are centers of attraction such as Raliyamana Racecourse , Ramakrishna Temple , Rajkumar College , Jubilee Bagh , Watson Museum , Gandhi Smriti , Kabagandhino Delo , National School , Sardar Memorial , Ajidem, Ishwariya Park and Praghuman Park .

Bhubaneswari Temple at Gondal near Rajkot , Akshar Mandir , Jalaram Temple at Virpur are well known among devotees. Rajkot district which is known for tapur saree industry.

The famous Somnath temple is 196 km from Rajkot. So it is another dream to watch Vanraj Savage roaming freely in the only Gir forest in Asia. Sasangir Rajkot is at a distance of 180 km. The legendary town of Riarka is about a kilometer away from Rajkot.

Due to the severe drought situation, an unprecedented water crisis occurred in Rajkot city earlier and for the first time in the state, water was delivered to Rajkot by train, 65 km from Rajkot. Bhadradam based permanent water supply scheme

The population of the city has reached over 19 lakhs today. Municipal Corporation has been functioning in Rajkot since 1974.

1.12 Educational.

Primary education is a basic requirement. Primary education facilities are managed by Rajkot District Panchayat. There are 38 new primary schools in isolated settlements in primary education facilities in 11 talukas of the district and now there are 1180 primary schools in which 365 students are studying .

A total of 19980 school rooms have been planned for primary education. Against this, 206 works have been completed. Repair work of 213 rooms has been completed.

Physical needs and educational equipment of schools have been provided under Operation Black Board scheme of Govt. Children from 6 to 14 years of age who do not come to school are organized and subjected to mass prostitution every year. Class 1 classes have a child friendly section. As many as 1110 children's classes have also been made operational.

To improve the quality of primary education, teachers of all classes are trained according to the new textbooks, so that the teachers are aware of the basic requirements and trends.

In Zilla Panchayat Adajapatra, efforts are made to make basic education possible by providing financial provision for science fair , annual examination , best school , drinking water facility , children's drawing classes , giving administrative literature to primary school teachers etc. 40 , 456 more children study in 9 primary schools of Rajkot Municipal Corporation Hastak . In order to raise the level of education, the state government has started the District Education Training Bhawan in Rajkot.

There are 61 district secondary schools and 10 higher secondary schools. 1,47,366 students study in them. Saurashtra University is headquartered in Rajkot. As many as 105 colleges are associated with this university. Various postgraduate level courses are conducted in the university building. There is also a functioning medical college in Rajkot city. Similarly, A.V.P.T. Technical Institute and VV Engineering College , Pharmacy College etc. are functioning.

❖ Rajkumar College.

Rajkot Rajkumar College is an institution of special importance in the state.

During the English rule, the princes of the princely states had to be sent to England for study and it took months to go to London in the meter, so that the princes could get an education like Cambridge in the country, an educational institution was started by making contributions from the princely states.

In the year 1968, the Governor of Mumbai, Scott Fenrive, laid the foundation stone of the building of Rajkumar College and since 1871 Rajkumar College had all the Rajkumar students as its students.

Gondal Sir Bhagwatsinhji , Takhatsinhji of Bhavnagar , Shri Bawajiraj of Rajkot , Wadhaji of Morbi , Jam Ranjit of Jamnagar etc. were students of this Rajkumar College. The Jam Ranjit Ranji Trophy cricket tournament is held in Jam Ranjit.

Sir Bhagwat Singh was a civil engineer and did the beautiful town planning of Gondal. The method of underground wiring was implemented in Gondal and he was also the pioneer of Bhagwat Gau Mandal.

It is said that at that time the princes used to come with their rasalas for study purposes and used to have separate rooms for them. In addition to various sports, horse riding was also taught to the students of Rajkumar College.

The first principal of this institution was Mr. McWatton. When Captain of Punjab Regiment Mr. Peter Rogers served in this institution for 42 years, out of which he remained as Principal for 27 years, he contributed a lot in the development of the institution.

Poet Nanalal also served as a teacher in this Rajkumar College. The college has a grand campus , main building , sports grounds, etc. The complex of Rajkumar College is spread over an area of 26 acres. The present Shastrimedan here was also earlier known as Rajkumar College Ground.

The students who have taken education here have reached rich and high positions. Many of them are I.A.S. , I.P.S. , I.F.S. , Aamir , Air Force etc. have reached high rank.

Students from foreign countries also come to study in this institution. Here the overall development of the students is taken care of.

The magnificent and artistic building of Rajkumar College is a sight of Rajkot. Its magnificent Bhavsinghji Hall and the various weapons displayed in it attract everyone's attention.

In 1838, public schools were built at four places in the country for princes. They include Rajkumar College in Raipur , Meryo College in Ajmer , Dali College in Indore and Rajkumar College in Rajkot. Here studies and examinations are conducted as per the Central Board of Secondary Education.

The tattoo program in Rajkumar College is becoming very attractive. In the olden days, there were 20 small and big kingdoms in the state of Saurashtra, when the folk poets , the vigor of the folk writers and the passionate , love and sentimental folk literature compositions used to shake the hearts of the people. Even today, the folklore of Kathiawar continues to attract people.

"O Raj, I like the color of Kasumbi, drink the color of Kasumbi in the heart of Janani, Oh Raj, I like the color of Kasumbi..."

Such works of folk literature that celebrate the day of Manavi have become a heritage of the folk cultures of Saurashtra.

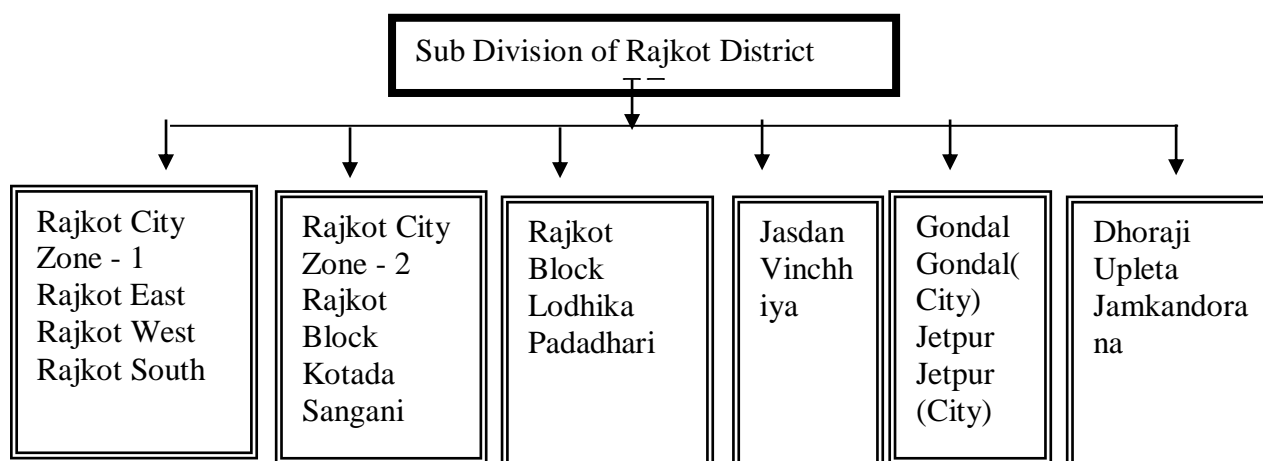

Another such age-old educational institution in the city has celebrated its centenary. This is an institution. Saurashtra High School years ago, dignitaries have been taking education in this institution. The students of the institute have also shone in the board level results. In the technical field AV Parekh Technical Institute popularly known as AVPT.

❖ Ramakrishna Ashram.

spiritual , educational and service activities, the Ramakrishna Ashram attracts the attention of every passerby as it passes over the Rajmarg Sama Yagnik Road of Rajkot. A grand and grand

1.14 History of Rajkot District.

❖ Rajkot

Rajkot is the industrial center of Saurashtra. Bhakitnagar, the first industrial colony of the country and established in Udyognagar Rajkot, Rajkot is very big in the field of diesel engine production in the country. The same is the case with Sonachandi Bazar of Rajkot. Rajkot gold and silver craftsmanship is famous abroad. The name of the city of Rajkot is known throughout Saurashtra in the field of small industry. Rajkot is bustling with industrial activities, Rajkot is the center of Saurashtra, which is constantly working with cultural arts and sports activities Strongly pushed forward.

As mentioned in poet Mr.Narsinh Mehta's poem that kathiawad be a land of god, holy saints, which is importantly a part of Mahatma Gandhi's nation, is a famous place for the king of the jungle as well in Gir throughout asia, whose giant roar brings a thrill to anyone who listens to it.

Rajkot city was founded by Thakorji Vibhaji in the year of 1610 and he ruled about 282 square miles area with 64 villages throughout. In 1720 the deputy subehdar Masum Khan belonging to Sorath regiment defeated the ruler and the name of Rajkot was changed to Masumabad. After that in the year of 1732 the son of the defeated ruler Meramanji took the revenge of his father's defeat by defeating Masum Khan again and kept its name Rajkot again

In the year of 1822 the British rule established an agency and kept its name Kathiawad agency. The present Kothi area which houses the customs and railway offices used to house the officials of that british agency during that period. During various changes there was a change in the leadership and again the whole area belonged to the agency which is at present the Sadar area Rajkot was linked with Wankaner through railways in the year 1889. In 1893 rail link was established between Rajkot and Jetalsar. During that time mostly meter gauge trains were used and which formed the main lifeline of the transport within the areas.

Due to meet the water needs of the Rajkot city which is built on the shore of the river Aaji a new lake called Lalpari was established in the year of 1895.

In 1921 the political leadership of the Kathiawad first met in Rajkot. And during this time Lakhaji Raj represented the first meet and established the first settlement of the political leadership in the area.

In 1925 Mahatma Gandhi for the first time visited the city and thereby established the first educational activities. Today it is a well established centre for rural industries.

In 1937 Vadhera started a wide agitation against the atrocities of Diwan Viravada and thereby started the first satyagrah. And this was finally resolved by Sardar Vallabh bhai Patel. This resolution was finally let down at a later stage and with this development Mahatma Gandhi started the hunger strike to denounce this move. 1942 quit India movement was also a major contributor for Rajkot to become a major hub for the developments as well.

The city's Jubilee Bagh and its grand edifice houses artefacts and artefacts reminiscent of the 100-year-old Leng Liabrary kingdoms on the one hand. There are many other things that attract the attention of Watson Museum visitors.

Today the building has a large hall at the front, which was earlier known as Connaught Hall and is now known as Arvindbhai Maniyar Hall. Many different programs are held in this hall every day. The hall in the heart of the city suits everyone.

The Saurashtra state assembly once sat in this hall. At the rear of this building are the regional information office of the Saurashtra-Kachchh division and the offices of the archeology department.

A place known as Kothi Compound near Jubilee Bagh was once called an Agency Station during the British Government and the Political Agent for Kathiawar used to live in a huge bungalow in the Kothi Compound. Today, the divisional office of the railway sits there and there are railway quarters in addition to the railway offices in the Kothi compound.

© Racecourse

Racecourse is sweet. People come out every morning, evening or even night to round this race course. This is the daily routine of conscious citizens of the city for physical fitness. A beautiful garden has been created in front of the multi-storied building in 4 thousand square meters. Along with the underground cable, 4 light poles have been installed with advanced lighting system. A stop garden has been constructed in front of the racecourse. Children and advanced children playgrounds are created.

Happy Saurashtra Dharani
Hinddevi, the Atari of Central Asia in the west, leaning on the mighty Indus
She was like a sharp dagger shining at her waist
Dhanya Ho Dhana Saurashtra Dharani

- Poet Tribhuvan Vyas

Before independence Bedinaka , Ramanathapara , Bhicharinaka , Sardhar's Nakku , Kotharianaka , Gundawadi i.e. Dhebar Road was known as Old Rajkot and the western side area after Dhebar Road is New Rajkot i.e. later developed area. On the Dhebar road, where today there is a constant flow of vehicles, once a railway train used to take tea on that road and Bhakitnagar station did not exist.

© First railway in Saurashtra.

Before science had yet touched the land of Saurashtra, the mareof Khakiyawad were known for their speed and strength. Earlier, there were no paved roads and motor railways or airships were not known since then, people's business was carried on by horse carriageand seal.

There was a traffic situation at that time when the tappa was running between Rajkot and Wadwan. There was always a fear of to rob by thieves , bandits and outlaws on the way, so there was a need for armed guards in the forts and Shidharams. Those who were unequipped traveled on foot, but at the risk of their lives, in those days time was unlimited and distance was limited. First railway in Hindustan between Mumbai-Thana in 1853 and B.B. And C.I. The railway line came up to Viramgam in 1871. Exactly 20 years after the first railway line was laid in Hindustan, the railway line was laid on the land of Kathiawar and Viramgam became the nose of Kathiawar. Railways started in Kathiawar in 1879. Bhavnagar Darbar took the initiative in this matter and laid the track from Bhavnagar to Vivan. In the same year, the Gondal Darbar built a 74-mile railway from Dhasa to Dhoraji, Junagadh and Porbandar Rayo also in 1885 and in 1889, the Darbar built a small-gauge railway, initially between Rajkot Wadwan and later converted to meter gauge. In this way, it was a big stretch from Viramgam to Vadwan to provide continuous meter gauge to the meter gauge railway from Saurashtra to Delhi. It was converted into meter gauge thus connecting Saurashtra with Delhi and North India by rail. At the beginning of the twentieth century, Kathiawar had 360 miles of medium and narrow gauge railways, including the Vadodara State Railway in Kathiawar. During the next 30 years there was rapid progress and as a result the railway extended to 1041 miles. In 1948, when more than 200 states of Kathiawar were united and the united state of Kathiad came into existence. Then the five separate railways of Kathiawar were merged and the government took over the business of the railway on 1st April 1950. After this, Saurashtra Railway started mail trains which can be reached quickly to provide more convenience to passengers which include Okha Mail , Rakirthi Mail , Somnath Mail etc.

The road now known as Sariwalisheru came to be known as Sidwalisheru as people walked to the street from the railway bridge.

During the British rule, Rajkot was the headquarters of the agency, and the kingdoms of Kathiawar were located in the city of Rajkot. Like Junagadh , Bhavnagar , Vadwan , Palitana , Jamnagar , Saila , Mengani etc. Guest houses of different states were in Rajkot city.

Rashtriyashala in Rajkot city became an important institution during the struggle for independence. Father of the nation Mahatma Gandhi did a historic fast here. Rajkot's royal Sir Lakhajiraj Prajavatsal was a royal named after his name. Rajkumar College for education of the sons of kings-maharajas is located in the heart of the city. Cricketers like Jam Ranjitsinhji also took education in this educational institution.

Gold and silver ornaments have also made the name of Rajkot city famous across the country. The gold and silver ornaments made here and the artistry here have put four moons. Be it Mumbai or Delhi , Indore or Bangalore, the art of Rajkot has enhanced the beauty of the big showrooms of ornaments across the country.

Ornaments of the State To see the ornate reality of the golden dream of a Navli woman, famous in the country and abroad, one has to see the gold market of Rajkot.

The city of Rajkot is world famous for gold and *Silver* weaving and artistry. In addition to Soni Samaj of the city, 15 Jetal Yehubar schools have contributed significantly in giving Rajkot this award.

Fifteen decades ago, there was a gold market from Kotharia Naka to Darbargarh in the city. Fifty-six stores of Sony were in this market. Mattresses used to be sold in these shops. There was a trunk inside. It used to stay between the trunks. In which work was done to melt the gold. With the tools like anvil , hammer , pen , saw , tongs and jatda, the goldsmith himself used to make jewelry from the edge to the bottom, the bones of fifty years ago are not seen today. Sony bazaar shines with opulent showrooms in keeping with the times. There are about 450 small and big shops in the city. According to an estimate, about 60,000 gold and other artisans are engaged in making gold and silver jewelry today.

Gas has now taken the place of Bagheti. Equipment also changes with time. These artisans prepare artistic ornaments by pounding more than two hundred kilos of gold and more than two thousand kilos of silver. According to an estimate, the artisans pound gold and silver jewelry worth more than 15 crores daily.

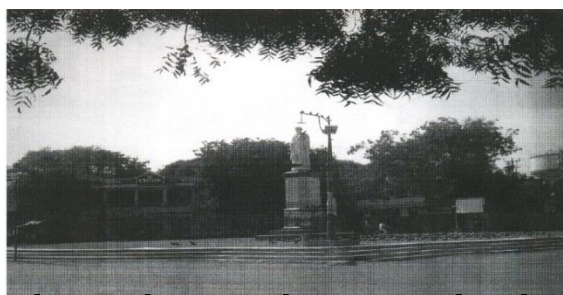

The bow of design is important in jewellery. The gold and silver artefacts produced in Rajkot are famous in the country and abroad.

The racecourse in the heart of the city is full of laughing, playing and jumping children who draw their parents here. There is also a swimming pool for swimmers. So a painter or an artist to exhibit his art and also an open air theatre. There is a regional folk science center for science activities. Pujit Rupani Trust is doing many different types of child development activities in the city.

Today, international cricket matches like Racecourse ODI are also held and facilities have been created where thousands of spectators can watch these matches. Coaching is also held at Racecourse Cricket Play Grand to prepare future cricketers. Overlooking the city, the Swaminarayan Temple is becoming a center of gold attraction on Kalavad Road in the city. Spiritual and religious activities are constantly taking place in this temple. Thus, Kalavad Road is the education zone of the city. There are many schools in this area, apart from the colleges, there are also national universities. There is also a huge campus. So there are important hospitals providing medical treatment like Satyasai Heart Hospital , Gondhia (Wockhardt) Hospital , Rustling Hospital on this route. In this way, the city of Rajkot has created a distinguished reputation in many different fields and is gradually climbing the peaks of progress. Rajkot was once the capital of Saurashtra state. On November 1, 1956, Saurashtra State was merged and Mumbai State was divided and Gujarat State was formed and even today Rajkot continues to be an important district of Gujarat State.

© Dhoraji

The area of the old Gondal state was spread over 8 mahals. Dhoraji Mahal was 51 km away from Gondal. This city was the name of Dhoraji Ness from Gaekwad time. Dholiben Rabari's Ness

(Maharaja Bhagwatsinhji statue and circle)

(Old Entry Gate of Dhoraji (Tin Darwaja))

was on the banks of Shakranadi. The shaping city was built.

Osam area is located at a distance of 1 km from Patnawav village of taluka in the south direction. The area is known as Olam. The remains of the village show how important this area was after Gaikwad times.

This taluka mainly belongs to Leua and Kadwa Patel , Kharedi Brahmin , Jain and Memon communities. At a distance of 5 km from Dhoraji is

Fareni village , where Bhagwana Swaminarayan's guru Ramananda Swamishri took place. There is a Deri at this place as well as a temple of Lord Hanuman. There are shrines of the great Saints of the city like Sammohiuddinchisti and Lalsarapir. A night fair is held at this place every year.

The Darbargarh of Dhoraji was built by Bhakubhaji, the erstwhile Gondal royal, which is a monument protected by the state government gate. Entering this Darbargarh. A finely carved Yukat building is seen. Sculptures of lions , elephants etc. are carved on the chhaja . Both of the following manalas are punishable by fine. The windows and windows of both the floors are decorated with various full vines and Jalar Bhats. 18 m. This one of the finest examples of the century's heritage is today protected by the Dhoraji government.

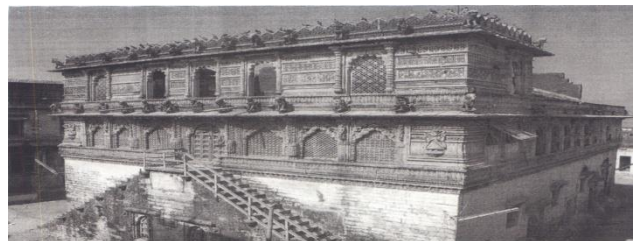

Dhoraji city and taluk have a good reputation in agriculture. Groundnut production is considered good in this area. Dhoraji is at a distance of 89 km from Rajkot city. Bhagwatsinhji High School in Dhoraji town is old. A technical high school is also functioning here. Plastic industry is also developing in Dhoraji since some time. A total of 24 trains are working in Dhoraji, including 17 nationalized trains and 7 cooperative trains.

(Temple of Aashapura maa and that Buldings)

Dhoraji Fort and Durbargarh.

At the time when Dhoraji was achieved, there was a lot of fear of looting and raids by robbers. So for the safety of the people, Darbar Shri Haloji and Kumar Shri Bhakumbhaji started building a fort around Gondal in Samvat 1803, but before that fort was completed, Bhakumbhaji found it necessary to build the fort

of Dhoraji. So in Samvat 1805 AD, the fort of Dhoraji was deeded and the work of building the fort of Gondal was postponed.

The construction work started in full swing. Halaji was very diligent in building this fort. So he settled in Dhoraji. He always started the labor himself. He should be present himself when the work starts in the morning. He used to start the work by picking up a stone himself and placing it

with the craftsman. Thus , the work begins. The craftsman would break the stone and immediately start all the hard work. In this way, for three-four years in a row, Darbar himself started the daily work. Durbar Haloji passed away in Samvat 1809. At that time the work of the fort was almost completed. The height of the fort was kept at 20 to 100 feet above ground level. This wall was built eight-nine feet wide from the base. On the way up, a two-foot wide wall was raised to a height of one metre, and the rest of the width was kept for a road that could be turned around the village. A two-foot-wide wall housed Sindha and Trasa cannons for firing and large square niches for firing cannonballs. At the base of the fort, there were also turrets where guns could be pointed at the attackers. A barrage was also placed in order to stop them from breaking down the main gate. A door-post was placed diagonally across the outer side wall of each door and was built over one end of the door. Its secret is worth knowing.

Each door has thick plank reinforced doors , sharp nails are embedded in the door , the edge of the nail comes out in a sudden jet like this nail is called a spear , it takes the strength of an elephant to break a door with a spear. If the elephant bangs its head on the door, the door locks will come out and the door will fall and the way will be opened. But because there is a spear in the door, the elephant is pierced by hitting its head. So the assailant makes such a trick that the camel is standing with the door horizontal and the elephant runs and hits the camel's head, then the camel is pierced with a spear and the door opens due to the push of the elephant. But the elephant's head must run first. The more it runs, the more it can hit its head. The door was carved horizontally so that the elephant could always run in a straight line and therefore the elephant's run could not be long.

There were wonklas to the east and west of the fort. To the north was the river. A trench was dug adjacent to the fort towards the south. Thus , the entire fort was built with a warlike defense in mind.

The upper wall of the fort is on the bank of the river , so the wall was slightly rounded like a seed moon to prevent the flood water from hitting the fort. In the fort, trenches were made everywhere and round kothas were built everywhere. Kotha was used to keep supplies for the soldiers who were on the line and to arrange their food and rest.

© New competitors.

After the tower of the fort was built , people started coming from outside as well.

Inner steps of Dhoriwav on Junagadh Road

Vadhasiya , Kanbi came first. His family was rich , so he was given 1000 acres of agricultural land along Fareni and Torania roads. Therefore, a new window of Vadhasinya was placed in the fort to facilitate access to that side. When the woolen bales were pressed for tying and later this cotton was ginned. Then a new door was installed. When it was decided

to bring the railway to Dhoraji and the railway station was built. Then a road was built up to the station for the convenience of commuting. The gate of Junagadh has been re-opened. At that time the management was ongoing and the state administration was in the hands of the administrator.

After the gate of Junagadh, the gate of Sorath became useless. So he was still forever renting that door. In Samvat 2019, the city of Sudhraiya built a town hall in the outer part adjacent to the fort. Then this door was thrown down.

When new Aline were planned to be built to the east and south of the fort , after AD 1984 to connect the Aline settlement roads with the village road, the fort was razed and its stone was cut to pieces and reused or sold.

Cement was not even invented when the fort was built. However, the construction of the fort became so strong that even after one and a half years, it takes a lot of effort to break it down. It is said that all the stone of the fort is from the same quarry. A large stone slab was found on the Bhadar bank. A mine was dug there , it was called Dhankeda mine. Now that mine is closed.

© Shri Bhagwatsinhji Hari School.

Volunteers Union High School was initially housed in Jean Darwaza Dak Bungalow. But later turned from there and was run by Kuber Pari for some time. When the government took over the volunteer school , then the middle school run by the state government and this school were merged and the building of the middle school was increased and this school was given the name of Shri Bhagwatsinhji High School.

First this high school was located near the new association building , with time the number of students started to increase , Maharaja Sir Bhagwatsinhji and Bhakumbhaji aline a new school building was planned to meet the influx of future students but after the death of Sir Bhagwatsinhji, the plan was thwarted. Bhagwatsinhji dug the foundation of this magnificent building and built black stone chairs. After the independence of India, the government of our people started the work of building this high school for ten years. At present Shri Bhagwatsinhji High School is running in both old and new buildings and almost as many students as S.S.C. Sits in the new class of In the third five-year plan, this high school was converted into a technical high school.

© Muslim High School and Muslim Middle School.

Seth Haji Wali Mamad , Haji Hasan Dada Kunda took a huge plot on Station Road and spent a huge amount of money in it and built the present Muslim High School. This high school has started from AD 1988. Only Muslim students study in higher standard. Currently, the number of students has increased to over 400. Classes from class 8 to 11 are taught in this high school.

The Muslim Middle School has

been started since 1932 AD by the efforts of two other Muslim householders, Seth Ahmad Nagaria and Seth Haji Mammad Tarmamad Teli. This middle school is currently running opposite the girls school. About 400 to 500 Muslim students study in the school.

Girl Education.

Maharaja Sir Shri Bhagwatsinhji started standard education for girls. In 1887 AD, the foundation of a girls' school was laid outside the gates of Junagadh by Governor Lord Ray of Mumbai. After the construction of this building named "Lady Ray Girls' School", independent studies were provided for the girls and in 1919, a decree was passed to make girls' education free and compulsory in the entire state. Since then, teaching of girls started strongly in Dhora, gradually this school turned into High School and now S.S.C in Girls High School. Classes run up to Apart from this, a separate school for girls is run by the Education Department of Gujarat Government in the old association building and runs up to standard seven. Apart from this, co-education of girls and boys in the taluka school and all the branch schools under it continues till standard seven.

❖ Gondal

Gondal State, located 35 km from Rajkot, was a thriving and progressive state before independence. At the end of the 19th century and the 20th century. At the turn of the century, Maharaja Bhagwat Singhji made the state a progressive state. Gondal brought railways to the state. The very first tram in Saurashtra built such good routes in gondolas. Things like schools drainage system, irrigation were given importance in the state. Besides, free education was made compulsory. Took special interest in girl child education. Bhagavad Gomandal Granth was also produced at that time.

Gondal is a model city for well organized town planning. The architecture here is fascinating. Gondal's Veri Lake is an excellent example of public construction. The development of the city of Gondal shows a beautiful blend of ancient and archaic times. The city of Gondal has progressed with the times. Gondal taluk is providing well in the field of agriculture, cooperation, business industry etc.

Many people come here to visit Yogi Smriti Temple, Akshar Temple and Puran Swaminarayan Temple as well as Bhubaneswari Temple, Ashapura Temple. Gondal's marketing yard is located on the Rajkot - Junagadh highway. Khambhalida is seven kilometers from Virpur on the banks of the Bhadar river. There are five caves here dating back to the 2nd-3rd century AD and these are believed to be the caves of the Buddha period.

In Gondal there are Srinathgarh, Shail Caves, Rajkot Government Protected Building Monument at Rozdi, a Harappan village settlement. Rozdi Timbo is situated on the right bank of Bhadar Nandi. This settlement is north-south Rs. long and east-west 150 m. It has a width of 4 m. has a height of Timbo is a rural settlement with a small town. A protective wall around the village is constructed of large rocks. A large entrance gate has been planned in the north-east with a large fort. Internal fortifications have also been made separately. The rooms of the building are large in size. Some of them also contain grain sugar rolls. The Harappan pottery from the settlement is similar to other contemporary settlements of Saurashtra with a regional sheen. One karakara bears

letters in the Harappan script. Among the vessels found are kothis , matlas , vadvkas , large saucers , dishes-on-stands , vadas with handles and characteristic perforated ware of the Harappan period. Apart from this, beads like agate , jasper , shell and carnelian have been found. Shell beads , bangles , copper tools etc. have also been found. Apart from farming and animal husbandry, the people here probably also traded. The earliest settlement dates from c. P.O. 1000 to 1600 BC and the period of late settlement in AD. P.O. 1800 to 2000 is considered.

A typical rock-cut cave architecture is situated on the banks of a flowing spring near Khambhalida village. The group of Shailotkirna caves are in five clusters, the most important of the caves in the second cluster is the middle cave of the complex. The kind of sculpture seen in these caves is not seen in any other cave in Gujarat.

Minalvav built by Minaldevi , the mother of Solanki king Sigdharaj Jaisingh at Virpur village of Gondal taluka is one of the protected building by government. The Nanda type entrance is from one side and a series of steps directly leads to the water. This vav has three kuts , in the wall of each kut there is a shrine, in which idols of gods and goddesses are installed.

❖ Jasdān

The area around Jasdān in Rajkot district is known as Panchal region. Jasdān is 63 km from Rajkot. is at a distance of Here the diamond industry , Patara and handicraft industry has developed. The area of ancient temple Ghela Somnath , Bileswar Mahadev , Higoigarh near Jasdān is attractive for environment lovers.

▪ Hingol Garh Nature Education Sanctuary

10 km from Jasdān in Rajkot district. Distance 6.54 km. Higoigarh Nature Education Sanctuary scattered in the area is a must for environmentalists. It is in Motisar VD area. Hummingbirds , large geese and other migratory birds are found in this sanctuary. This sanctuary has been established to impart nature education to school children by conducting nature camps.

The ancient forts of the erstwhile native kingdoms of Jasdāna become the main attraction for these camps. November to March is the best season to visit this sanctuary.

❖ Jetpur

Jetpur city is known for saree industry. Vaselua city on the banks of river Bhadar is the main center of dyeing and printing of sarees. About 35 thousand people are getting employment from this industry. 20 lakh meters are produced in a day in 850 units. About 70 percent of the finished goods are exported. 400 KV power substation near Dhareshwar temple is available in most areas of Saurashtra. Power is distributed. Navagarh is on the railway line. 3 km from Jetpur there is a temple of the legendary Keralashwara Mahadev on the banks of Bhadar , Hemendri and Sakario rivers. Here the Pandavas made a state visit. It is also popularly believed that Bhima died from this place for Hidamba's marriage.

Kamleswar , Someshwar Mahadev and Surya Mandir , Rambhakta Hanuman Mandir , Gayatri Mandir etc are on Rajkot Road. Bhidbhanjan Mahadev Temple is also ancient. British Political Agent W. Anderson built a bridge over Bhadar River in 1874.

There are two separate routes from Jetpur to Porbandar and Junagadh. Along the route to Porbandar, Dhoraji and Upleta towns are known for agricultural cooperation and plastic industry.

Groundnuts are produced well in this area 13 m in the old Shakli village in Jetpur taluka of Rajkot district which reflects the splendor of the Solanki period. A century-old monument is the temple of Sankleshwar Mahadev. The entrance hall of the sanctum sanctorum in this temple is three-branched. This temple is decorated with sculptures of various forms of Shiva , digpalas and apsaras and sages.

❖ Virpur (Jalaram)

On the way from Godnal to Jetpur is Veerpurjalaram Bapa's shrine. Every day a large number of devotees and tourists come here to visit the Jalaram temple. The special feature here is that instructions have been placed requesting no donation or gift in the temple. Pujay Jalaram Bapa's life mantra was public service. Prominent Gujarati writer Dhumketu was from Veerpur. Here is an archeologically important mine.

❖ Upleta

Three cities were in existence under the rule of Gondal kingdom. Among them were Gondal , Dhoraji and Upleta and the main cities. The then long-sighted royal Sir Bhagwatsinhji ruled for a long time and did fundamental welfare works for the people of the state with the best administration. Sarbhagwat Singh ji's regime maintained the inner image of folk culture and carried out many development works with long-term planning. He gave clear and concise administrative laws and strictly gave public oriented administration. During the celebration of 50 years of his reign, as part of the Golden Jubilee Festival, many works were inaugurated and the buildings prioritized the well-being of the people were opened which are still in use. The city improved with systematic town planning , water tanks , modern pump houses , electricity, grand entrance gates , grand school buildings. Panchayat Dharko , Filter Plant , Bhurgab Sewerage Schemes , Under Ground Street Light , Darbargarh , Wide and Magnificent Four Roads , Sports Grounds, Railway Lawns and Railway Stations , Gardens , Pavements , Highways , Footpaths , Town Zoning , Check Dam , bring it , Bridges and culverts on rivers , flood protection walls on rivers , lined wells , MS of water distribution. All aspects of public life, including pipeline networks , telephone lines , books, are developed with the vision of Benmoon architecture.

Hazard vs Risk

This is a Hazard

This is a Risk

Chapter-2

Disaster Risk Analysis

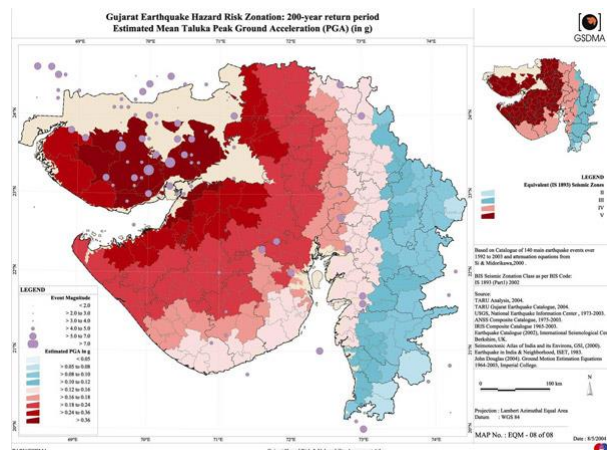

Hazard, Risk, Vulnerability and Capacity (HRVC) assessment

Hazard , Vulnerability , Vulnerability and Capacity (HRVC) assessment consists of an integrated assessment of vulnerability and vulnerability for various hazards. This information contains a lot of interesting analysis. Where are the risks , potential locations and structures, and who are the people potentially at risk ? Also which people are able to cope with the complex. Helplessness assessment includes economic , social , housing, unsafe housing of helplessness , environmental helplessness etc. The hazard , risk , helplessness and capacity (HRVC) assessment contains details of resources , pre-preparedness arrangements , communication arrangements , public distribution arrangements , godowns , transport , health , fire stations , storm shelters , besides making emergency sponses effective Voluntary Organizations functioning And there is a list of self-servants.

Hazard assessment

2.1 Earthquake.

Rajkot district is prone to various natural as well as man-made disasters. Out of 11 taluks, only one taluk of Rajkot district falls in Paddhari earthquake zone 4 , while Rajkot , Lodhika , Kotdasangani , Jasdan , Vichinya , Gondal Jamkandorana , Jetpur , Upaleta and Dhoraji taluk falls in earthquake zone three.

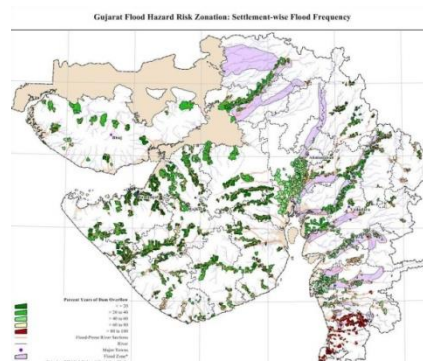

On 26th January 2001, an earthquake of magnitude 6.9 was experienced in the state of Gujarat, as a result of which the residents of 417 villages and 417 villages of Rajkot district along with other districts of Gujarat were affected by the earthquake.

Very High (IX to XD)	-Rajkot
High (VII to VIII)	-Gondal , Jetpur
Moderate (VID to VI)	-Jasdan , Upleta
Take (III to IVD)	-Dhoraji , Jamkandorana
Very low (I to IID)	-Consists of Lodhika Taluka.

2.2 Flood

There are 6 main rivers in Rajkot district. 1. Demi , 2. Dodi , 3. Aaji , 4. Bhadar 5. Moj and 6. Nyari There are no major dams in Rajkot district. 30 are located in Minor Dem , which is owned by the Irrigation Department of the State Government. Apart from this, there are 68 minor dams under the control of Panchayat Department.

2.3 Storm.

- A hurricane is a swirling cloud of smoke and high-velocity air that rises over land from the sea. Due to low pressure in the atmosphere, these cyclonic winds, formed in the Arabian Sea or the Bay of Bengal, generally move in the north-west direction and strike the land from the sea. Heavy to very heavy rains can also occur under the influence of storms.
- A massive heat wave in north-west India is a factor in generating cyclones.
- As air warms, it becomes lighter or rises, creating an area of low pressure. To fill this space another wind rises on this side.

In this way, a huge mass of clouds with steam from the Arabian Sea moves forward and rises towards the pressure

zone over the coast.

Cyclone rotates in the direction opposite to that of the cyclone. It is 8 to 12 km above the sea level. Can be up to height. The width of the storm is 20 to 50 km. can be of The center of calm in the center of the storm is called the front of the storm. The circle inside the eye and the outer circle are part of the storm itself. Based on the speed and direction of the wind , the weather forecaster gives a warning (hurricane bulletin) by calculating when and where a storm is likely to hit the land surface .

Cyclone in Gujarat mostly comes from Arabian Sea and moves in North , North-West direction. It mostly affects the coastal areas and bay areas region including Kutch , Morbi , Jamnagar , Porbandar , Junagadh , Amreli , Bhavnagar , Bharu. Areas of Ch , Surat , Valsad district are included.

A storm has no specific duration. In Gujarat, there is a high chance of a storm coming before or after the monsoon. That is, from the month of May to the month of October, the danger of storms is high. It usually moves at a speed of 15-25 kmph. Speed is less at sea. When it comes to the ground, the speed increases. But many times there are cases of the couple staying at one place for a long time. In this regard it is imperative to follow the weather forecast. Locally precise predictions cannot be made. The wind direction changes from one side to the other in the areas passing through the center of the cyclone and the wind calms down in the intervening period , so extra care is required.

2.4 Industrial - Chemical.

About 29630 small , 69 medium and large industrial units in Rajkot district. A large number of industrial units have developed in Jetpur , Gondal , Upleta , Dhoraji and Rajkot talukas of Rajkot district. Engineer , Forging , Casting , Solvent Plant , Paper Mill, Dairy , Electronic, Petroleum , Handicraft , Oil Engine , Electronic Items , Generating Mill , Electronics , Ceramic and Pharmaceutical etc industries in the district has developed . Rajkot has achieved great success in the business of diesel engine and its parts and furniture.

Various industrial units

order	Type of Industrial Unit	the number
1	Food Products	1953

2.4.3 Need to identify disadvantaged groups.

Persons with disabilities are more vulnerable during a disaster , so individuals and groups with special needs should be identified and their needs prioritized in action plans . , having difficulty speaking , hearing , remembering may have difficulty during a disaster. Special arrangements should be made for quick assistance to such individuals and groups. Some disabilities are directly visible , while some are difficult to detect and understand, such as heart disease , mental pain , asthma and arthritis , allergies , asthma , respiratory problems due to adverse effects of chemicals , vision and hearing problems and brain problems, etc.

2.4.4 Persons with disabilities and those who are hindered in performing certain tasks such as ,

- Difficulty walking or using steps (joint pain , people using mobility aids - wheelchairs , blind walking with sticks , using crutches or hand crutches) , feeling tired , short of breath , feeling weak Have (temporary and permanent status)
- Heart disease , asthma , lung problems or any other symptoms that cause shortness of breath due to stress , fatigue and movement.
- Mental, intellectual , thinking and understanding problems.
- Can't see.

-: Chapter-3 :-

Organizational Structure

An institutional framework has been envisaged to operationalize the District Disaster Management Plan. This framework envisages coordination between talukas , municipalities and various departments can complement each other autonomously and coordinate with taluka and state authorities. The District Disaster Management Committee is constituted as per the Taluka Disaster Management Act. The rulemaking departments and officers are the main stakeholders in the district level disaster management function.

3.1 Functioning of District Offices.

order	the office	Tasks for disaster management
1	Collector Office	<ul style="list-style-type: none">✓ District Incident Commandant , protocol coordination with all departments and performance review.✓ An order to the officers of the Government Departments and local authorities to provide emergency relief in accordance with the Disaster Management Plan in the affected area , during the period in which an area is an affected area .✓ To allocate and utilize available resources.✓ Controlling or prohibiting traffic to , from, and within disaster-affected areas .✓ Controlling and prohibiting entry into , movement into or going to any disaster area or part thereof .✓ Debris removal.✓ Conduct search and rescue operations✓ Making proper arrangements for disposal of dead bodies or dead animals✓ Providing alternative shelters✓ Providing food , medicine and other essential items.✓ To carry out relief work under the guidance and supervision of experts and consultants in disaster related fields .✓ to take possession and use of any property , vehicle , equipment , buildings or means of communication on such terms and conditions as may be fixed .✓ Use special priority of facilities as and when required.✓ Construction of temporary bridges and other necessary structures✓ Demolition of unsafe structures that endanger the public.✓ To co-ordinate non-governmental organizations and ensure

		<p>that they carry out their activities fairly.</p> <ul style="list-style-type: none"> ✓ To disseminate disaster preparedness information to the public. ✓ To order and compel the evacuation of all or part of the population from a disaster-affected area for the purpose of saving life and property and to use reasonable force to evacuate such area. ✓ If he considers it necessary to take such action for the protection of life and property and the owner or tenant of any door , gate or barrier is absent or refuses to open it despite being present , to open the barrier or to authorize any person to open the barrier in such place. ✓ To the extent necessary , to assist , relieve , protect the community , ✓ to prevent the escalation of the disaster or to mitigate the effects of the disaster , to control or to any person or government agency. ✓ To ensure that actions to prevent disaster or mitigate its effects or prepare to meet such effects are carried out in accordance with the guidelines laid down . ✓ Providing information to the authorities regarding various aspects of disaster management such as early warning and preparedness status. ✓ To ensure that the officials in the district get information to carry out disaster management. ✓ It should be ensured that District Disaster Management Plans are prepared , revised and updated . ✓ Facilitate pre-disaster and post-disaster management activities in the district and coordinate with local government agencies to ensure the same. ✓ Facilitate setting up of community training awareness programs and emergency facilities with the help of local authorities , non-governmental organizations and the private sector if EA. ✓ To establish inter-departmental coordination on matters related to disaster management. ✓ Reviewing emergency plans , contingency plans and guidelines. ✓ To ensure that local authorities in the district are involved in developing strategies to deal with disasters. ✓ that disaster management activities and planning are coordinated . ✓ Ensure that the messaging system is working . ✓ To ensure that fire fighting equipment and other equipment related to disaster management are maintained in a ready -
--	--	---

		<p>to-use manner .</p> <ul style="list-style-type: none"> ✓ Coordinating reconstruction and rehabilitation activities in the district. ✓ To ensure that disaster management exercises are carried out from time to time . ✓ To assist the Authority in monitoring and controlling the progress and results of reconstruction and rehabilitation efforts. ✓ To exercise such powers and perform such functions as may be delegated by the State Government , the Authority and the Commissioner. <p>To exercise such other powers and perform such other functions as may be decided by the Disaster Management Authority.</p>
2	District Panchayat	<ul style="list-style-type: none"> ✓ advance preparation. ✓ Updating the disaster management plan prepared at taluka and village level for disaster management. ✓ To make the people of the community aware of disaster management , plan for it. ✓ Capacity building of village , taluka and district level officials , employees and office bearers by organizing various public awareness programmes . ✓ To appoint a nodal officer to coordinate with other responders from the district level. ✓ To ensure that disaster does not occur due to development works of Zilla Panchayat . ✓ , search and rescue , first aid , relief material coordination so that the response can be done well at panchayat level . ✓ Formation of Damage Survey Task Force at Panchayat level. ✓ To create a system at the panchayat level so that water and sanitation operations are done easily and properly . ✓ Clean up the source of waste water disposal. ✓ Planning to coordinate with other control rooms of the district. ✓ of relief material , payment of cash dol or other government assistance to the right person and report to the concerned office on time. ✓ To alert all their subordinate offices Taluka Panchayat , Health Account , Irrigation Account , Agriculture Account , Animal Husbandry Account , etc. in the

		<p>Talukas of Rajkot District.</p> <ul style="list-style-type: none"> ✓ Get in touch with the District Response Center and Taluka Response Center and advise them to carry out emergency operations. ✓ Working in coordination with the District Emergency Response Center / Collector and acting as per their instructions. <p>Payment of cash dole , death grant at rural level .</p> <ul style="list-style-type: none"> ✓ Response. ✓ To carry out warning and communication activities among the community people as well as members of Gram Panchayat for quick response after disaster. ✓ To open roads closed due to calamities and to make alternative roads as required. ✓ Prepare a damage survey and relief distribution team with the cooperation of Panchayat members. ✓ Provision and maintenance of basic necessities such as drinking water, food, essential medicines and sanitation in temporarily constructed shelters and relief centres . ✓ Conducting public awareness and trauma counseling activities. ✓ To carry out reconstruction and rehabilitation work in cooperation with social institutions. ✓ Prepare a force of local self-help and other responders to reduce the risk of disaster. <p>Be helpful to other respondents.</p>
3	Department of Pol Yes	<ul style="list-style-type: none"> ✓ Pre-Preparation (Prevention) ✓ To alert all Police Officers of Rajkot District for contingencies of flood storms and other calamities. ✓ Communicate messages through wireless sets in touch with respective control rooms. ✓ To take action to provide adequate support for the implementation of the instructions received from the Taluka Control Rooms regarding law and order and give priority to the matter. ✓ To take all necessary action related to the account. ✓ To provide adequate facilities to concerned authorities / task forces to relocate people. ✓ To assist in search and rescue operations. ✓ Keeping the police personnel ready so that they can easily

		<p>carry out search and rescue operations after a disaster .</p> <ul style="list-style-type: none"> ✓ Taking into account the history of local disasters, developing modern search and rescue equipment and properly training staff to use it. ✓ To train the police to respond well to all types of natural and man-made calamities . ✓ Verify that all warning and messaging resources available to the Police Department are operational . ✓ Aja or jaa and satellite phone available at the polls. ✓ Coordinating with the District Control Room as well as with all the emergency authorities. ✓ Mapping of routes along with sensitive seal areas of the district , potential shelters and storage areas of relief materials. <p>of military , para-military or other rescue teams, if required , to ensure prompt response.</p> <ul style="list-style-type: none"> ✓ Response. ✓ Adequate security arrangements for relief materials as well as temporary accommodation sites. ✓ Appointing higher officer as nodal officer for round Dhaklok in control room. ✓ Initiate rapid search and rescue operations in affected areas. ✓ Arranging adequate resources for security. ✓ Timely reporting of search and rescue and evacuation operations to District Control Room. <ul style="list-style-type: none"> ✓ To carry out traffic management and maintenance of law and order during disaster. <p>crime , hoarding and anti-social elements.</p>
4	home guard	<ul style="list-style-type: none"> ✓ Stay in touch with the Rajkot District Police Officer and also in touch with the District Control to take relief and rescue action in case of emergency. ✓ Assisting in evacuation and protection of lives and property of people as well as delivery of supplies to affected areas. <p>To take necessary steps to give due co-operation to the instructions received from the District Magistrate / District Police Officer / District Control Room.</p>
5	Rajkot Municipality	<ul style="list-style-type: none"> ✓ Keep in touch with District Control Room in Rajkot city area to warn people. ✓ To inform the people living in low-lying areas and in slums and houses built on the banks of rivers and streams to take

		<p>precautionary measures in case of storms and floods.</p> <ul style="list-style-type: none"> ✓ To arrange shelter for transfer in schools of Mahanagar Sevan. ✓ Inform the people of the forecast with a microphone in the rickshaw. ✓ Arrangement of fire fighting equipment in case of storm surge. And supply of drinking water , keeping the necessary teams ready for cleaning operations for health. ✓ water tankers , trucks , bulldozers ready. ✓ To keep the laborers ready. ✓ Placing warning boards for highway users at the canal. ✓ Alayado Control Room of Mahanagar Seva Sadan , to keep open round the clock. ✓ To make arrangements for handling , handing over and disposal of dead bodies in case of human and animal casualties . <p>To move the fallen trees in the urban areas and to switch on the electric poles , telephone poles if they have fallen, which should be in touch with that account.</p>
6	Water supply	<ul style="list-style-type: none"> ✓ advance preparation. ✓ Planning for rapid disposal of water in low-lying areas in flood-prone conditions during storms and floods. ✓ Arrangements should be made with the concerned accounts to keep the sets of dewatering pumps ready and with their help the people of the affected areas would get clean drinking water. ✓ Keeping teams ready for affected areas to deal with the situation. ✓ Testing all sources of drinking water. ✓ Cleaning of drains , culverts , culverts for disposal of waste water in urban areas . ✓ To verify drinking water dealers , private bores and storage sites and distribution system. ✓ To maintain power supply at all distribution levels of water supply , i.e. keeping generator arrangement on standby. ✓ Arrange for supply of clean chlorinated water to relief camps. ✓ Planning to prevent contamination of water source resources like wells , hand pumps , tube wells.

- ✓ Planning to ensure that drinking water is not affected due to the breakdown of sewer lines or water lines .
- ✓ the offices in charge of all irrigation schemes under their jurisdiction regarding storms , floods and heavy rains and alerting them to contact their departmental control rooms and district control rooms to take all necessary actions and measures related to their accounts.
- ✓ Carrying out the operation of water way rice
- ✓ Immediate removal of obstructions obstructing natural flow of water due to construction of canal or road.
- ✓ Action regarding water logging should be taken where water is passing through the causeway.
- ✓ Check the list of villages affected by the release of water from the dam as suggested in Flood Memorandum - 2013.
- ✓ Check the gate way of dam and canal. Clearing the canals , checking access roads to potential affected villages and access roads to dams , alternative routes etc. and making advance preparations. Also to ensure the reachable areas of railways.
- ✓ To remove bakala wadas and brick kilns in riverbeds with immediate effect.
- ✓ Checking raingas on all demos.
- ✓ , wireless sets and messaging equipment should be in continuous operation at all demos and alternative arrangements should be made.
- ✓ If there are slums in the areas of the Municipal Corporation in the drainage of rain water or obstructions have been created by dumping garbage, remove them.
- ✓ Take action to ensure that the raingas is running at primary health centers and other places and get rice.
- ✓ Updating the details of availability of relief equipment.
- ✓ To make arrangements for continuous working of wireless sets and telephones on all demos.

Contact details of dam damage experts and planning for dam damage restoration.

- ✓ Response.
- ✓ Continuous monitoring of distribution systems to ensure access to clean drinking water.
- ✓ Provide clean water to hospitals and important offices and places.

		<ul style="list-style-type: none"> ✓ Planning for emergency water supply by private bore operators , water distribution agencies and distribution to relief camps and other places. <p>To carry out work to speed up the repair of pipe lines at water sources , storage sites damaged due to disaster .</p> <ul style="list-style-type: none"> ✓ Restoration work. ✓ Maintenance and strengthening of all water supply resources from time to time so that they can be used in times of disaster. ✓ To develop and develop new plans based on the experience of the situation arising out of past disasters or calamities. <p>Provide periodic training and capacity building to all staff of water supply department.</p>
7	Department of Agriculture	<ul style="list-style-type: none"> ✓ Preparatory work. ✓ If there is damage to agricultural land or crops due to storm or heavy rains, action should be taken by forming survey teams of the department . ✓ Keep all types of fresh seeds available. ✓ modern agricultural methods and resources useful in agriculture , crop insurance , Kishan Card , seed storage and agricultural scientific methods and also about diseases occurring within crops. ✓ Mapping past crop losses by looking at the history of disasters. ✓ village wise , crop wise and irrigation system crop insurance. ✓ Setting up a system for collecting rainfall data cluster wise in the taluka and informing the farmers about possible measures in case of calamity. ✓ To get advance information about the probability of various disasters , to carry out planning. ✓ and distribute publicity materials for modern methods of agriculture and crop protection during various calamities . ✓ Efforts to improve irrigation practices , tillage , drip irrigation , water seed management , soil testing and business sustainability .

		<ul style="list-style-type: none"> ✓ To inform the farmer about the farming practices taking into consideration the local environment. ✓ To plan for the development of cropping systems and alternative yields or alternative farming practices . ✓ To create awareness among the farmers about the fact that they can quickly get information about disease outbreaks in crops . <p>Planning such that all types of facilities are available to the farmers at the local level at one place .</p> <ul style="list-style-type: none"> ✓ Pre-disaster preparedness. ✓ To keep enough stock so that farmers can get enough seeds in areas prone to natural calamities . ✓ Are all the rain gauge stations in the taluk operational ? Check it , replace if found defective. <p>Taking care of rainfall statistics regularly .</p> <ul style="list-style-type: none"> ✓ Response performance. ✓ Actions should be taken to minimize the spread of diseases or natural calamities in crops . ✓ Conducting necessary analysis using various scientific methods and imparting information to the farmers. ✓ If there is a need for re-seeding, make available such quantity that it can be distributed quickly. ✓ , crops , horticulture or irrigation systems or resources due to natural calamities , it should be quickly assessed and brought back to the previous situation. ✓ To create such a communication system that the farmers get the correct information quickly. <p>Make advance arrangements so that the damage survey report is received the next day.</p> <ul style="list-style-type: none"> ✓ Restoration work. ✓ The amount of the crop should be received quickly , its planning. ✓ To arrange the seeds needed by the farmer and useful resources for farming.
--	--	--

		<ul style="list-style-type: none"> ✓ Planning to get enough seeds during drought . ✓ Coordinate with farmers to obtain information on affected areas and potential hazards. ✓ Plan how to get loan quickly and easily . ✓ To arrange local planning so that water and soil can be examined by scientific method . ✓ To arrange for monitoring in case of outbreak of disease in crops . <p>Providing training to farmers on alternative farming methods.</p>
8	Health Department	<ul style="list-style-type: none"> ✓ Advance preparation (preventive activities). ✓ To create awareness about health up to the district , all taluka and village level and get pre-preparedness assessment. ✓ Mapping of epidemic prone areas after natural disasters. ✓ Selection of a site for setting up a temporary laboratory so that epidemiologic testing can be done locally. ✓ private doctors , hospitals , blood banks , ambulance services , medical store operators , medical associations and updating their list. ✓ The list of volunteers who can donate blood as well as the list according to blood group should be maintained , organized. ✓ Regular and comprehensive information on post-disaster epidemics is organized by PHC. And to do at sub center level. ✓ To speed up communication and provide adequate emergency treatment , mobile treatment units and their staff should be adequately staffed. ✓ Planning for adequate access to health facilities at potential shelters. ✓ prepare and distribute public awareness programs , trainings and various promotional materials. ✓ the district , taluka , village and municipal level, representatives of social and voluntary organizations , social leaders , self-help workers , district midwives, etc. should be trained in first aid , create awareness and what

		<p>to do during and after a disaster ? And what not to do ? Give your understanding.</p> <ul style="list-style-type: none"> ✓ All PHCs in the district To keep the generator set in working condition and to check periodically in the center , sub center and health centers. ✓ To keep the available vehicles in working condition with the department and to update the list of resources/vehicles available with private transporters for speedy delivery of health oriented facilities to disaster affected areas. ✓ To make arrangements for availability of safe drinking water during storm and flood affected situations. ✓ Taking emergency health measures to prevent outbreaks. ✓ Availability of useful medical teams and sufficient quantities of drugs , injections , insecticides , powders etc. to be deployed in the affected areas. <p>To plan in advance that adequate facilities and teams are ready in hospitals , primary health centers etc.</p> <ul style="list-style-type: none"> ✓ Response performance. ✓ Adequate supply of life-saving medicines at PHC. Make available at the level. ✓ Prepare a team to assess the situation and arrange for it to reach the affected area for quick response. ✓ Ensuring that temporary hospitals set up in relief centers are adequately staffed with trained staff and stock of essential life-saving drugs is available. ✓ Adequate planning for post-mortem disposal and identification of dead body. ✓ To arrange for timely receipt of copy of PM report. ✓ To arrange for the death certificate and post-mortem report to the guardians and heirs of the deceased and the dead body to be received quickly . <p>Periodic testing of drinking water.</p> <ul style="list-style-type: none"> ✓ Restoration work. ✓ To carry out health performance evaluation and appropriate treatment and disease prevention activities in constant coordination with the affected people and
--	--	---

		<p>counseling them in tro.</p> <ul style="list-style-type: none"> ✓ Planning for speedy rehabilitation and rehabilitation of the injured or disabled due to disaster . ✓ Vaccination should be done to prevent further spread of the disease. <p>Implementing long term health oriented plans.</p> <p>Epidemic</p> <ul style="list-style-type: none"> ✓ Preventive action. ✓ Testing drinking water regularly. ✓ Planning to make people aware about their hygiene and measures to prevent water borne diseases. ✓ Health oriented government programs , planning to reach out to the community. ✓ Publicize the Sulabh Saichalaya scheme and build individual toilets/bathrooms . ✓ Cleaning of drains and waste water and spraying of disinfectants. ✓ Developing a solid waste management system for proper planning of waste disposal. ✓ Taking measures to prevent epidemics in coordination with doctors of government primary health centers and private doctors. ✓ Identifying cluster-wise locations during disasters that can result in rapid access to health-oriented facilities and establishment of waste laboratory facilities for testing. ✓ Government Office , District Control as well as District/Taluka level Control Room , Red Cross Medical Association and social organizations for early preparedness and prevention. <p>Prepare a data base of the list of maximum affected areas for epidemics after the disaster and map the locations for setting up relief camps.</p>
9	Department of Animal Husbandry	<ul style="list-style-type: none"> ✓ Preparatory work. ✓ To save the livestock of the district from loss of life during cyclones , floods and planning for translocation. ✓ In the event of animal death and loss, make arrangements for disposal of animal carcasses with due care to prevent outbreak of disease. ✓ On the occasion of animal casualties, survey teams should be prepared and reports should be prepared and advance planning should be done to pay assistance.

		<ul style="list-style-type: none"> ✓ Cattle Protection Centre , Panjrapore , Mapping of Dhorwala managed by Private Trust. ✓ Mapping of natural sources of drinking water for livestock. ✓ Arrangement of drinking water and fodder for animals . ✓ of fodder dealers , forest department depots and other places and details of available quantity ready. ✓ To select and make a list of necessary vehicle holders for the transfer of injured people or animals. ✓ In case of outbreak of disease in animals, planning of effective vaccination in the affected areas and keeping the required quantity of medicines available. ✓ animal insurance , animal holder. ✓ To arrange generator sets to maintain power supply in veterinary hospitals. ✓ To estimate the number of cattle village wise and to keep the data bank of the number of cattle ready. ✓ Planning for the disposal of dead cattle and providing training to the local Swayam Sevaks in this regard. ✓ Arrange for speedy payment of aircraft as well as animal identification. ✓ ensure that no health problems arise due to dead animals after the disaster , it means that local people , Village Panchayat , Municipality or Metropolitan Municipality should be entrusted with the responsibility of disposal of dead animals. ✓ Response performance. ✓ Prevention of animal diseases , treatment of affected animals and protection of other animals. ✓ Delivering medicines and drugs to the affected areas and sending mobile teams. ✓ In order to prevent the spread of disease, the dead animals were identified and letters were given as necessary. Make arrangements for its disposal as soon as possible. ✓ Creating a control room to provide correct information to local people so that they can get correct information quickly. ✓ , injured animals , treated animals and vaccinated animals in disaster affected areas . ✓ Facilitating quick and easy provision of certificates to
--	--	--

		<p>livestock owners for quick loans for purchase of new livestock.</p> <ul style="list-style-type: none"> ✓ Establishing a management system to prevent disease outbreaks in animals.
10	Department of Civil Supplies	<ul style="list-style-type: none"> ✓ advance preparation. ✓ of essential commodities including food grains , kerosene , edible oils in Rajkot district should be planned to be available at all places in case of cyclone , flood. ✓ Preventing and efficient distribution of supply of vegetables , milk from nearby places to urban areas . To take steps to keep prices reasonable. ✓ To know sufficient quantity of food , kerosene , petrol , diesel in the district. ✓ Coordinate with the voluntary organizations to arrange food packets at the shelters for the displaced people in the district. ✓ Selection of locations where storage areas can be built to store relief materials keeping in mind the history of disasters . ✓ Keeping the essentials of life available in sufficient quantity. ✓ To make proper arrangements for stocking and distribution of relief materials. ✓ Coordinating with transporters to deliver relief materials to relief camps. ✓ Shoppers of cheap grains at village level , APMC. , various associations , social and educational institutions , persons connected with catering business , mandap service operators , kerosene , petrol and gas agency holders to be updated. ✓ to self-sevaks of social organizations on making and packing food packets. ✓ Response performance. ✓ To carry out the work of distribution of relief material promptly as per the requirement of the disaster affected area. ✓ Planning for safe delivery of relief materials to relief camps. ✓ The priority list of relief material distribution should be made available to the District Control Room from time to time.

		<ul style="list-style-type: none"> ✓ Properly prepare and maintain a report on available quantity. ✓ Planning for proper storage of food grains in godowns of Civil Supplies Corporation.
11	road and building	<ul style="list-style-type: none"> ✓ advance preparation. ✓ Preparation of list of heavy vehicles. ✓ Keeping the layout map of all government buildings in hand and inspecting all these buildings and completing repairs. ✓ Coordinating with private vehicle owners and contractors for opening the road and preparing the inventory of necessary resources for the same. ✓ All the staff of the branch should be instructed and trained in this regard. ✓ Appointment of Nodal Officer to coordinate with other control rooms of the district. ✓ In Rajkot district, necessary arrangements are made to block the traffic routes under control, intensive operations with labor and equipment and vehicles in cases of building collapse , road closure due to falling trees or gaps in the roads or drains are broken. Plan in advance and take necessary steps for this to happen. Also, to prepare and plan in advance to keep in touch with your control room and the district control room regarding alternative roads and road information of other districts so that the public gets information regarding the opening and closure. ✓ Response performance. ✓ the roads , canals and bridges are closed after the disaster, immediate steps should be taken to reopen and the closed roads should be started. ✓ Providing facilities for moving heavy vehicles or resources from one place to another. ✓ Get the location for the alternate route and announce the alternate route. ✓ Expeditious removal of road debris or fallen trees. ✓ All Divisional and Taluka offices of the district should maintain sufficient resources in working order. <p>Ensure that all staff perform operations as per disaster management plan and conduct training.</p>
12	PGVCL Deptt	<ul style="list-style-type: none"> ✓ advance preparation. ✓ Check all available resources and keep them running.

		<ul style="list-style-type: none"> ✓ Updating the list of resources needed in times of disaster. ✓ Whether electrical connection is done as per safety rules ? Are the devices suitable ? To verify it. ✓ Safety of electrical equipment and the rules made for it should be strictly followed. ✓ Planning to start power supply quickly and create necessary facilities. ✓ Planning in such a way that there is minimum loss in high tension lines , cables , sub-stations due to natural or man-made calamities . ✓ What should people do during and after an electrical accident ? And what not to do ? To make efforts to create such awareness. ✓ Response performance. ✓ Immediate shutdown of power supply on receiving warning or notification of disaster. ✓ Visit the affected area and get an estimate of the damage. ✓ To arrange for temporary power supply. ✓ procure power from private power generating stations and supply power to vital installations (eg , collector office , police , water supply , health , dam site , radio station , television etc.). <p>Rapid restoration of power supply disrupted due to disaster.</p>
13	Fisheries	<ul style="list-style-type: none"> ✓ advance preparation. ✓ The port officer should arrange that the fishermen do not go for fishing in the sea after receiving the warning of cyclone , purang. ✓ If the fishermen have gone for fishing in the sea, arrangements should be made to announce them on the radio through Akashvani to return. ✓ Boats and teams of swimmers should be kept ready and arrangements should be made to keep the boats and necessary equipment in a safe place. ✓ Conduct a survey of the loss to fishermen. ✓ Planning to inform the people of the coastal villages and fishermen and agariyas working in salt agar etc. of forecast warning. ✓ Keep a list of names and addresses of the places where mechanical boats and non-passenger boats are available in the district . Also keep the list of swimmers of the district

		<p>ready with name , address and contact number.</p> <ul style="list-style-type: none"> ✓ To send mechanical / non-mechanical boats to the district or to another district, within two hours after receiving the instructions, the boats should leave with swimmers and the boats should leave with emergency lights on a police truck with emergency lights. . ✓ Registration of fishermen and boats. ✓ To keep the fishermen in view of the weather to get warning of possible disasters and to inform the fishermen in such a way that the weather warnings given by the government can be understood by the fishermen. ✓ To understand methods of using resources such as life jacket , life buoy , hamradio or wireless at sea. Also to ensure that such resources are utilized by the fishermen. ✓ To verify and certify the capacity and condition of boats used for fishing operations at sea. ✓ To sensitize the fishermen to modernize the traditional methods of fishing and the traditional boats used. ✓ Training fishermen in search and rescue techniques. <p>Capacity building by distributing various types of materials.</p> <ul style="list-style-type: none"> ✓ Response. ✓ Planning for timely warning to fishermen living in remote areas . ✓ Having rescue resources on standby at pre-determined locations means that fishermen receive adequate assistance in times of disaster . <p>Deploying a damage survey team to get an instant estimate of the damage.</p>
14	Forest Department	<ul style="list-style-type: none"> ✓ advance preparation. ✓ floods , storms and other hazards, where trees fall on the road and prevent vehicular movement, to liaise with other departments and plan ahead for immediate removal of such obstructions. ✓ Careful consideration should be given to planning and pre-planning for the safety and protection of animals . . ✓ Planning to resume road closures due to felling of road site trees. ✓ Updating contact list to ensure proper coordination with private show meal holders , transporters and labor contractors.

		<ul style="list-style-type: none"> ✓ To keep the resources available with the department in running condition. ✓ What should the general public do during or after the operations of the Forest Accounts ? To do awareness programs about it. <p>To encourage social forestry.</p> <ul style="list-style-type: none"> ✓ Response. ✓ To promptly reopen the closed areas in coordination with the Roads and Buildings Department on receipt of warning or instructions. ✓ To provide prompt response using resources available with private transporters or show meal holders associated with forest accounts. <p>To make arrangements to deliver the required quantities to the affected areas as required by the depot.</p>
15	Department of Motor Vehicles	<ul style="list-style-type: none"> ✓ advance preparation. ✓ To requisition necessary vehicles for transportation and evacuation in the event of storm , flood. ✓ To provide vehicles for the team of inspectors for the required vehicles. ✓ Get the details of all the permanent shelters in the district and prepare the route details. ✓ Updating the list of vehicle holders that can be used in times of calamity. ✓ Ensure that vehicle owners make safety regulations and strictly enforce them . ✓ Efforts to create awareness among people about safety and traffic rules and prepare and distribute relevant materials. ✓ Government should take over the necessary vehicles at the time of calamity , plan for it. ✓ Prepare a team of trained staff to plan disaster losses quickly . ✓ Coordinating with other control rooms of the district. <p>Planning for speedy allocation of suitable vehicles for search and rescue and first aid and transfer of relief materials.</p> <ul style="list-style-type: none"> ✓ Response performance. ✓ To do the work of allocating vehicles as per requirement after receiving instructions from the District Control Room. <p>to transport essential materials such as kerosene , diesel , petrol ,</p>

		gas , medicines and relief camp materials to suitable places.
16	ST. section	<ul style="list-style-type: none"> ✓ All STs of Rajkot district. Inform the Depot Managers and make arrangements to give messages in case of storm , flood. ✓ ST for transfer. Taking action to provide buses as per requirement. <p>BandhST Arranging a control room to make the details of the route available to the public and ST of other districts attached to the district. Route opening/closing details should also be kept at the control room. Stay in touch with the district control room ST. Pre-preparation and planning to provide details of route closure/opening to District Control Room.</p>
17	POTENTIAL DEPARTMENT	<ul style="list-style-type: none"> ✓ Fisheries department to arrange that fishermen do not go to sea for fishing after getting warning of storm , storm. ✓ If the fishermen have gone for fishing in the sea, arrangements should be made to announce them on the radio through Akashvani to return. ✓ Boats and teams of swimmers should be prepared and arrangements should be made to keep the boats and necessary equipment in a safe place. ✓ Conduct a survey of the loss to fishermen. ✓ Planning to inform the people of the coastal villages and fishermen and agariyas working in salt agar etc. of the forecast warning. ✓ Keep a list of names and addresses of the places where mechanical boats and non-mechanical boats are available in the district . Also keep the list of swimmers of the district ready with their names , addresses and contact numbers. ✓ Planning to send mechanized / non-mechanized boats to the district or to another district within two hours of sending the boat with swimmers and the boat truck with a policeman on a truck with emergency lights and planning to be in touch with the fisheries department and the concerned officials. . <p>Informing the district control room and other control rooms about the type of signal to be issued in connection with the storm at the port. Also plan to give information on telephone with detailed understanding about the type of signal and its warning.</p>
18	Information Section	<ul style="list-style-type: none"> ✓ advance preparation. ✓ To make efforts to inform and create awareness about various natural and man-made calamities through the use of print and electronic media.

		<ul style="list-style-type: none"> ✓ Planning for rapid establishment of warning and messaging operations in disaster-affected areas. ✓ Setting up a media briefing center so that print and electronic media can get correct information . ✓ To keep vehicles and resources available with the department in working order. ✓ VIP in time of disaster Private cameramen , video shoots, and other resources may be used to document visits or response activities . ✓ , videography etc. for documentation of disaster events . ✓ Prepare the correct details to the affected people and inform the public. ✓ To prepare necessary reports and reach the control room. ✓ Keeping a special team ready to carry out the necessary urgent operations as per the instructions of the control room. <p>Director Mr. Doordarshan , Director Mr. Akashwani Rajkot , Cable Operator , FM Radio , Newspapers to arrange for broadcasting of disaster warnings.</p> <ul style="list-style-type: none"> ✓ Response. ✓ Setting up control room at suitable place to provide correct information about the disaster to the system and public. ✓ To arrange such a way that the information about the disaster and the relief operations are available to the print and electronic media at regular intervals . ✓ Operation of conveying correct information of people in the affected area to the media. ✓ Avoid rumors in private news channels or media , be vigilant , convey correct information to people. <p>Documenting the sequence of all events.</p>
19	Department of Education	<ul style="list-style-type: none"> ✓ cyclone , flood, alert all educational institutions and take all measures to prevent loss of life and property in schools. ✓ Make school buildings available for shelters. <p>Provide necessary facilities to use the schools used for shelters and repair the schools in which the shelters have been proposed to be repaired immediately.</p>
20	District Industries Centre	<ul style="list-style-type: none"> ✓ To take all measures to prevent loss of life or property in all types of small and large industries in Rajkot district. <p>To take action by getting material and expert help from big industrial houses for survey and assistance regarding loss.</p>

21	District Labor Officer	<ul style="list-style-type: none"> ✓ The officials of the concerned labor department of Rajkot district should prepare a list of salt mills especially in the coastal areas of the district. ✓ A copy of the list of applicants should be provided to the Collector's office as well as to the Additional Collector and concerned Taluka Mamlatdars and Taluka Development Officers. ✓ Warnigalerts are also provided to the emergency responders as well as other operations workers in the coastal area to take all precautionary measures as to how and in which vehicles, which officers will be deployed and where. <p>Assigning special duties to the responsible officer in the affected areas as necessary and giving such instructions to him in coordination with the concerned account.</p>
22	Fire and Emergency Services and Regional Emergency Response Centers	<ul style="list-style-type: none"> ✓ Preliminary preparations. ✓ Strict adherence to fire and safety laws , vigilance of the same and periodic verification of its status. ✓ Constant monitoring of all fire brigade vehicles and resources to keep them in working condition. ✓ industrial areas, disaster prone areas , old buildings and densely populated areas that may be affected by potential disasters . ✓ , joinery as well as the engineer should ensure that the construction uses fire buffer technology . ✓ Verification of fire fighting resources placed in multi-storied buildings. ✓ To be able to respond properly in times of disaster , that means making layout map of all sensitive buildings like multi-storied hospitals , government offices , bus stations , railway stations , giving proper training to fire staff. ✓ , accident and use of resources for rescue in order to prevent accidents like fire quickly . ✓ To prepare and distribute various types of programs and materials for public awareness , to prepare and distribute awareness programs and rescue resources in a comprehensive manner so that the local people can help in search and rescue operations . ✓ Are fire services resources adequately allocated before all building plans are implemented ? Competent authorities must compulsorily obtain the certificate in that regard and

		<p>verify it.</p> <ul style="list-style-type: none"> ✓ Police , P.G.V.C.L. , Health as well as being in constant coordination with District Control Room and State Control Room. ✓ Response performance. ✓ Carry out immediate search and rescue operations. ✓ In the event of a fire accident , for other reasons such as hazardous gas leakages, oil spills or explosions of explosives, work in such a manner as not to cause further destruction. ✓ Carry out response operations in such a way that there is minimal loss of property due to fire . ✓ To co-operate with all stakeholders involved in disaster management operations. <p>Get an estimate of the loss quickly , inform the concerned.</p>
23	Department of Telephone	<ul style="list-style-type: none"> ✓ In case of storm or flood, all the important telephone numbers of the district flood control rooms and related offices should be arranged to be connected and switched off immediately. <p>Arrangements should be made to provide a team of two employees in the flood control room of the Collector's office so that in case of disruption of telephone service, necessary steps can be taken to restore the same and the telephones can be made operational.</p>
24	Railway Deptt	<ul style="list-style-type: none"> ✓ In the event of storm and flood, taking into account the warning situation, where necessary, arrange to stop the train operation and take necessary measures to avoid any mishap. <p>To provide facility for shifting of people in case of train operation.</p>

-: Chapter - 4 :- Prevention and Mitigation Measures

To reduce the effects of a disaster, prevention and mitigation activities and non-structural works can be carried out in the construction and commercial works in the structured works which help in mitigating the risk. Non-structured activities can include public awareness , capacity building , behavioral change , safety regulations and enforcement.

❖ Mitigation functions can be divided into two parts as follows.

1. Structural Works: Construction and engineering physical works on site.
2. Non-structured functions: studies , research , regulations , policies , capacity building etc

In the district disaster management plan, such activities related to each hazard can be planned and integrated into the programs of various departments , e.g. MNREGA works to prevent flooding , flood protection, tree planting etc. Incorporating safety standards into housing construction can reduce the impact of earthquakes. The effect of Tsunami can be reduced if we build a dam in coastal villages. Each department should include such activities in its work plan and the district disaster management plan implementer can make arrangements. Such works should be reviewed annually and necessary improvements should be made.

4.1 Structural measures for flood mitigation

Tasks	Identified places and villages	Implementing Department	Which scheme or program can be associated with	Time limit	Performance status
Desilting and deepening of drainage canals	Alluvial areas	Irrigation , Municipality , Municipality	Self-funding	31/5/2023	
Construction of large earth embankments and flood protection embankments	Alluvial areas	Irrigation , Municipality , Municipality	Self-funding	31/5/2023	
Repair of large earthen embankments and flood embankments in the area	Alluvial areas	Irrigation , Municipality , Municipality	Self-funding	31/5/2023	
Repair of flood drainage , drainage	Alluvial areas	Irrigation , Municipality ,	Self-funding	31/5/2023	

and tidal water canals , canals		Municipality			
Safe construction of housing of full potential area under Indira Awas , Sardar Awas and Ambedkar Awas	Alluvial areas	Taluka Panchayat , Gram Panchayat , Municipal Corporation , Municipal Corporation		31/5/2023	
Repair of fragile check dams and ponds	Alluvial areas	Irrigation , Municipality , Municipality		31/5/2023	
Desilting of reservoirs , rivers and dams	Alluvial areas	Irrigation , Municipality , Municipality		31/5/2023	
others					

4.2 Non-structural measures for flood mitigation

Tasks	Identified places and villages	Implementing Department	Which scheme or program can be associated with	Time limit	Status of operation
Conduct safety audit of public buildings in risk prone areas	Alluvial areas	All sections		31/5/2023	
Capacity Building of Self-Servants and Technical Skilled Persons	Alluvial areas	District Administration DRM Programme		31/5/2023	
Awareness about animal safety	Alluvial areas	Department of Animal Husbandry		31/5/2023	
others					

4.3 Structured Measures for Storm Mitigation

Tasks	Identified places and villages	Implementing Department	Which scheme or program can be associated with	Time limit	Performance status
Planting mangroves and trees in coastal areas	Beaches are not available in the district				
Identifying and retrofitting houses	Beaches are not available in the				

and public buildings vulnerable to storms	district				
Construction of cyclone shelters for protection against cyclones	Beaches are not available in the district				
Improvement of village exits	Beaches are not available in the district				
others					

4.4 Non-structural measures for storm mitigation

tasks	Identified places and villages	Implementing Department	Which scheme or program can be associated with	time limit	Status of operation
Strengthening early warning system	Beach is not available in the district				
Awareness and provision for carrying and use of life jackets , rings , ropes and other equipment by fishermen	Beach is not available in the district				
To ensure strict adherence to the prevailing rules of the coastal zone	Beach is not available in the district				
Registration of fishing boats	Beach is not available in the district				
Notification and control of substandard building/hoarding	Beach is not available in the district				
others					

4.5 Structural measures for earthquake mitigation

Tasks	Identified places and villages	Implementing Department	Which scheme or program can be associated with	Time limit	Status of operation

Conduct safety audit of public buildings in risk prone areas	Area affected	road and building Municipality Construction Department in the Municipality			
Retrofitting if necessary in unsafe public buildings (offices , schools , markets , parks etc.)	Area affected	road and building Municipality Construction Department in the Municipality			
To identify and demolish extremely weak and dilapidated houses and buildings	Area affected	road and building Municipality Construction Department in the Municipality			
others					

4.6 Non-structural measures for earthquake mitigation

Tasks	Identified places and villages	Implementing Department	Which scheme or program can be associated with	Time limit	Status of operation
Engineers , Bricklayers on Earthquake Resistance Matters	Area affected	GSDMA Education		As required	
Enrollment of trainees	Area affected	Municipality Municipality Village Panchayat		As required	
Strict compliance of earthquake safety related policies in housing constructed under Gramin Awasiya Yojana (Indira Awas , Sardar Awas and Ambedkar Awas)	Area affected	Gram Panchayat Taluka Panchayat District Panchayat Municipality Municipality Ruda		As required	
schools , hospitals and public buildings	Area affected	Education Health		As required	

		Fire Brigade			
others					

4.7 Structural Measures for Mitigation for Industrial (Chemical)

Tasks	Identified places and villages	Implementing Department	Which scheme or program can be associated with	Time limit	Status of operation
Monitoring adverse impacts of industry on natural resources (land , water and air)	Areas containing industrial units	Deputy Director Industrial Safety and Health			
Safety assessment of industrial unit	Areas containing industrial units	Deputy Director Industrial Safety and Health			
others					

4.8 Non-structural measures for mitigation for industrial (chemical) (coordinated with state and district level authorities)

Tasks	activities	Implementing Department	Which scheme or program can be associated with	Time limit	Status of operation
Planning	To prepare/check the on site and off site emergency response plan of the industrial unit	Director , Industrial Safety and Health			
	Ensuring safety of electrical connections	PGVCL			
	To do mock drill as per rules	Director , Industrial Safety and Health			
	Updating the plan as necessary	Director , Industrial Safety and Health			
Capacity building	Creating, publishing and distributing educational materials	Director , Industrial Safety and Health GSDMA GIDM			

	Creating awareness in villages around major accident prone factories	Director , Industrial Safety and Health			
	Organizing training programmes , seminars and workshops. (E.g. Training of Drivers , Officers of various Departments and Managers)	Director , Industrial Safety and Health GSDMA GIDM			
	Preparation of list of subject experts , specialists	Director , Industrial Safety and Health			
	Dissemination of Catastrophe Insurance Scheme	Director , Industrial Safety and Health insurance company			
Medical services	Prepare anti-dots on list of critical and hazardous chemicals and gases	Civil Hospital			
	Organization of workshops and trainings for medical service personnel to enable them to serve competently during chemical and industrial emergencies.	Medical Association GSDMA GIDM			
apply	Implementation of provisions of the Environment Protection Act , Factories Act , working of mutual aid to prepare Standard Operating Procedures (8cf. (9)	Director , Pollution Control Board Director , Industrial Safety and Health Labor Officer			
others					

A District Crisis Management Group (DCG) has been formed at the district level , which provides specialized advice and prompt action for chemical incidents. Collectors , Deputy Collectors , D.D.Os. , Deputy Director Industrial Safety and Health , D.S.P. , Metropolitan , Kanan Fire Officer , District Health Officer , Civil Surgeon , Superintendent-Tending Engineer, Chief Officer , Commander of SRPF etc. are involved.

4.9 Attempts can be made to link national and state schemes as follows.

(Possibilities of Integrating Disaster Risk Reduction into Development Plans)

Department/National and State Schemes	Action Steps (Possible)
Housing and public construction <ul style="list-style-type: none"> ▪ Indira Housing Scheme ▪ Sardar Awas Yojana and other housing oriented programmes 	<ul style="list-style-type: none"> ✓ To prepare technology demonstrations for safety audits , public education and awareness ✓ To certify carpenters on safe construction and prepare a contact list of trainers in this regard ✓ Formulate and implement policies on safe construction in hazard prone areas <p>Creating special construction facilities for special needs groups in all public construction and housing programmes</p>
Water and Sanitation <ul style="list-style-type: none"> ▪ National Rural Water Program 	<ul style="list-style-type: none"> ✓ Rainwater harvesting ✓ Ground water accumulation and storage

<ul style="list-style-type: none"> ▪ Swajal Dhara , VASMO Project Total cleanliness campaign	flood retaining walls , embankment etc
Employment and Management of Natural Resources <ul style="list-style-type: none"> ▪ Pradhan Mantri Gramodhog Yojana ▪ Mahatma Gandhi National Rural Employment Guarantee Scheme ▪ Integrated Watershed Development Programme 	✓ , drought control under MGNREGA and Integrated Watershed Development Programme ✓ Reclamation of land through tree plantation , reviving old traditional water bodies Prioritizing works like rain water harvesting
Health <ul style="list-style-type: none"> ▪ National Rural Health Mission , Grain for Work ▪ National Food Security Mission , 108 Ambulance Service , State AIDS Control Program 	✓ Prepare disaster emergency plans and conduct mock drills in hospitals Community monitoring of activities under health and food security schemes

-: Chapter –5 :-

Pre-preparation for response

An emergency requires both pre and post-response. A solid Incident Response System (IRS) should be prepared for response planning . Advance preparation is useful in coordinating with various organizations , departments , identifying structured and non-structured tasks etc.

Early warning , search and rescue , humanitarian assistance , first aid , relief , temporary shelter , water and sanitation , law and order , animal care , grievance redressal , rehabilitation and reconstruction are important in Yachak.

5.1 Early Warning System (EWS) and Post Disaster Notifications.

It often happens that the message and warning about a disaster cannot be conveyed to the people in remote areas in time. Sometimes information spread due to rumors before and during a disaster creates panic and misunderstanding among the public. Therefore, the effects of a disaster can be minimized by delivering a clear , timely warning message to the right group. A mobile application has been prepared for quick delivery of full alert to the affected people.

Emergency Operation Centers at the district level are operational 24 hours a day 365 days a week for alert and message handling. At taluka level, warning and communication operations are carried out through special flood control rooms during the months of June to October. The district administration can use the media like satellite phone , hamradio and wireless set available with corporation and police department , Akashvani Kendra

Doordarshan Kendra. At the time of calamity, coordination with other control rooms should be done as mentioned below. At the time of disaster, a system has been set up to warn the people about the disaster using electronic and print media , radio , television , microphone with vehicle for quick messaging. Warning and messaging can be done easily with the help of cable operators and hamradio operators.

5.2. Advance Arrangement.

When a disaster strikes, if there are not enough materials , machines , tools, there is a hindrance in meeting the needs of the people. By making advance arrangements, difficulties can be avoided to a large extent. Filing stock properly facilitates prompt relief.

❖ 5 important steps for advance management.

- Preparation of list of required materials according to the area and crisis , for this the helplessness , usage and culture of the people of the area should be taken into consideration.
- The quality and standard of the equipment to be used to collect the material should be taken into account so that quality material is cut.
- Vendors and audiences that can deliver such tools should be identified.
- Provision of equipment godowns , network of suppliers ready to provide prompt service.
- Such arrangements can be made at the taluka headquarters in the district.

5.3 Procedures for Pre-Preparation under DRM Programme.

5.3.1 District Level (DDMP)

- ✓ District level officers and post-officers are imparted knowledge on disaster management and preparation of disaster management plan of their department.
- ✓ A District Disaster Management Committee (DDMC) is constituted under the chairmanship of the Collector.
- ✓ Various trainings are provided and manuals are prepared for capacity building of the members of District Disaster Management Committee (DDMC) .
- ✓ A District Disaster Management Plan (DDMP) is prepared.
- ✓ IEC are distributed for disaster risk reduction , pre-preparedness and public awareness .

Data updation is understood in IDRN/SDRN .

5.3.2 Taluka Level (TDMP)

- ✓ Taluka level officers and office bearers are imparted understanding on disaster management and preparation of disaster management plan of their department.
- ✓ A Taluka Disaster Management Committee (TDMC) is constituted under the chairmanship of the Liaison Officer.
- ✓ Various trainings are provided and guidelines are created for capacity building of Taluka Disaster Management Committee (TDMC) members.
- ✓ A Taluka Disaster Management Plan (TDMP) is prepared.
- ✓ IEC are distributed for disaster risk reduction , pre-preparedness and public awareness .
- ✓ Data updation is understood in IDRN/SDR .

5.3.3 Metropolitan Municipality Level (**MDMP**)

- ✓ Municipal level officials as well as municipal councilors are given the cognizance of disaster management and preparation of their department's Disaster Management Plan (MDMP) .
- ✓ A Municipal Disaster Management Committee (MDMC) is constituted under the chairmanship of the Commissioner.
- ✓ Various trainings are provided and guidelines are created for capacity building of the members of the Municipal Disaster Management Committee (MDMC) .
- ✓ A Municipal Disaster Management Plan (MDMP) as well as a Ward Disaster Management Plan (WDMP) are prepared.
- ✓ IEC are distributed for disaster risk reduction , pre-preparedness and public awareness .
- ✓ Data updation is understood in IDRN/SDRN .

5.3.4 Municipal Level (**CDMP**)

- ✓ Disaster management to provide understanding to municipal level officials and municipal councilors on disaster management as well as to prepare their department's disaster management plan.
- ✓ A Municipal Disaster Management Committee (CDMC) is constituted under the chairmanship of the Chief Officer.
- ✓ Various trainings are conducted and guidelines are developed for capacity building of Municipal Disaster Management Committee (CDMC) members.
- ✓ Municipal Disaster Management Plan (CDMP) as well as Ward Disaster Management Plan (WDMP) are prepared.
- ✓ IEC are distributed for disaster risk reduction , pre-preparedness and public awareness .

- ✓ Data updation is understood in IDRN/SDRN .

5.3.5 at Village Level (VDMP)

- ✓ Mamlatdar and Taluka Development Officer of all the villages in the taluka are divided into two (2) and appointed as zonal officers of half of the villages.
- ✓ For 8 to 10 villages of a route, one Class-III employee who may be ATDO , Extension Officer or Education Inspector in the office of Deputy Mamlatdar and Taluka Development Officer in the Mamlatdar office is appointed as Sub Zonal Officer , who known as juth (cluster).
- ✓ The sub zonal officer along with the village level employees and the elected office bearers of the panchayat , representatives of social and voluntary organizations hold juth sabha (cluster meeting) and understand about the disaster management procedure , possible disasters in the village and their effects.
- ✓ Village level officials and office bearers are given understanding of disaster management as well as disaster management plan of their department and (VDMC) and 7 task forces of various types are formed.
- ✓ Village Disaster Management Committee (VDMC) is formed under the chairmanship of Sarpanchshree.
- ✓ Village Disaster Management Committee (VDMC) as well as Task Force members.
- ✓ A Village Disaster Management Plan (VDMP) is created.
- ✓ IEC are distributed for disaster risk reduction , pre-preparedness and public awareness .
- ✓ Data updation is understood in IDRN/SDRN .

Name	appointment	address	phone number
	Sarpanch		
	Talati cum mantri		
	Teacher		
	Doctor/ AWW		
	President Milk Cooperative Society		
	Gramsevak		
	Aanganwadi worker		
	Aasha worker		
	Village representative 1		
	Village representative 2		
	Village representative 3		
	Manager, MDM		
	Reasonable price shopper		

5.4 DARMAT programme.

'Darmat' mobile application has been implemented in the district for timely alert and messaging. All district information, resources and useful contact list are available in this program. Due to heavy rains on the dam in the district, arrangements have been made to send warnings through mobile calls to the district administration, taluka administration and the potentially affected people living in the dam's catchment area so that the warning of flood-like conditions can reach the people on time. As a result, as soon as the dam in charge opens the dam gate, the warning will reach the people living in the flood-prone villages. As a result, loss of life and property may occur.

5.5 Capacity Building Plan.

Following measures can be taken for capacity building in disaster management.

- training
- Mockdrill and simulation exercises
- Public awareness
- Model work documentation

❖ Training Needs Analysis

changes individual and collective knowledge , skills and behaviour. There is an effect in emotional and cognitive aspects, so that individual and group work becomes better. For this training needs should be identified in advance and training and capacity building should be planned accordingly.

- Reviewing current training.
- Work analysis (new or improved system)
- Identifying training needs.
- Summary of training requirements.
- Determining alternative arrangements for training.
- To analyze the cost-benefit of training.

function	activity	Responsibility
Training Needs Analysis	To identify the roles and responsibilities of departments in disaster management	<ul style="list-style-type: none"> ▪ Revenue and Deputy Collector ▪ General Administration Department ▪ Department of Revenue ▪ GSDMA/GIDM ▪ All procedural divisions public sector ▪ private sector N.G.O. and other organizations
	Identifying various stakeholders to carry forward the roles and responsibilities of the departments	
	Conduct training needs analysis continuously	
	Designing training as per training requirement	
	Managing resources to train	

❖ Training to be done for various departments

Training programs should be organized for the officers and employees of various departments after identifying their training needs. From this process the topics and procedures for training can be derived.

Each department should list and schedule training programs to strengthen disaster preparedness at its level. Generally this process is done at district to state level. If this kind of training requirement identification process and demand for training is done at taluka level then district level and state level training planning will be of better quality.

- From the experiences so far the following training programs can be made for each department.
- Training offered for disaster management Concept , requirement , law , policies , procedures etc. of disaster management.
- In which police , fire safety , health , revenue , village development , forest department etc. can join. Training on skill development program schedule for departmental staff.
- Minimum standards of emergency relief and response.

Maintenance and use of equipment and machinery.

Special Training: Departmental trainings can be conducted for irrigation other stakeholders on practical , pre-preparedness , response , mitigation , prevention etc.

- Panchayats , for the community , rules. Training on relief , loss assessment and compensation rules.
- NGOs and CBOs/SHGs, CBDP , Helplessness and Risk Assessment.

search and rescue , first aid , evacuation procedures , early warning etc. for community work forces

❖ Training structure

subject	training group	Training agency	Estimated date
Orientation on general aspects of disaster management			
About Emergency Fire Control System			
Search and rescue , first aid and fire fighting			
Relief and Reconstruction Minimum Standards			
Loss assessment and compensation			
Mitigation measures			

❖ Mockdrill and simulation

Training should be accompanied by mock drills and simulations to test disaster preparedness. All schools , hospitals , important government offices , large corporate houses

should conduct mock drills regularly with the help of external experts to check individual / collective preparedness and safety on different subjects like fire , earthquake , flood etc. Can and can be fixed.

Such mock drills can be done for pre-preparedness of search and rescue , safe egress , first aid etc. aspects while assessing pre-preparedness of police , fire brigade , health services , rescue forces etc. This method is also very useful for improving the self-preparedness of people studying and working in schools and offices.

Mock Drill on Crowd Control , Rescue , Evacuation and First Aid once a year)

order	Name of Taluka	subject
1	TLF Pump House	FireSafety Drill
2	Rajkot	BPC1 - FireSafety
3	Rajkot	Fire mock dril
4	Navagam	Emergency Response dril
5	Maliyasan	Emergency Response dril level 2
6	Rajkot	FireMockdrill School No.64 Shri Rabindranath TagoreSchool
7	Rajkot	AntiHijacking Mock Exercise – Rajkot Airport
8	Rajkot	EmergencyResponse Drill - IOCL
9	Rajkot	EmergencyResponse Drill- BPCL
10	Rajkot	FireSafety Drill Emergency Response Drill - IOCL , Jamnagar Road

❖ Phased steps for planning , executing and documenting a mockdrill.

Mock drills are conducted to check the pre-preparedness of the specified group/equipment/machinery in different disasters. The main objectives of MockDrill are as follows.

- Check emergency preparedness.
- Identifying deficiencies in the response process.
- Identifying and correcting errors of various strokes/persons.
- Eliminate confusion and misunderstanding in roles and responsibilities.

- Strengthen coordination between different units/teams.
- Familiarity with various individuals/groups/units working in disaster and their role.
- Checking the tools/machines/materials and verifying that they are working properly.
- For the purpose of informing the various stakeholders in the plan about various aspects of the plan.

❖ How to prepare

- Studying the IRS .
- Meeting/Discussion with Commanding Officer.
- Selection of mock drill site.
- Choosing the time of mock drill (morning , afternoon , evening , night).
- To determine the area to be covered in mockdrill.
- Mockdrill Agg giving different roles to different individuals. Eg MockDrill is administrator , observer , note taker.
- Identify affected individuals in mock drills. (injury , unconsciousness etc.)

❖ Duration of MockDrill

- Inform the concerned persons/police/agencies by sounding the siren.
- Each agency has its cuffs. Respond accordingly.
- A predetermined observer will observe every moment Who does what ?
- The pre-defined affected MockDrill will behave as instructed by the operator.

❖ Review.

- All individuals/communities/agencies jointly review mock drills.
- Each agency.
- How coordination and cooperation between different agencies took place.
- Where was the lack of responsiveness.
- What was the treatment experience in taking the victims to rescue and first aid.
- Capacity building plan for each agency.
- How to improve coordination between different departments/agencies.
- How did the IRS work?
- What was the response time ?
- How prepared were the respondents ?

❖ For proper awareness of the community about industrial and chemical accidents.

- It is mandatory for the industrial units to create awareness about the hazardous chemicals of the unit to the people living in the potential impact of the accident of the industrial unit.
- It is a fact that an aware public community around can be helpful to both industrial units and authorities.

- industrial units and the community to make the community aware and alert . Coordination between all these is essential.
- It is necessary to set up a system of mutual communication so that community - industry - authorities can coordinate and prepare.

5.6 VIP protocol.

The VIPs and VVIPs should be immediately informed about the calamities and their probability , threat in the taluk so that the VIPs can help in reducing the chaos in the community and maintaining the system. VIP based on such information And VVIP can also reconsider their travel to this area. At the time of emergency, VIP and VVIP's on-site visits should be kept in mind so that the activities like search and rescue , first aid are not obstructed.

5.7 Media Management.

The role of print and electronic media is important in conveying disaster warnings and details. The media can play an important role in mitigating the problems of the public by acting with decency at such times. Good information about disaster preparedness , response methods , survival methods etc. can be widely disseminated to people.

In general, in any crisis or disaster, it is very important that the community gets clear and correct information. Therefore, the role of the media is very important. The state government has made arrangements to coordinate with the media by starting a media cell in the state level EOC , which is functioning continuously. Periodical updating of print and electronic media by appropriate authorities during calamities can prevent spread of unnecessary rumors and irresponsible information. Such management is also at DEOC level during calamities.

-: Chapter - 6 :- Response Plan

6.1 Activity of DEOC .

DEOC is the main focal point for disaster coordination as well as relief and rescue operations. **DEOC** activated and functioning in **L-1** disaster situation in the district . **L-2** **The DEOC** activates and functions in coordination with **the SEOC** , which provides disaster status .

6.2 Main functions of DEOC .

- Acquiring disaster information, assessing it and coordinating response.
- Keeping information of resources available in the district handy.
- To provide resources to responders as needed and to plan their availability from time to time.
- Coughs for responders to develop policies to facilitate disaster management at the local level. to prepare
- Coordinate for all levels of responders.
- To maintain law and order situation.
- To manage the easy availability of fire brigade , health and other necessary resources.
- Maintaining security of **DEOC** .
- Utilizing the experiences of knowledgeable and experienced officers/staff to assist in cost performance.
- Conduct timely warning to the residents of the village , city , taluk or district , considering the potential impact of the disaster .
- Planning to get the warning to the people in minimum time.
- To convey correct information to the people by coordinating with the media of propaganda.

Planning for different types of help.

6.3 Emergency Response Centre.

Emergency Response Centers have been set up at ground level in the state for post-disaster response operations. L-2 Trained manpower is available at Rajkot Emergency Response Center along with all necessary resources to assist in search and rescue operations in the event of a disaster.

6.4 Incident Response System.

Effective response requires the creation of an Incident Response System with clear responsibilities. To prepare the commander of each work force by giving a certain type of training. The Taluka Level Incident Commander (Provincial Officer/Mamalatdar) to instruct the respective Task Force Commanders to take action as per prescribed SOP for effective disaster response. During a disaster it is desirable that each task force head reports to the Incident Commander and operates according to a coordinated plan.

6.5 List of Taskforce.

Order	Taskforce	District Level Co-ordinator	Associate Members and Departments
1	Planning and Co-ordination (Administration , Law and Order , Protocol and Media)	Nodal Officer	Taluka Liaison Officer
2	Forewarning	Nodal Officer/Mamalatdar Disaster Management	Taluka Liaison Officer
3	Search and rescue	Nodal Officer , Mamlatdar Disaster Management	Taluka Liaison Officer
4	Loss assessment , survey and documentation	Nodal Officer	Taluka Liaison Officer
5	Relief camp management (temporary accommodation , food , water , electricity , health) psychosocial care	Nodal Officer	Taluka Liaison Officer
6	Public health and sanitation	Nodal Officer	Mamlatdar/Taluka Health Officer/Civil Surgeon and allied departments
7	Care of the most vulnerable special groups	Nodal Officer	Taluka Liaison Officer/ Mamlatdar/ Taluka Development Officer and concerned department
8	Animal health and welfare	Nodal Officer	Taluk Development Officer and Veterinary Doctor

6.6 Functions of the Taskforce.

Task Force-1: Planning and Co-ordination (Administration , Law and Order , Protocol and Media)

Time sheet	activities
Normal time	Monthly meeting with members of DDMC to discuss , review and plan disaster management issues
	Revising contact addresses Revising resource list Monitoring of strategic advance arrangements Periodic monitoring of work plan
	: The process of finding and obtaining resources , suppliers . Seeking administrative and financial approvals
	PSI for law and order coordination with the Police Force . , P.I. and coordination with the Home Guards
	Media Coordination , Information Dissemination Management , Documentation Management
East	Sharing cluster responsibilities for disaster management
	, coordination and cuffs with various departments and police forces . to prepare
	Keeping district level response teams ready
	Making advance arrangements for immediate impact services like health and life support
During	Monitoring of performance as per SOP
then	Assignment of departmental functions
	VIP Visiting Arrangements and Convenience Arrangements
	Planning and monitoring of relief activities
	Prepare and execute recovery plan
	To maintain law and order in relief camps and affected areas

Task Force-2: Early Warning , Evacuation and Communication

Time sheet	activities
Normal time	Making arrangements for verbal or electronic advance warning to reach the last destination with clear meaning to the public
	To make arrangements to contact the village by phone so that early warning can reach the village
	To arrange for early warning to be communicated to the public by the training officer/self-servants
	potential hazards , pre-preparedness and precautionary measures
	Prepare manpower , conduct trainings , repair and maintain equipment and machinery , prepare and liaise with partner agencies.
	search rescue and early warning , evacuation and message handling
	Identify rescue shelters and make accommodation , food , toilets and other necessary arrangements. (for both humans and animals)
7 to 48 hours (3 days before disaster)	Verifying and explaining warnings received
	To verify the communication and warning system functioning at the taluka level

	Sending evacuation team to the site with necessary machinery and equipment
	Prepare evacuation teams and send them to various cluster levels
	Arranging vehicles for both team and community
	Selecting safe rescue shelters and locations for affected communities and animals
	Reporting local situation to District and State Emergency Operational Centers
	Prepare alerts messages
	Providing advance warning in local language to the last destination. By word of mouth using the medium of telephone, television , radio , news paper. Also use non-electrical systems (methods). (Keep rebroadcasting alerts after some time gap)
	Telephone contact list and SOP of work force Check if there is an update or not
	Coordinating with other taskforces (Search and Rescue , Public Health , Law and Order and Water Supply)
	Inform district and state authorities about potential hazards
	Checking local level preparations and reporting to the Incident Commanding Officer
48 to 24 hours (two days before disaster)	District level Disaster Management Committee and Emergency Response Management Committee to monitor the situation.
	Official early warning messages announced earlier will continue to be updated and announced for the next 24 hours
	Responding to early warning arrivals and prompting authorities to obtain local situational information
	Review local level preparedness and report to Incident Commander
	Note if people need to be taken to a safe place
	Rescue shelters and danger areas should arrange necessary equipment (boats , swimmers , first aid , baby food , nursing , drinking water , food , toilets and waste disposal systems).
	Identifying alternative routes to reach the hazard
	Review local level preparedness and report to Incident Commander
	To ensure that early warning reaches specially vulnerable groups (fishermen , stockmen , Dalits living in the interior and tribals).
24 to 1 hour (1 day before disaster)	To prepare updates on potential hazard status
	Providing advance alert in local language about latest status. Use the oils as mentioned earlier
	Providing detailed information about the crisis situation to the rescue task force and other task forces
	To check whether the pre-warning has reached the final destination or not
	Keeping rescue teams ready for action. Each squad has a place of danger and a place to defend. Inform about the way to reach there
	To arrange food , lodging and security for the rescue teams
	To inquire about the movements of each rescue team and inform the higher authority every six hours
1 to 0 hours (before disaster)	Ensuring that early warning messages are consistently delivered
	To monitor the situation and give the latest report about it to the higher authorities like the District Collector and the Disaster Management Authority.

0 to 1 hour (immediately after disaster)	Supervising the operation of the rescue squad and preparing a list of requirements for special machines , machinery , skilled personnel , medicines etc.
	Collect the necessary equipment materials and deliver them to the Dhat level
	To appoint an officer to coordinate with the police and local leaders to dispose of dead bodies after proper investigation and registration.
	Coordinate with DEOC for assistance from district level for special needs of food and water
	Keep extra troops ready so that they can rest at the same time
1 to 24 hours (within 1 day after disaster)	Continue search and rescue operations and evacuate affected persons to safe places/hospitals/relief camps as necessary.
	Coordinate with DEOC to arrange for special medical treatment of affected persons.
	Providing air drop services if required
	To initiate help LAN numbers and support centers
	To assess the situation by meeting with the local people at the cluster level and report to the District Officer every evening.

Task Force-3 : Search and Rescue

Time sheet	activities
equal time	To conduct public awareness programs
	Revising contact addresses , revising resource lists , monitoring strategic advance arrangements , periodic monitoring of work plans
	Regular repair and maintenance of equipment , machinery , purchase of special machinery
	Training and capacity building of special teams and volunteers
7 to 0 hours (within 3 days before disaster)	Planning operations for search and rescue
	Carry out risk assessment and action
	Coordinating with various departments to arrange special forces if required for search and rescue
During	Control Room Management: Coordinating with external expert team , army contingent , fire brigade , civil defense , police force etc.
0 to 24 hours (within 1 day after disaster) After the disaster	In case of emergency without prior warning, to urge the rescue forces to reach the spot immediately with their equipment and machinery.
	If necessary, cordon the area of the house , taluk and village) regarding disaster.
	Initiate search rescue and evacuation operations
	Making arrangements for crowd control
	Evacuate the affected to a safe place
	Review local level preparedness and report to Incident Commander
	To prepare regular reports on the functioning of the Task Force
	To continue staff rotation
	Continuous review and evaluation of performance
	Preparation of Final Report Thank various stakeholders for their cooperation

Task Force-4: Damage Assessment , Survey and Documentation

Time sheet	activities
In normal	Prepare a team of responsible officers and citizens to collect and assess the

condition	damage assessment prepared by the State Authority. (1) Private Buildings and Buildings (r) Roads , Bridges , Telephone Communications and Public Buildings (3) Agriculture and Water Resources (4) Industry and Trade
	Prepare a list including addresses and telephone numbers of persons who can assess the loss
0 to 24 hours (within 1 day after disaster)	Preparation of out-of-pocket expenses of personnel and other necessary resources for damage assessment
	The loss assessment team will prepare a preliminary assessment of the loss. Using a pre-prepared format for assessment
	To send the preliminary damage assessment report to the higher authority
	Revisions in Preliminary Estimates To seek opinions about the severity of the increase and loss Intimation to the above authority for any clarification in the details of the estimate.
24 to 7 hours (after disaster)	Prepare a team for damage assessment and allocate specific damaged areas
	For any technical information required at the time of damage assessment, providing a copy of the information to the assessor on the basis of which he can resolve the queries of the people on the spot
	Teaming of data operators to computerize loss assessment data and perform data entry without delay
	To arrange for registration of complaints and redressal of complaints at district level
	Continuous review and evaluation until the work is completed
	Officially submit the final report to the higher authority

Task Force - 5 : Relief Camp Management

Time sheet	activities
In normal times	Locating the relief camp and charting its capacity and available infrastructure
	from among the members of Amuday , religious organizations , corporate sector who are willing to volunteer their services in the management of relief camps. List their names and contacts
	Organizing workshops for sensitization of women , children , disabled , elderly , Dalit and minority communities in relief camp system
	Liaise with government programs and other stakeholders for improvement of infrastructure at relief camp sites.
24 to 0 hours (within 1 day before disaster)	Call a meeting of senior volunteers and send them to inspect the relief camp site and the condition of rescue accommodation.
	Collecting the necessary equipment based on the report of the volunteers
	Formation of local team for management of relief camps
	Meeting with the officials of Water Supply , Health , Electricity Department to take their services at the relief camp site.
0 to 24 hours (within 1 day after disaster)	Conducting meetings for arranging relief camps at specific places and fixing responsibility with local organizations and self-sevaks. Publish reports about local needs
	Sending requests to local organizations to provide food and other essential materials
	Prepare preliminary budgets to support the needs of all categories of stakeholders. Assessing the status of humanitarian issues such as water, sanitation and hygiene , violence and discrimination

	Procuring resources as per relief site conditions
	Budget individual and required resources so that a team does not have to work for more than 1 hour continuously in a day.
	Forming a local team including women , children and the elderly who will monitor the effectiveness and non-discrimination of the relief camp operations.
	Prepare daily report for support regarding matters covered in the system and delivery of new requirements and send it to the higher authority.
1 day after disaster	health , water supply , psychosocial care and scarcity
	To determine the future course of action in consultation with the local people on the necessity or closure of the relief camp.
	To carry out all the previously identified tasks while the relief work is in progress
	To prepare weekly and fortnightly reports on psychosocial care and health

Task Force - 6 : Public Health and Sanitation

Time sheet	activities
equal time	Tabulation of address and contact information of doctors , nurses , private and government clinics and hospitals , availability of beds and ambulances List of trained volunteers for first aid services
1 day before disaster	Conducting meetings on public health and sanitation matters and making estimates of personnel and resource requirements Liaise with the Camp Management Taskforce to provide necessary volunteers , first aid kits and other sanitation services. Making a list of various materials for collection and obtaining approval
0 to 24 hours (within 1 day of disaster)	Formation of health and sanitation committee at taluka headquarters To monitor and prepare daily reports about health and sanitation conditions at all locations. Conduct daily meetings at Taluka Head Quarters to understand situation and prepare response plan Prepare report along with budget for water supply , sanitation promotion , child care and other needy needs. If they require assistance, write a request letter to the district authority for assistance Coordinating with the rescue team and camp management to ensure no compromise on issues related to public health such as clean water , sanitation services , proper disposal of solid waste and polluting the entire area. Ensuring that basic needs (such as public health and sanitation etc.) are met in relief camps and other settlements
Two days after the disaster	To re-establish the physical infrastructure that facilitates health if it has been damaged Conduct cleanliness campaign by forming a squad Continuous review and re-evaluation of work All services will continue uninterrupted till the situation returns to normal. Finalization of public health services by meeting with all stakeholders Preparation of final report

Task Force - 7 : Care of the most vulnerable special forces

Time sheet	activities
Normal time	To sensitize various departments , community representatives towards groups with special needs
	Advocating and planning for the special needs of groups with special needs
	To discuss and organize activities regarding special needs of groups with special needs in MMOH meeting
	Identifying and listing groups with special needs
	To determine the principles and approach of humanitarian aid
48 to 0 hours (two days before disaster)	To identify and list the special needs of groups with special needs
	Mobilizing resources for safety and relief
	See early warning systems and make evacuation arrangements.
0 to 7 hours (within 3 days after disaster)	Giving special priority to groups with special needs regarding response and relief arrangements , NGOs and coordinate with subject matter experts on the needs of such groups
3 days after the disaster	To monitor relief distribution system
	Advocating to concerned authorities
	Updating the list of members of such groups

Task Force - 8: Care of the most vulnerable special forces

Time sheet	activities
Normal time	Preparation of list of animals and their health details and taking precautionary measures
	To prepare list and contact of para animal health workers
	Preparation of list of animal hostels and cages
	Spread the word about insurance
	Identify vulnerable areas and develop strategies for response
0 to 7 hours (after disaster)	System of transportation to rotate affected animals
	To supervise the provision of animal relief , grazing , water and medicine
	Vigilance against epidemics in cattle
3 days after the disaster	Reviewing response performance
	Documenting and conducting case studies of the impact of disasters on livestock and related livelihoods

6.7 Disaster Response Teams.

For rehabilitation of infrastructure in disaster-affected areas :Emergency Support Function (ESF) will help the district disaster management system. This(ESF) is constructed as follows.

ESF	performance	Incident Commandant	Assistant Members
ESF-1	coordination	Collector and District Magistrate	District Level Heads of all District Offices.
ESF-2	Law and order	Additional District Magistrate/	✓ Paul Yes ✓ Sub Divisional Magistrate Taluka / City Home Guard Unit

		Deputy Commissioner of Police	
ESF-3	Communication , public awareness , information , publicity , dissemination	Additional Resident Collector	<ul style="list-style-type: none"> ✓ PI Wireless ✓ Wireless Operators (Police , Fire Brigade , Forest) ✓ Members of the Ham Operators Club ✓ Mobile operators ✓ Radio-astronomy ✓ Doordashgan ✓ Cable operators ✓ Signal register ✓ SRP ✓ In charge of other control rooms ✓ Jiswan in charge ✓ Manager BSNL Station Head Big F.M. and Radio Mirchi
ESF-4	search , rescue	Day Collector (Liaison Officer)	<ul style="list-style-type: none"> ✓ Fire Brigade ✓ Paul Yes ✓ Sub Zonal Officer ✓ SRP ✓ home guard ✓ NSS-NCC Commandant ✓ Volunteers of Nehru Yuva Kendra ✓ Swarms Association A private security agency
ESF-5	First aid and health	District Health Officer	<ul style="list-style-type: none"> ✓ Divisional Director Health and Medical Services. ✓ Medical Superintendent , Civil Hospital. ✓ Dean.Medical College ✓ Medical Officer Mun. Corporation ✓ MORailway Hospital ✓ Private Hospital Administrator ✓ Ambulance services ✓ Blood bank ✓ Red Cross ✓ NSS Unit ✓ Rotary Club ✓ Lions nothing ✓ Indian Medical Association DrugAshes ation
ESF-6	Transitional and temporary accommodation	Acting Superintendent Engineer , Roads and Buildings	<ul style="list-style-type: none"> ✓ Traffic Officer ✓ Paul Yes ✓ Fire Brigade ✓ Home Guard ✓ Ruler ✓ District Education Officer ✓ District Primary Officer ✓ School Management Board ✓ Registrar Saurasthan University ✓ Director ST.

			✓ Representative Transportation Mandap Service Association
ESF-7	Relief coordination	District Supply Officer	✓ Deputy Commissioner - Metropolitan Municipality ✓ Day Collector midday meal scheme ✓ Godown Manager Civil Supplies Corporation ✓ Association of Vijabibhavanandukandars ✓ Executive Engineer-Water Supply ✓ Ruler ✓ Midday meal manager ✓ Catering Association ✓ Grain Merchants Association ✓ Gas Agencies Association ✓ Petrol Pump Managers Association ✓ Petrol Pump Operators Association ✓ Chamber of Commerce Representatives of socio-religious organizations
ESF-8	Essential Facility - Electricity	Kay Palak Engineer P.G.V.C.L.	✓ Mamlatdar , Roads and Buildings Department District Education Officer
ESF-9	Necessary facilities - water , light	Acting Superintending Engineer Water Supply Board	✓ Construction Department ✓ Water Works Department-R.M.N.P. ✓ Private water supplier Transport Organization
ESF-10	Debris removal and road opening operations	Roads and Buildings Department	✓ Construction Department- Metropolitan Municipality ✓ District Sainik Board ✓ Urban Development Authority ✓ Range Forest Officer ✓ Roads and Buildings Department ✓ home guard ✓ SRP ✓ NSS-NCC
ESF-11	Animal husbandry and dead animal disposal	Deputy Director Animal husbandry	✓ Voluntary organizations ✓ Solid Waste Management Department- Ra.Mu.Co. Traffic Officer

6.8 Distribution of relief materials.

- Food

After a disaster, people feel an immediate need for food. In such a situation, easy dry snacks or meals are arranged for the people living in the relief camps or the affected people with immediate effect.

- water

Natural or man-made disasters cause drinking water problems. Plans should be made immediately to ensure safe drinking water for people's health.

- Health

The potential for outbreaks during or after a disaster is very high. As a result of people's accommodation , water and sanitation , temporary housing arrangements and population density, the health of the people is threatened. Health oriented facilities are not available in time due to disaster.e

- Clothes/Utensils

To provide necessary clothes and shelter to the affected people.

- Temporary accommodation.

Evacuate disaster affected people to safe shelter and provide necessary support and resources to family members.

- Relief camp.

To prepare relief camps in a good place and easily accessible to people. Generally educational institutions , religious places , relief camps are suitable places. Along with improving the availability of drinking water , light , washing facilities , health-oriented facilities and all kinds of life-necessary facilities like water , electricity , vehicular movement , health protection in the relief camp, the affected people should take shelter in the relief camp. To improve proper documentation.

6.9 Documentation.

To arrange the management of information in order to convey the correct information about the disaster to the competent authority with appropriate forms and to arrange the arrangement for conveying the report to the people and to the competent authority after obtaining an estimate of the situation. At a given time, the information about the true situation should be provided to the media and the correct information should be provided in the sense of wide reach.

Properly documenting the entire disaster event , operations , experience gained and lessons learned from the disaster so that this experience can be helpful in response operations.

-: Chapter-7 :- Recovery Plan

The plan aims to rehabilitate or improve disaster-affected areas and people. Essential services , infrastructure , people's livelihood , health and overall lifestyle are affected due to disaster. It is desirable that all these aspects are restored immediately. Follow these strategies to restore physical infrastructure and essential services.

Build better than before: New construction works should be done in such a way that they will not be damaged in repeated calamities so that they should be built better than before.

Participatory planning: Construction and works should be done keeping in view the social and cultural styles and needs of the people. For this, participation of stakeholders in planning is essential.

Co-ordination: Preparation of rehabilitation plan in coordination with various departments. An immediate loss assessment and assessment of people's needs is an important aspect of such planning.

- ✓ The following various sectors should be rehabilitated or operationalized.
- ✓ Essential Services - Electricity , Water , Communication , Transport , Sanitation , Health.
- ✓ Infrastructure/Construction – Housing , Public Buildings and Roads.

Livelihood – Agriculture , cottage industry , shop and market and employment.

Services like electricity , water , sanitation , sewage disposal etc. should be started immediately. Alternative strategies and actions for launching such services should be decided in advance , local bodies , departments , corporates can be taken as needed .

7.1 Loss Survey.

- ✓ According to the guidance given by the relief commissioner to get an estimate of the needs and the damage caused by the people living in the affected area, work will be done to get an estimate of the damage and needs in the district.
- ✓ An urgent meeting of the members of the Damage Task Force will be called by the Liaison Officer of Disaster Management of the Taluka and manpower , vehicles , stationery and all other materials required for the damage survey will be provided.
- ✓ Arrangements will be made for speedy demolition of hazardous and dangerous buildings.
- ✓ The debris will be moved and disposed of properly.
- ✓ Payment of relief materials and cash doll will be planned and distributed.
- ✓ A survey will be conducted regarding human deaths and animal deaths.
- ✓ Special task forces will be constituted to get a correct report of the damage.
- ✓ A Damage Survey Task Force has been formed under the leadership of the Sub Zonal Officer to assess the damage in the affected areas.
- ✓ An open space will be selected in the earthquake affected area for construction of temporary accommodation and arrangements will be made to reach the affected people to temporary accommodation.

- ✓ Distribution of all necessities of life at temporary accommodation by Sub Zonal Officer

Necessary materials for construction of temporary accommodation will be distributed to the affected.

7.2 Format for Damage & Loss Assessment.

D. Assessment:

Investigate the building for the conditions given below and check the appropriate column.

Observed Conditions	None	Minor	Moderate	Severe
● Collapse, partial collapse, or subsidence or uneven settlement of foundations	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
● Building or story leaning	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

-: Chapter-8 :- Finance and Budget

The Financial projections is an annual program at the district level. There are two types of budgets for disaster management , one is the departmental budget of different departments and the other is the budget for expenses required separately for disaster management.

Name	purpose	Financial management	Activities that can be undertaken under the scheme	Responsible Department
State Fund	Disaster management	100% State Govt	Disaster Mitigation	GSDMA
NDRF (NCCF)	Relief assistance	100% Central Govt	Cash relief	Department of Revenue
SDRF (CRF)	Relief assistance	75% Central Govt Rs.% State Govt	Cash relief	Department of Revenue
Planning Commission (13th Finance Commission R011 to R01P)	Capacity building	100% Central Govt	Trainings , educational material for public awareness , Mockdral	Department of Revenue
Various sections	Preparedness and Mitigation	from the budget of the department	D.R.R. Preparedness and Mitigation	Various sections
District Planning Board	Any public function	M.P. and legislative aid and grants	Preparedness , Capacity Building and Rehabilitation	Local bodies and various departments
Assistance from outside organizations	DRR programs for rehabilitation , mitigation and preparedness	External , partisan or multi-party arrangements	Infrastructure improvement , technology intervention and technical studies in DRR program	Department of Revenue
donor	anyone	All donations are in cash or in kind	anyone	DDMA/TDMA
CSR	Corporate	3% of profit	anyone	Charity Commissioner and Corporate
Public appeal	Immediate relief	Fully or partially external fund	Immediate relief and reconstruction	DDMC/TDMC

-: Chapter-9 :- Provision for operationalizing the plan

According to Chapter 13 Section 32 of Gujarat Disaster Management Act - 2003, provision has been made in the management plan to declare any area as disaster prone or disaster prone city. These provisions are as follows.

- Where a disaster has occurred or there is a threat of disaster
- If the area is spread over more than one district, the Relief Commissioner.

If spread in a single district, the Collector will immediately send its report to the State Government.

On the basis of this report, the State Government will issue an announcement in the Government Gazette or in newspapers of wide circulation regarding the occurrence of disaster or potential disaster. Concerned authorities (State Authority , Commissioner , Collector , Departments and other agencies) will perform their duty with regard to disaster management from the time of pollution till the end or the period is extended V kept can or can cancel , in case of any disaster in any particular taluka or one or two talukas, the Provincial Officer , Liaison Officer or Mamlatdar may declare the area of the taluka as disaster prone or disaster prone with the coordination of the concerned district authority and the district authority may declare the area of the taluka as disaster prone or disaster prone. Coordination can reveal disaster potential areas.

The plan has to be updated twice a year i.e. during the months of May and October in hard copy and soft copy and once in a year the plan has to be updated taking into account the past experiences.

Mock drills on various topics will be organized from time to time for public awareness and verification as suggested in the plan.

Annexure - 1
History of disasters in the district

order	Type of disaster	Intensity	Last Event (Month/Year)
1	Storm	Medium	1998
2	Earthquake	Intense	2001
3	Flood	Medium	2017
4	Thunderstorm	Normal	2021
5	Chemical (Industrial Accident)	-	-

Annexure - 2

6.59 Information of warning signals for cyclone

PORT STORM WARNING SIGNAL NO.	DAY SIGNAL	NIGHT SIGNAL	MEANING
1			DISTANT CAUTIONARY (There is a region of squally weather in which a storm may be forming.)
2			DISTANT WARNING (A storm has formed.)
3			LOCAL CAUTIONARY (The port is threatened by squally weather.)
4			LOCAL WARNING (The port is threatened by a storm but it does not appear that the danger is as yet sufficiently great to justify extreme measures of precaution.)
5			DANGER (The port will experience severe weather from a cyclone expected to move keeping the port to the left of its track.)
6			DANGER (The port will experience severe weather from a cyclone expected to move keeping the port to the right of its track.)
7			DANGER (The port will experience severe weather from a cyclone expected to move over or close to the port.)
8			GREAT DANGER (The port will experience severe weather from a severe cyclone expected to move keeping the port to the left of its track)

9			<p>GREAT DANGER (The port will experience severe weather from a severe cyclone expected to move keeping the port to the right of its track)</p>
10			<p>GREAT DANGER (The port will experience severe weather from a severe cyclone expected to move over or close to the port.)</p>
11			<p>FAILURE OF COMMUNICATIONS (Communications with the Meteorological Warning center have broken down and the local officer considers that there is danger of bad weather.)</p>
